### Geology Subject Objective Questions From Various Competitive Exams With Answers

Elsevier Health Sciences  
The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from

recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists. An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice - from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app - a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

Headache is the number one complaint that causes a patient to see a neurologist. Because headaches constitute such a large part of many clinicians practices, the United Council for Neurologic Subspecialties created an annually-administered headache subspecialty exam in 2006. Headache Medicine: Questions and Answers is the only question-and-answer book for the new headache subspecialty exam, with more than 500 questions, answers, explanations, and references to help readers self-assess their knowledge and to prepare for the subspecialty exam, as well as the neurology Board examination. Headache Medicine: Questions and Answers covers everything from the basics of epidemiology and co-morbidity, to must-know clinical neurology, to diagnosis and treatment. Board-type review questions are used throughout, each with an answer, a detailed explanation, and one or more references to help direct more in-depth review as desired. Divided into six key sections for targeted topic review, this is the most comprehensive and effective way to prepare for exams. Key features of Headache Medicine include: Board-type question format used to provide familiarity with question types Answers and explanations, which detail not only why the answer is correct, but also why the distracters are wrong. A series of in-depth, multi-question patient management problems that provide a realistic clinical learning experience References with each question for further investigation as desired
