(Programming Methodology) this text constitutes an exciting
 reference on the front-line of research activity in programming
 methodology. The range of subjects reflects the current interests
 of the members, and will offer insightful and controversial
 opinions on modern programming methods and practice. The
 material is arranged in thematic sections, each one introduced by
 a problem which epitomizes the spirit of that topic. The
 exemplary problem will encourage vigorous discussion and will
 form the basis for an introduction/tutorial for its section.
