Maxwell Daily Reader Thomas Nelson Inc

New York Times best-selling author John C. Maxwell shows that talent is just the starting point for a successful impact in any organization. It's what takes you beyond your talent that matters. People everywhere are proving him right. Read the headlines, watch the highlights, or just step out your front door: Some talented people reach their full potential, while others self-destruct or remain trapped in mediocrity. What makes the difference? Maxwell, the go-to guru for business professionals across the globe, insists that the choices people make—not merely the skills they inherit—propel them to greatness. Among other truths, successful people know that: Belief lifts your talent. Initiative activates your talent. Focus directs your talent. Preparation positions your

talent. Practice sharpens your talent. Perseverance sustains your talent. Character protects your talent. . . . and more! It's what you add to your talent that makes the greatest difference. With authentic examples and time-tested wisdom, Maxwell shares thirteen attributes you need to maximize your potential and live the life of your dreams. You can have talent alone and fall short of your potential. Or you can go beyond talent and really stand out.

Attracting, Developing, and Multiplying Leaders Thomas Nelson Inc

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to.

3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5.

Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

Books can guide what we do and our lives. Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we can't remember if we have read it or not. And that's a shame. We remember that at that time, the book meant a lot to us. Why is it that 2 years later we have forgotten everything? That's not good.This summary is taken from the most important themes of the original book.Most people don't like books. People just want to know what the book says they have to do. If you trust the source you don't need the arguments. So much of a book is arguing its points, but often you don't need the argument if you trust the source you can just get the point.This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book. All this information is in the original book.
