Dr. Seuss's Second Beginner Book Collection Random House Books for Young Readers
Sam the Owl and Gus the Firefly literally light up the sky in this classic Beginner Book edited by Dr. Seuss. In Sam and the Firefly, P. D. Eastman (author of Are You My Mother? and Go, Dog. Go!) introduces us to the dynamic duo of Sam and Gus, who soar through the air writing words in the night sky. But when Gus's words end up causing confusion and chaos for the people on the ground, it's up to Sam to help Gus "write" his wrongs. Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning. "...provides interest, suspense and word repetition. Illustrations excellent. Recommended."--(starred) School Library Journal.

Celebrate Earth Day with Dr. Seuss and the Lorax in this classic picture book about protecting the environment! I am the Lorax. I speak for the trees. Dr. Seuss's beloved story teaches kids to speak up and stand up for those who can't. With a recycling-friendly "Go Green" message, The Lorax allows young readers to experience the beauty of the Truffula Trees and the danger of taking our earth for granted, all in a story that is timely, playful and hopeful. The book's final pages teach us that just one small seed, or one small child, can make a difference. Printed on recycled paper, this book is the perfect gift for Earth Day and for any child—or child at heart—who is interested in recycling, advocacy and the environment, or just loves nature and playing outside. Unless someone like you cares a whole awful lot, nothing is going to get better. It's not. "Pretty much all the stuff you need to know is in Dr. Seuss." --President Barack Obama

A New York Times bestselling bedtime story with a math twist from Danica McKellar (well-known for her roles on The Wonder Years and The West Wing, and acclaimed author of multiple popular math books)--which sneaks in secret counting concepts on each page to help make your child smarter This deceptively simple bedtime book, the first in the McKellar Math line, gives your child the building blocks for math success. As children say goodnight to the objects all around them--three wheels on a tricycle, four legs on a cat--they will connect with the real numbers in their world while creating cuddly memories, night after night. Actress, math whiz, and New York Times bestselling author Danica McKellar uses her proven math success to show children that loving numbers is as easy as 1, 2, 3. "The joys of counting combine with pretty art and homage to Goodnight Moon." --Kirkus "McKellar brings her enthusiasm for mathematics to a younger crowd in this gentle and well-executed counting book." --Publishers Weekly "A similarly simple, quiet feel as Margaret Wise Brown's iconic Goodnight Moon...there is a lot to count on." -Booklist "A winner for bedtimes or storytimes focusing on counting." --School Library Journal
