Challenging the predominantly Euro-American approaches to the field, this volume brings together essays on a wide array of literary, filmic and journalistic responses to the decade-long wars in Afghanistan and Iraq. Shifting the focus from so-called 9/11 literature to narratives of the war on terror, and from the transatlantic world to Iraq, Syria, Afghanistan, the Afghan-Pak border region, South Waziristan, Al-Andalus and Kenya, the book captures the multiple transnational reverberations of the discourses on terrorism, counter-terrorism and insurgency. These include, but are not restricted to, the realignment of geopolitical power relations; the formation of new terrorist networks (ISIS) and regional alliances (Iraq/Syria); the growing number of terrorist incidents in the West; the changing discourses on security and technologies of warfare; and the leveraging of fundamental constitutional principles. The essays featured in this volume draw upon, and critically engage with, the conceptual trajectories within American literary debates, postcolonial discourse and transatlantic literary criticism. Collectively, they move away from the trauma-centrism and residual US-centrism of early literary responses to 9/11 and the criticism thereon, while responding to postcolonial theory's call for a historical foregrounding of terrorism, insurgency and armed violence in the colonial-imperial power nexus. This book was originally published as a special issue of the European Journal of English Studies.

Although Western writer Zane Grey is best remembered for *The Riders of the Purple Sage*, the novel *The U.P. Trail* is a favorite among critics and fans alike. This ambitious tale weaves a grand narrative of the construction of the Union Pacific Railroad line, which serves as the backdrop for a tender romance that blooms between the virtuous Allie and the mysterious and taciturn protagonist, Warren Neale.

This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses, which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them, of which is well known

that no mortal person can lift it. Only the immortal, psycho-spiritual human being, who knows himself at home in the extrasensory, higher worlds, is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual-cosmic realms until he reaches the experience of God, from where he gradually descends again into a new life on Earth, enriched in spirit and fertilized in his soul. If the reader embarks on this journey, the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books, the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses.
