Proceedings of the Meeting of the Central Advisory Board of Education SAGE Publishing India

The Kathakali Explorer is a 1916 account by A. Merwart (1916) of a Kathakali performance presented in Kerala (India) now given in translation by Richard Tremblay with an introduction and annotations. The abundantly annotated translation is followed by a travelogue kept by A. Merwart and his co-researcher M. Merwart about their four-year life and work in India, and the people they befriended on their tireless research journey all the way from South India to Kashmir. According to Gertrude P. Kurath (1963), this ethnological account "reveals the outstanding fact that ethno-choreography came into being even before 1933, the publication date of Curt Sachs' *Weltgeschlchte des Tanzes*. **Islamic Reform in South Asia** Motilal Banarsidass Publ.

This book can be downloaded as a PDF file from here. This book I wrote, I presume, in 2013. It is a huge book of epic parameters. The basic underlying theme is the essential difference, planar-languages has with feudal-languages. Feudal languages are quite powerful, in that, the moment they are spoken, the social structure and human relationships change powerfully into a custom-design hierarchy, depending on the language. When planar-languages are spoken, the social system and human relationship shift towards a planar arrangement. For a planar-language social system to experience feudal-language communication is a very creepy experience. Individuals can go berserk. Mental trauma and emotional terrors, which cannot be understood by the native-English, will effect individuals selectively; with the others having no idea that some individuals among them have been effected. This is a very vital piece of information which all native-English nations should understand. For, youngsters, persons engaged in professions which are defined in pejorative usages in feudal-languages, and various others can literally go mentally ill, when accosted or connected with feudal-language speakers. The issue of Gun violence in the US in which innately decent and peaceful persons go homicidal can be directly or indirectly connected to the affliction caused by feudal languages. I very specifically mention the name of Adam Purinton in this connection. It is dangerous to allow bilingualism to run riot in native-English nations, if the other language is a feudal-language. For, feudal languages do have carnivorous codes. Inside feudal-language nations, people do keep a distance from lower-positioned persons and groups of persons, who can, if they want, bite them verbally, without the use of any abusive word, profanity or expletive. Simply change the indicant-word level of certain key words. The terrific damage is done. Modern psychology and psychiatry can be utter nonsense. They do not know about these things. Verbal signals can trigger various kinds of switch-on and switch-off effects in others. Instead of focusing on the person who has been affected, it would be more intelligent and effective to find out who is sending the switch-on and switch-off signals. And send them home to their home-lands. Feudal languages can create mutation in physical features, emotional balance, human relationships, national economy, and stature of professions, and in many more things about which native-English nations have no information on. It is dangerous for the native-English to learn feudal-languages, when living in the midst of feudal-language speakers. It would only have the effect of allowing the feudal-language speakers to place a powerful grip on them, physically and mentally. In fact, the feudal languages speakers would literally be able to control the emotional stability of the native-English speakers, if they can be made to understand feudal languages. It would be like string-puppetry. The native-English who have learned feudal languages can literally be made to dance, yell and jump as per the pull and push that can be conveyed by means of the holding strings of the verbal codes in feudal-languages. At the same time, for feudal language speakers, knowing English is a great advantage. It would give a very powerful pathway and bridge for them to crossover the various gorges in their own communication code and enter into the placid native-English locations. As of now, almost all native-English nations are simply

getting dismantled and disarrayed by the spread of feudal-language speakers inside their vital areas. Things are going into various errors. Much worse is in the offing, unless effective steps are taken to forestall them. I wrote this book some five years back. In this book, a bit of the personal experiments I have done many years ago on certain individuals has been mentioned. This book is not focused on the internal codes in feudal-languages. This book moves through the peripheral areas of many other items, including the English colonial rule in the subcontinent.

Enhancing Personal Effectiveness: Training Instruments For Students, Teachers And Parents (Book + Floppy) Oxford University Press

This collection pulls together a wide range of perspectives to explore the possibilities and the boundaries of the paradigm of English studies in India. It examines national identity and the legacy of colonialism through a study of comparative and multi ethnic literature, education, English language studies and the role ICT now plays in all of these fields. Contributors look at how the issue of identity can be addressed and understood through food studies, linking food, culture and identity. The volume also considers the timely and very relevant question of gender in Indian society, of the role of the woman, the family and the community in patriarchal contemporary Indian society. Through the lens of literature, culture, gender, politics, this exciting volume pulls together the threads which constitute modern Indian identity.

Census of India, 1901: India I. Report Xlibris Corporation

Trafficking of persons is a modern-day form of slavery, threatening the dignity and security of millions of people throughout the world. Virtually every country in the world and every state of India is affected by this crime as a place of origin, transit or destination for victims. This book is an attempt to discuss various issues of human trafficking, including perspectives of various stakeholders. The book argues that crime cannot be dealt with only by applying piecemeal tactics. Instead, it will require an organised professional, multi-disciplinary and multi-agency approach, calling for concerted, collaborative and participatory efforts of all stakeholders. All the essays included in this book are original works delving deeply into various forms of human trafficking. They are organised into different themes such as sexual exploitation, child trafficking, trafficking outside India, legal aspects, state experiences and case studies.

The Kathakali Explorer Calgary : Journal of Comparative Family Studies, Department of Sociology, University of Calgary

The monotheistic religions of Judaism, Christianity, and Islam have severely limited the portrayal of the divine as feminine. But in Hinduism "God" very often means "Goddess." This extraordinary collection explores twelve different Hindu goddesses, all of whom are in some way related to Devi, the Great Goddess. They range from the liquid goddess-energy of the River Ganges to the possessing, entrancing heat of Bhagavati and Seranvali. They are local, like Vindhya Vasini, and global, like Kali; ancient, like Saranyu, and modern, like "Mother India." The collection combines analysis of texts with intensive fieldwork, allowing the reader to see how goddesses are worshiped in everyday life. In these compelling essays, the divine feminine in Hinduism is revealed as never before--fascinating, contradictory, powerful.

Making of Distinctions SILENTCULTURE Publishers

"Lush and mysterious...casts its spell from the first page...This is a deeply satisfying novel." - Kelly O'Connor McNees, author of *The Island of Doves* The redemptive journey of a young woman unsure of her engagement, who revisits in memory the events of one scorching childhood summer when her beautiful yet troubled mother spirits her away from her home to an Indian village untouched by time, where she discovers in the jungle behind her ancestral house a spellbinding garden that harbors a terrifying secret.

Essays in Language, Literature and Culture International Labour Organization

This book discusses the sequential development of population research in India, focusing on contemporary issues like demography, population studies, geography, sociology, urban studies and

many more. It describes the problems related to the underdeveloped regions in India, Nepal and Bangladesh and includes tabular representations of the analyzed data as well as visual representations/illustrations in the form of graphs and maps. Further, it features fascinating case studies on primary field-research experiences. Presenting interdisciplinary contributions, the book is divided into four sections: the first part examines social issues related to health, while the second explores social sustainability, lifestyles, and cultural aspects. The third and fourth sections address migration and quality of life, respectively. The book is of interest to students studying demography, as well as researchers and policymakers in the fields of population studies, geography and sociology.

The Enigma of the Kerala Woman Gyan Publishing House

Dancing Women: Choreographing Corporeal Histories of Hindi Cinema, an ambitious study of two of South Asia's most popular cultural forms cinema and dance historicizes and theorizes the material and cultural production of film dance, a staple attraction of popular Hindi cinema. It explores how the dynamic figurations of the body wrought by cinematic dance forms from the 1930s to the 1990s produce unique constructions of gender, sexuality, stardom, and spectacle. By charting discursive shifts through figurations of dancer-actresses, their publicly performed movements, private training, and the cinematic and extra-diegetic narratives woven around their dancing bodies, the book considers the "women's question" via new mobilities corpo-realized by dancing women. Some of the central figures animating this corporeal history are Azurie, Sadhona Bose, Vyjayanthimala, Helen, Waheeda Rehman, Madhuri Dixit, and Saroj Khan, whose performance histories fold and intersect with those of other dancing women, including devadasis and tawaifs, Eurasian actresses, oriental dancers, vamps, choreographers, and backup dancers. Through a material history of the labor of producing on-screen dance, theoretical frameworks that emphasize collaboration, such as the "choreomusicking body" and "dance musicalization," aesthetic approaches to embodiment drawing on treatises like the *Natya Sastra* and the *Abhinaya Darpana*, and formal analyses of cine-choreographic "techno-spectacles," *Dancing Women* offers a variegated, textured history of cinema, dance, and music. Tracing the gestural genealogies of film dance produces a very different narrative of Bombay cinema, and indeed of South Asian cultural modernities, by way of a corporeal history co-choreographed by a network of remarkable dancing women.

World Englishes Westland Publication Limited

Giving a bird's eye view of the of the circumstances leading to the present scenario impacting my people and also to showcase some of the numerous burning problems we face today in Hindustan even 71 years after attaining 'independence' from Britain although the real freedom from mental slavery is yet to be attained.

Kerala Co-Text Publishers

The beloved debut novel about an affluent Indian family forever changed by one fateful day in 1969, from the author of *The Ministry of Utmost Happiness* NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated.

Socio-economic Changes in a Kuttanad Village in Kerala IAP

Study of Thalavady Village, Kerala, 1978.

Taylor & Francis

This study examines neoliberal strategies of governmentality in India. The author analyzes the effects of globalization and how women's subjectivities are shaped in a variety of sociopolitical contexts.

Census of India, 1901 Springer Nature

Hi, I'm Keshav, and my life is screwed. I hate my job and my girlfriend left me. Ah, the beautiful Zara. Zara is from Kashmir. She is a Muslim. And did I tell you my family is a bit, well, traditional? Anyway, leave that. Zara and I broke up four years ago. She moved on in life. I didn't. I drank every night to forget her. I called, messaged, and stalked her on social media. She just ignored me. However, that night, on the eve of her birthday, Zara messaged me. She called me over, like old times, to her hostel room 105. I shouldn't have gone, but I did... and my life changed forever. This is

not a love story. It is an unlove story. From the author of *Five Point Someone* and *2 States*, comes a fast-paced, funny and unputdownable thriller about obsessive love and finding purpose in life against the backdrop of contemporary India.

A Social History of Indian Circus Springer

Jumbos and Jumping Devils is a pioneering exploration of the social history of circus in India over the last 150 years. It presents a wide variety of amazing tales ranging from the blooming and evolution of circus acrobatics in early twentieth-century Malabar to the sensational legal battles following the ban of wild animals and children from the circus ring in the twenty-first century. Alongside extensive fieldwork and interviews, the author has used memorabilia including photographs, notices, posters, letters, diaries, unpublished autobiographies, private papers, and recollections of the circus community to chronicle the hitherto untold story of the Indian circus. The book paves the way for a new sociocultural analysis of performance genres and popular culture in the subcontinent against several overlapping contexts. These include the remaking of caste and gender identities, transformation of physical cultures and bodies, interventions of the colonial and postcolonial states, and emergence of new transregional and transnational spaces.

Neoliberalism and Women in India Governmentality Perspectives Rowman & Littlefield

Demographic and Socio-economic Impact of a Fisheries Development Project Springer

Combines macro- and micro-level methodological techniques and supplements them with historical data from demographic records; of interest to demographers, economic planners, project formulators and those interested in women's studies, since it shows how great the effect of development projects is on women, even if they are not directly concerned by them.

Census of India 1961 APH Publishing

Hi, I'm Radhika Mehta and I'm getting married this week. I work at Goldman Sachs, an investment bank. Thank you for reading my story. However, let me warn you. You may not like me too much.

One, I make a lot of money. Two, I have an opinion on everything. Three, I have had a boyfriend before. Ok, maybe two. Bestselling author Chetan Bhagat, writing for the first time in a female voice, brings to you *One Indian Girl*, the heart-warming story of a modern Indian girl. Now if all this was the case with a guy, one might be cool with it. But since I am a girl these three things I mentioned don't really make me too likeable, do they?--Page 4 of cover.

Encyclopaedia of Indian Literature Cambridge University Press

Goddesses of India Rowman & Littlefield

The academic activity in relation to the performing arts is exploding at quite a fast rate. There are a number of old and new Universities and research centers offering a wide range of academic courses in the performing arts. However, traditionally the teaching-learning process in the performing arts field has been outside the ambit of the academic structure. The move of a traditional process to the academic circle has brought to the forefront some of the challenges of the move. These include both the teaching-learning process and the examination method.

Deśa kāla Emerging Trends in Performing Arts and Indic Studies Ashok Yakkaldevi

The volume revolves around the theme 'inclusive oppositions' in social sciences that address the issue of making of distinctions and create artificial dichotomies and dualistic view of society. It is set against the currents of systematic reduction of anthropodiversity and psychodiversity, which appears as a pathology of the current neo-liberalist and colonialist model of development. The volume is an attempt to overcome the colonial tendencies and forces to 'standardize' and 'homogenize' various categories and institutions in society by establishing structural relationality and intersectionality between the parts of the whole ecosystem where in the human and non-human intersect and interact. The volume brings together a unique collaboration in the field of Cultural Psychology and offers the intellectual tools to grasp how a syncretic understanding of Identity and Culture unfolds, particularly in the key domain of gender. The chapters and commentaries uncover cultural dynamics and identity formation from a specific location, the region of Kerala in south-western India. The chapters and commentaries in this volume illustrates that Kerala is a cultural micro-cosmos, in which gender, identity, religion, ethnicity, caste, global market and tradition intersect to create complex and multiple subjects that do not fit in binary categorizations. The compiled volume will be of great value to scholars, researchers and academicians in Social Sciences, particularly Cultural Psychology, Social Psychology, Sociology, Social Work, Political Science, Philosophy, Anthropology and Economics.
