Cathedrals Amber Books

As a young urban youth worker, Ted Travis was captivated by a question posed by Christian community development pioneer Dr. John Perkins: "How do we build incentive in inner-city youth, motivating them toward Christ and a life of meaning and purpose?" Over the next 30 years, Ted wrestled with this question as he and his wife Shelly ministered to hundreds of teens in Denver's Five Points neighborhood- an inner-city community

facing the daunting challenges of poverty, gangs, crime, and unemployment. Along the way, Ted pressed biblical principles and tried-in-the-trenches strategies into a philosophy of youth leadership development he calls "transformational discipleship." In *Building Cathedrals*, Ted shares his blueprint for transformational discipleship (as well as accounts of its profound impact on young people) and exhorts today's youth workers to reimagine their ministries and raise up a new generation of visionary urban leaders. This book has been revised and expanded, including the addition of an index.

 'Cathedrals under Siege' is the story of our greatest churches during the seventeenth century - the most perilous episode in their history. During the Civil War and Commonwealth, they were attacked, desecrated and abolished as institutions, just managing to survive to be restored with Charles II in 1660. This book reviews these great events along with the quieter periods in the early and later parts of the centuries. It examines all aspects of cathedral history - buildings, clergy, finances, music and literature - breaking new ground in the first ever study of cathedrals in this important century.

 In this wise and inspiring book, social entrepreneur Bill Shore shows us how to make the most of life and do something that counts. Like the cathedral builders of an earlier time, the visionaries described in this memoir share a single desire: to create something that endures. The extraordinary people Shore has met on his travels represent a new movement of citizens who are tapping into the vast resources of the private sector to improve public life. Among them are: -- Gary Mulhair, who has created unprecedented jobs and wealth at the largest self-supporting human-service organization of its kind, Pioneer Human

Services of Seattle. -- Nancy Carstedt of the Chicago Children's Choir, which provides thousands of children their first introduction to music. -- Geoffrey Canada, who has made a safe haven for more than four thousand inner-city children in New York City, from Hell's Kitchen to Harlem. These leaders, and many others described in these pages, have built important new cathedrals within their communities, and by doing so they have transformed lives, including their own.

Anglican Cathedrals in Modern Life

This book addresses many questions about the status of women in the Middle Ages and presents surprising answers. Readers learn that the most ancient treatise on education in France was written by a woman; and medicine was practiced regularly by women in the thirteenth century; that in the twelfth century the Order of Fontevraud gathered both monks and religious sisters under the authority of an abbess. This is a systematic study that provides a multitude of concrete examples. No aspect of feminine activity in the medieval period is neglected: administration of property, professions and commerce, intellectual life,

politics, writers, educators, sovereigns, and those who enlivened the royal courts. Moreover, the author draws from the history of law and the history of events and social customs to sketch an outline of the evolution of the societal influence of women, from the freedoms and autonomy they acquired, to the decline of their public influence. This study sheds much light on the feudal and medieval periods which have so often, and mistakenly, been called a 'dark' age for women.

"Prache surveys the history of church building from its humble beginnings in

Late Antiquity through the construction of such masterworks of the Gothic style as Reims, Strasbourg, and Wells. Throughout, she reminds us that these magnificent expressions of faith also reflected their builders' hopes and fears, technical expertise, political views, and the ever-changing economic and social realities with which they had to contend."--BOOK JACKET.

Cathedrals and great churches are among the most iconic sights of the world's towns and cities. Visible from miles around, the cathedrals of Canterbury, St Paul's, Chartres and St Stephen's in Vienna dominate their

skylines. Others surprise by their statistics: Salisbury has Britain's tallest spire, Wells the largest display of medieval sculptures in the world, while King's College Chapel in Cambridge boasts the largest fan vaulting in existence. Not all are ancient: Dresden's reconstructed Frauenkirche opened in 2005 and Gaudí's masterpiece in Barcelona is still under construction. Award-winning travel writer Sue Dobson gives us a highly personal tour of their highlights.

“The wonderful cathedral of Notre-Dame de Paris, one of the greatest achievements of European civilization, was on fire. The sight dazed and disturbed us profoundly. I was on the edge of tears. Something priceless was dying in front of our eyes. The feeling was bewildering, as if the earth was shaking.” —Ken Follett

“[A] treasure of a book.” —The New

Yorker In this short, spellbinding book, international bestselling author Ken Follett describes the emotions that gripped him when he learned about the fire that threatened to destroy one of the greatest cathedrals in the world—the Notre-Dame de Paris. Follett then tells the story of the cathedral, from its construction to the role it has played across time and history, and he reveals the influence that the Notre-Dame had upon cathedrals around the world and on the writing of one of Follett's most famous and beloved novels, *The Pillars of the Earth*. Ken Follett will donate his proceeds from this book to the charity La Fondation du Patrimoine.

They attract roughly half the nation's population each year. For a millennium they have been objects of pilgrimage for those seeking faith, consolation and beauty. Still at the start of the twenty-first century, they remain unequalled in their size and splendour. More than any other English institution, cathedrals reflect the vicissitudes of history and should be treasured as such. They are custodians of culture and of the rituals of civic life. They offer welfare and

relieve suffering. They uplift spirits with their beauty. In a real sense they are still what they were when first built a millennium ago, a glimpse of the sublime. Gloriously illustrated throughout, England's Cathedrals not only offers us a companion to England's Thousand Best Churches, it takes us on an enthralling tour of the nation and its history, through some of our most astonishing buildings.
