The following provides instructions for the collection of acceleration data from the cantilever beams in the vibration lab (RC 139) upon excitation from an impulse hammer. Data acquisition with the Bobcat; Equipment and Software Setup Procedures; Mechanical Vibrations Lab Manual — Wright State University ... Laboratory 1 Free Vibration Summary This laboratory introduces the basic principles involved in free vibration. The apparatus consists of a spring-mass-damper system that includes three different springs, variable mass, and a variable damper. The laboratory is designed to provide the students with insight into the influence of the ME 451 Mechanical Vibrations Laboratory Manual Mechanical
