MADALYNN SHANNON

Kissinger on Kissinger Oxford University Press on Demand

This ebook boxed set includes 3 complete memoirs of Henry Kissinger, detailing his life and work.

White House Years: One of the most important books to come out of the Nixon Administration, *White House Years* covers Henry Kissinger's first four years (1969-1973) as Assistant to the President for National Security Affairs. *Years of Upheaval*: This second volume of Henry Kissinger's monumental memoirs covers his years as President Richard Nixon's Secretary of State (1972-1974), including the ending of the Vietnam War, the 1973 Middle East War and oil embargo, Watergate, and Nixon's resignation. *Years of Upheaval* opens with Dr. Kissinger being appointed Secretary of State. *Years of Renewal*: This third and final volume of memoirs completes a major work of contemporary history. The third & final volume begins with the resignation of Nixon and takes the reader through the years of Ford's administration, in which Kissinger continued to play a decisive role. *Years of Renewal* is the triumphant conclusion of a major achievement and a book that will stand the test of time as a historical document of the first rank.

The Diplomacy of Detente Penguin

Dissects Kissinger's complex, often controversial political career, examining the triumphs and blunders of his "shuttle diplomacy," the negotiations to normalize relations with China, and other foreign policy decisions

Years of Renewal Independently Published

"Henry Kissinger: Life and Legacy" is a book that provides an in-depth examination of the life and career of Henry Kissinger, a prominent American diplomat, political scientist, and geopolitical consultant who played a key role in shaping U.S. foreign policy during the Cold War era. The book is divided into four main sections, including the introduction, early life and education, U.S. Army, and academic career. **Section 1: Introduction** The introduction section provides a brief overview of Henry Kissinger's life, including his birth in Fürth, Germany, his immigration to the United States, and his naturalization as a U.S. citizen. It also highlights Kissinger's academic career, including his time at Harvard University, where he earned his BA, MA, and Ph.D. in political science. **Section 2: Early Life and Education** This section provides a detailed account of Kissinger's early life, including his childhood, family background, and education. It covers his experiences during World War II, including his service in the U.S. Army, and his later involvement in the Vietnam War. **Section 3: U.S. Army** This section focuses on Kissinger's military career, including his service in the U.S. Army during World War II. It provides details on his experiences, including his time in the Counter Intelligence Corps, and his role in the occupation of Germany after the war. **Section 4: Academic Career** This section covers Kissinger's academic career, including his time as a lecturer at Harvard University, his rise through the ranks to become a full professor, and his research and publications on nuclear weapons and the balance of power. **Section 5: Foreign Policy** This section examines Kissinger's role in shaping U.S. foreign policy, particularly during the Cold War era. It covers his advocacy for the policy of détente, his negotiations with China, and his involvement in various conflicts, including the Vietnam War. **Section 6: Controversies and Criticisms** This section discusses the controversies and criticisms surrounding Kissinger's actions and views, including his role in the bombing of Cambodia, his support of military coups in Chile and Argentina, and his involvement in various other conflicts. **Section 7: Later Roles** This section covers Kissinger's later roles, including his time as a consultant, his involvement in various think tanks and organizations, and his continued involvement in international affairs. **Section 8: Legacy** This section examines Kissinger's legacy, including his awards and honors, his contributions to U.S. foreign policy, and his impact on international relations. The book "Henry Kissinger: Life and Legacy" provides a comprehensive and detailed account of

Kissinger's life, career, and impact on international relations. It covers a wide range of topics, including his early life, academic career, military service, foreign policy, controversies, and legacy. The book is well-researched and includes a wealth of information, making it an excellent resource for anyone interested in learning more about Henry Kissinger and his role in shaping U.S. foreign policy during the Cold War era. _____Keywords Henry Kissinger Diplomacy International Relations Cold War Vietnam War Middle East Statecraft Realpolitik Nixon

Administration Biography

[Kissinger on Kissinger](#) Simon and Schuster

In this second volume of Henry Kissinger's "endlessly fascinating memoirs" (The New York Times), Kissinger recounts his years as President Nixon's Secretary of State from 1972 to 1974, including the ending of the Vietnam War, the 1973 Middle East War and oil embargo, Watergate, and Nixon's resignation. *Years of Upheaval* opens with Dr. Kissinger being appointed Secretary of State. Among other events of these turbulent years that he recounts are his trip to Hanoi after the Vietnam cease-fire, his efforts to settle the war in Cambodia, the "Year of Europe," two Nixon-Brezhnev summit meetings and the controversies over arms control and détente, the military alert and showdown with the Soviet Union over the Middle East war, the subsequent oil crisis, the origins of shuttle diplomacy in the Middle East, the fall of Salvador Allende in Chile, and the tumultuous events surrounding Nixon's resignation. Throughout are candid appraisals of world leaders, including Nixon, Golda Meir, Anwar Sadat, King Faisal, Hafez al-Asad, Chairman Mao, Leonid Brezhnev, Willy Brandt, Helmut Schmidt, Georges Pompidou, and many more. At once illuminating, fascinating, and profound, *Years of Upheaval* is a lasting contribution to the history of our time by one of its chief protagonists.

The Necessity for Choice Simon and Schuster

The U.S. Secretary of State from 1973 to 1977 addresses the major issues and problems facing American foreign policy

[Henry Kissinger](#) Independently Published

Henry Kissinger conducted American foreign policy with a distinctive assurance and panache that gave dramatic force to his tenure as secretary of state. His was the shaping hand in decisions that led to détente with the Soviet Union, to opening relations with the People's Republic of China, and to "shuttle" diplomacy in the Middle East and the disengagement of Egypt and Israel during the 1973 war. Taking a fresh look at the statecraft of Henry Kissinger, Harvey Starr brings to bear a variety of analytical methods on data drawn from different stages in Kissinger's career to define and explain the beliefs and perceptions that formed the ground of his policy decisions. Using psychohistory and content analysis, Starr defines Kissinger's perceptions of his adversaries—the Soviet Union and Red China—and draws revealing comparisons between Kissinger and John Foster Dulles. *Henry Kissinger: Perceptions of International Politics* is an illuminating view of an important era in American diplomacy.

Crisis Diane Books Publishing Company

This ebook box set includes the following books by Henry Kissinger, detailing America's approach to foreign policy. *Crisis*: By drawing upon hitherto unpublished transcripts of his telephone conversations during the Yom Kippur War (1973) and the last days of the Vietnam War (1975), Henry Kissinger reveals what goes on behind the scenes at the highest levels in a diplomatic crisis. *Does America Need A Foreign Policy?*: With a new afterword by the author that addresses the situation in the aftermath of September 11, this thoughtful and important book, written by America's most famous diplomatist, explains why we urgently need a new and coherent foreign policy and what our foreign policy goals should be in this new millennium. In seven accessible chapters, Kissinger provides a crystalline assessment of how the United States' ascendancy as the world's dominant presence in the twentieth century may be effectively reconciled with the urgent need in the twenty-first century to achieve a bold new world order. *Diplomacy: Moving from a sweeping*

overview of history to blow-by-blow accounts of his negotiations with world leaders, Henry Kissinger describes how the art of diplomacy has created the world in which we live, and how America's approach to foreign affairs has always differed vastly from that of other nations. This is vital reading for anyone concerned with the forces that have shaped our world today and will impact upon it tomorrow.

Henry Kissinger (Former Us Secretary) University Press of Kentucky

THE SEMINAL WORK ON FOREIGN POLICY AND THE ART OF DIPLOMACY Moving from a sweeping overview of history to blow-by-blow accounts of his negotiations with world leaders, Henry Kissinger describes how the art of diplomacy has created the world in which we live, and how America's approach to foreign affairs has always differed vastly from that of other nations. Brilliant, controversial, and profoundly incisive, Diplomacy stands as the culmination of a lifetime of diplomatic service and scholarship. It is vital reading for anyone concerned with the forces that have shaped our world today and will impact upon it tomorrow.

Henry Kissinger Foreign Policy E-book Boxed Set Weidenfeld & Nicolson

By drawing upon hitherto unpublished transcripts of his telephone conversations during the Yom Kippur War (1973) and the last days of the Vietnam War (1975), Henry Kissinger reveals what goes on behind the scenes at the highest levels in a diplomatic crisis. The two major foreign policy crises in this book, one successfully negotiated, one that ended tragically, were unique in that they moved so fast that much of the work on them had to be handled by telephone. The longer of the two sections deals in detail with the Yom Kippur War and is full of revelations, as well as great relevancy: In Kissinger's conversations with Golda Meir, Israeli Prime Minister; Simcha Dinitz, Israeli ambassador to the U.S.; Mohamed el-Zayyat, the Egyptian Foreign Minister; Anatoly Dobrynin, the Soviet Ambassador to the U.S.; Kurt Waldheim, the Secretary General of the U.N.; and a host of others, as well as with President Nixon, many of the main elements of the current problems in the Middle East can be seen. The section on the end of the Vietnam War is a tragic drama, as Kissinger tries to help his president and a divided nation through the final moments of a lost war. It is full of astonishing material, such as Kissinger's trying to secure the evacuation of a Marine company which, at the very last minute, is discovered to still be in Saigon as the city is about to fall, and his exchanges with Ambassador Martin in Saigon, who is reluctant to leave his embassy. This is a book that presents perhaps the best record of the inner workings of diplomacy at the superheated pace and tension of real crisis.

Leadership Simon and Schuster

In a series of riveting interviews, America's senior statesman discusses the challenges of directing foreign policy during times of great global tension. As National Security Advisor to Richard Nixon, Henry Kissinger transformed America's approach to diplomacy with China, the USSR, Vietnam, and the Middle East, laying the foundations for geopolitics as we know them today. Nearly fifty years later, escalating tensions between the US, China, and Russia are threatening a swift return to the same diplomatic game of tug-of-war that Kissinger played so masterfully. Kissinger on Kissinger is a series of faithfully transcribed interviews conducted by the elder statesman's longtime associate, Winston Lord, which captures Kissinger's thoughts on the specific challenges that he faced during his tenure as NSA, his general advice on leadership and international relations, and stunning portraits of the larger-than-life world leaders of the era. The result is a frank and well-informed overview of US foreign policy in the first half of the 70s—essential reading for anyone hoping to understand tomorrow's global challenges.

An Analysis of Henry Kissinger's World Order Macat Library

This first major reassessment of Kissinger in over a decade paints a subtle, carefully composed portrait of America's most famous and infamous statesman.

The Flawed Architect Simon and Schuster

A perceptive and provocative history of Henry Kissinger's diplomatic negotiations in the Middle East that illuminates the unique challenges and barriers Kissinger and his successors have faced in their attempts to broker peace between Israel and its Arab neighbors. "A wealth of lessons for today, not only about the challenges in that region but also about the art of diplomacy . . . the drama, dazzling maneuvers, and grand strategic vision."—Walter Isaacson, author of *The Code Breaker* More than twenty years have elapsed since the United States last brokered a peace agreement between the Israelis and Palestinians. In that time, three presidents have tried and failed. Martin Indyk—a former United States ambassador to Israel and special envoy for the Israeli-Palestinian negotiations in 2013—has experienced these political frustrations and disappointments firsthand. Now, in an attempt to understand the arc of American diplomatic influence in the Middle East, he returns to the origins of American-led peace efforts and to the man who created the Middle East peace process—Henry Kissinger. Based on newly available documents from American and Israeli archives, extensive interviews with Kissinger, and Indyk's own interactions with some of the main players, the author takes readers inside the negotiations. Here is a roster of larger-than-life characters—Anwar Sadat, Golda Meir, Moshe Dayan, Yitzhak Rabin, Hafez al-Assad, and Kissinger himself. Indyk's account is both that of a historian poring over the records of these events, as well as an inside player seeking to glean lessons for Middle East peacemaking. He makes clear that understanding Kissinger's design for Middle East peacemaking is key to comprehending how to—and how not to—make peace.

Does America Need a Foreign Policy? Macmillan + ORM

"This book analyzes U.S. policies toward Latin America during a critical period of the Cold War when Henry Kissinger was serving as national security advisor and secretary of state"--

Reflections on American Diplomacy Simon and Schuster

Perhaps the best-known American diplomat of the twentieth century, Henry Kissinger is a major figure in world history, winner of the Nobel Peace Prize, and arguably one of the most brilliant minds ever placed at the service of American foreign policy, as well as one of the shrewdest, best-informed, and most articulate men ever to occupy a position of power in Washington. The eagerly awaited third and final volume of his memoirs completes a major work of contemporary history. It is at once an important historical document and a brilliantly told narrative of almost Shakespearean intensity, full of startling insights, unusual (and often unsparring) candor, and a sweeping sense of history. *Years of Renewal* is the triumphant conclusion of a major achievement and a book that will stand the test of time as a historical document of the first rank.

Diplomacy Knopf

In this first volume of his memoirs, Dr Kissinger covers his first four years (1969-1973) as Assistant to the President for National Security Affairs, and President Nixon's closest adviser on foreign policy. It is undoubtedly the most significant book to come out of the Nixon Administration. Among the countless great and critical moments Dr Kissinger recalls are his first meeting with Nixon, his secret trip to China, the first SALT negotiation, the Jordan crisis of 1970, the India-Pakistan war of 1971,

and the historic summit meetings in Peking and Moscow. He covers the major controversies over Indochina policy during that period, including events in Laos, the overthrow of Cambodia's Prince Sihanouk, his secret talks with the North Vietnamese in Paris, his 'Peace is at hand' press conference, and the breakdown of the talks that led to the 'Christmas bombing' of 1972. He offers his insights into the Middle East conflicts, Sadat's break with the Soviets, the election of Salvador Allende in Chile, issues of defence strategy, and relations with Europe and Japan. Other highlights are his relationship with Nixon, brilliant portraits of major foreign leaders, and his views as to the handling of crises and the art of diplomacy. Few men have wielded as much influence in the arena of American foreign policy as Henry Kissinger. This record makes an invaluable and lasting contribution to the history of this crucial time.

White House Years W W Norton & Company Incorporated

In this book Professor Kissinger examines the framework of our foreign policy, the stresses to which that framework is being subjected, and the prospects for world order in an era of high international tension. The three essays were written before Professor Kissinger took leave from Harvard to serve as Assistant to President Nixon for National Security

Kissinger and Latin America St. Martins Press-3PL

An instant New York Times bestseller Henry Kissinger, consummate diplomat and statesman, examines the strategies of six great twentieth-century figures and brings to life a unifying theory of leadership and diplomacy "An extraordinary book, one that braids together two through lines in the long and distinguished career of former Secretary of State Henry Kissinger...In Leadership he presents a fascinating set of historical case studies and political biographies that blend the dance and the dancer, seamlessly." - James Stavridis, *The Wall Street Journal* "Leaders," writes Henry Kissinger in this compelling book, "think and act at the intersection of two axes: the first, between the past and the future; the second, between the abiding values and aspirations of those they lead. They must balance what they know, which is necessarily drawn from the past, with what they intuit about the future, which is inherently conjectural and uncertain. It is this intuitive grasp of direction that enables leaders to set objectives and lay down a strategy." In Leadership, Kissinger analyses the lives of six extraordinary leaders through the distinctive strategies of statecraft, which he believes they embodied. After the Second World War, Konrad Adenauer brought defeated and morally bankrupt Germany back into the community of nations by what Kissinger calls "the strategy of humility." Charles de Gaulle set France beside the victorious Allies and renewed its historic grandeur by "the strategy of will." During the Cold War, Richard Nixon gave geostrategic advantage to the United States by "the strategy of equilibrium." After twenty-five years of conflict, Anwar Sadat brought a vision of peace to the Middle East by a "strategy of transcendence." Against the odds, Lee Kuan Yew created a powerhouse city-state, Singapore, by "the strategy of excellence." And, though Britain was known as "the sick man of Europe" when Margaret Thatcher came to power, she renewed her country's morale and international position by "the strategy of conviction." To each of these studies, Kissinger brings historical perception, public experience and—because he knew each of the subjects and participated in many of the events he describes—personal knowledge. Leadership is enriched by insights and judgements that only Kissinger could make and concludes with his reflections on world order and the indispensability of leadership today.

Nuclear Weapons and Foreign Policy New York : Quadrangle/New York Times Book Company

This third and final volume of memoirs completes a major work of contemporary history and a brilliantly told narrative full of startling insights, candour and a sweeping sense of history. It begins with the resignation of Nixon - including Kissinger's final assessment of Nixon's tortured personality and the self-inflicted tragedy that ended his presidency, making Kissinger, for a time, the most powerful man in American government. This book abounds in crisis - Vietnam, Watergate, the Cold War. Here are brilliant scenes, as only an insider could write them, of the high-level meetings that shaped American foreign policy, the famous 'shuttle' diplomacy by which Kissinger succeeded in bringing a reluctant and wary Rabin and anxious Sadat together to begin to return of the Sinai to Egypt and the SALT talks with the Soviet Union that began the process of nuclear limitation. Here also are intimate and profound portraits of world leaders from Mao, teasing Kissinger while displaying a poetic wisdom, to Brezhnev at the Vladivostok summit, confused, ill-prepared, unwell, desperately to conceal the Soviet Union's difficulties with a screen of blustering bravado.

Kissinger and the Invasion of Cyprus Hill and Wang

[Henry Kissinger and American Power] effectively separates the man from the myths." —The Christian Science Monitor | Best books of August 2020 The definitive biography of Henry Kissinger—at least for those who neither revere nor revile him Over the past six decades, Henry Kissinger has been America's most consistently praised—and reviled—public figure. He was hailed as a "miracle worker" for his peacemaking in the Middle East, pursuit of détente with the Soviet Union, negotiation of an end to the Vietnam War, and secret plan to open the United States to China. He was assailed from the left and from the right for his indifference to human rights, complicity in the pointless sacrifice of American and Vietnamese lives, and reliance on deception and intrigue. Was he a brilliant master strategist—"the 20th century's greatest 19th century statesman"—or a cold-blooded monster who eroded America's moral standing for the sake of self-promotion? In this masterfully researched biography, the renowned diplomatic historian Thomas Schwartz offers an authoritative, and fair-minded, answer to this question. While other biographers have engaged in hagiography or demonology, Schwartz takes a measured view of his subject. He recognizes Kissinger's successes and acknowledges that Kissinger thought seriously and with great insight about the foreign policy issues of his time, while also recognizing his failures, his penchant for backbiting, and his reliance on ingratiation and fawning praise of the president as a source of power. Throughout, Schwartz stresses Kissinger's artful invention of himself as a celebrity diplomat and his domination of the medium of television news. He also notes Kissinger's sensitivity to domestic and partisan politics, complicating—and undermining—the image of the far-seeing statesman who stands above the squabbles of popular strife. Rounded and textured, and rich with new insights into key dilemmas of American power, *Henry Kissinger and American Power* stands as an essential guide to a man whose legacy is as complex as the last sixty years of US history itself.

Henry Kissinger The Complete Memoirs E-book Boxed Set Palgrave Macmillan

One of America's foremost statesmen, Henry Kissinger was interested in how different countries, in different periods, in all parts of the globe have attempted to impose order on an often chaotic world. World Order sets out his understanding of how we make sense of the world politically. Kissinger identifies four principal competing methods by which order has been and is still sought: the European, Chinese, Islamic, and American, none of which is dominant. He asks whether a new, universal world order can be developed today. And, if so, should it be based on a 'realistic' approach, accepting that conflict is frequently unavoidable, or a 'liberalist' approach, seeking international cooperation? Book jacket.
