proficiency for non-  
native English  
language speakers. It  
is jointly managed by  
the British Council, IDP:  
IELTS Australia and  
Cambridge Assessment  
English, and was  
established in 1989.  
Achievement in this  
qualification is  
benchmarked against  
the Council of Europe's  
Common European  
Framework of  
Reference for  
Languages (CEFR),  
from level C1  
Advanced (CAE) to C2

Proficiency (CPE) of the CEFR. We collect 2100 English Vocabulary in C1 Advanced (CAE) and 3000 English Vocabulary. Based on our many years' experience in HSK and IGCSE Chinese teaching and course contents preparation, we find vocabulary level classification is so important. Students can use CEFR levels for self-assessment so that they can more clearly define what they need to work on, and work out what they would like to achieve in their target language. Our Classified Chinese vocabulary list HSK and IGCSE has total 12000 vocabularies with the Best English Translation for better understanding. Many students call it "LIFE SAVING STRAW" for their exam. This book

is a great success and encourages us to work beyond it. Based on our pass experience and data collection, by referring the authoritative resources like Cambridge and Oxford dictionary, here is our painstaking effort!

An extensive working vocabulary is a prerequisite for test-taking success on the Graduate Record Exam. This book presents 800 graduate-level words with definitions that frequently appear on the exam. Words are used in different contexts to familiarize test takers with their many variations. The book's additional

features include a pre-test that helps to diagnose weaknesses, a lengthy word list with extensive practice exercises, and a chapter that discusses and analyzes essential word roots. The book concludes with a post-test to assess progress. Answers are provided for all exercises and for all questions in the pre- and post-test.

Hodder Education  
Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for

Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased

resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

This book, first published in 2003, provides a comprehensive and structured vocabulary for all levels of undergraduate Spanish

courses. It offers a broad coverage of the concrete and abstract vocabulary relating to the physical, cultural, social, commercial and political environment, as well as exposure to commonly encountered technical vocabulary. The accompanying exercises for private study and classroom use are designed to promote precision and awareness of nuance and register, develop good dictionary use, and encourage effective learning. The book includes both Iberian and Latin American vocabulary, and clearly identifies differences between the two varieties. • Consists of twenty units each treating a different area of human experience • Units are divided into

three levels which allows core vocabulary in each area to be learned first, and more specialised or complex terms to be added at later stages •

Vocabulary is presented in alphabetical order for ease of location.

assesses progress  
towards Sustainable  
Development Goal 4  
(SDG 4) on education  
and its ten targets, as  
well as other related  
education targets in  
the SDG agenda. It  
addresses inclusion in

### **Essential Words for the GRE**

Mostusedwords.com Success in mathematics and science requires students to process and comprehend various forms of text; yet, many teachers feel ill-equipped to promote the development of literacy skills within the context of developing conceptual understanding of mathematics and science. Many content area literacy resources do not provide an adequate development of the complexities involved in dealing with mathematics and science texts. This work presents important background

information on the reading and process and classroom tested strategies which include implementation information and ideas for modifying the strategy to diverse needs. These classroom examples support teachers and educational specialists as they design instructional experiences to facilitate both students' conceptualization of important subject area content and the tools necessary for students to develop the literacy skills necessary to be successful in today's text rich educational learning environments.
