MARQUES MONTGOMERY

Refiguring American Film Genres Franklin Classics
 Focusing on the career of the surrealist poet Jacques Prevert, this book explores the stylistic and thematic currents that prevailed in French films of the 1930s. Prevert's involvement with the surrealists, his contribution to the avant-grade theatre company Groupe Octobre, and his unique collaboration with Marcel Carne are examined.

Read the book that inspired the classic coming-of-age film before it's back onscreen in select theaters this September! From award-winning German author Michael Ende, *The Neverending Story* is a classic tale of one boy and the book that magically comes to life. When Bastian happens upon an old book called *The Neverending Story*, he's swept into the magical world of Fantastica--so much that he finds he has actually become a character in the story! And when he realizes that this mysteriously enchanted world is in great danger, he also discovers that he is the one chosen to save it. Can Bastian overcome the barrier between reality and his imagination in order to save Fantastica? "An instantaneous leap into the magical . . . Energetic, innovative, and perceptive"—*The Washington Post* "A trumpet blast for the imagination."—*Sunday Times*

The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important

episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

The Shifting Point, 1946-1987 New York : Performing Arts Journal Publications

SOON TO BE A NETFLIX ORIGINAL SERIES • "A majestic, melancholy, and beautiful novel" (The New Yorker), *THE LEOPARD* is one of the best-selling Italian novels of the twentieth century and an acclaimed masterpiece of world literature. This beautiful hardcover edition, translated by Archibald Colquhoun, also includes two short stories and a brief memoir of the author's childhood. Set in Sicily in the 1860s, during the tumult of Italian unification, *THE LEOPARD* tells the spellbinding story of a decadent, fading aristocracy threatened by the approaching forces of revolution and democracy. Its author, Giuseppe Tomasi di Lampedusa, who was the last in a line of Sicilian princes, wrote the novel in the 1950s, inspired by the decline of his own family. Don Fabrizio Corbera, Prince of Salina, remains skeptical and stoic as he finds himself beset by civil war, social change, and his family's loss of wealth and status. While his beloved nephew, Tancredi, more practical and flexible than he, joins the nationalist rebels and marries the ambitious daughter of a newly rich upstart, Don Fabrizio takes refuge in his love of astronomy, gazing at the unchanging stars while the world as he has known it crumbles around him. The dramatic sweep and richness of Lampedusa's observation, his seamless intertwining of public and private worlds, and his sure grasp of human frailty imbue *THE LEOPARD* with its melancholy beauty and power. "No novel in Italian literature has aroused so much passion or caused so much argument... The book is more than the memorable invocation of a certain place in a certain epoch. It is a work of art that will survive, long after the last sad palaces of Palermo have gone, because it deals with the central problems of the human experience." —from the Introduction by David Gilmour "The genius of its author and the thrill it gives the reader are probably for all time."—The New York Times Book Review "A masterwork . . . A superb novel in the great tradition and the grand manner."—Newsweek Everyman's Library pursues the highest production standards, printing on acid-free cream-colored paper, with full-cloth cases with two-color foil stamping, decorative endpapers, silk ribbon markers, European-style half-round spines, and a full-color illustrated jacket. Contemporary Classics include an introduction, a select bibliography, and a chronology of the author's life and times.

Mathematical Lives Orion

This collection of essays by leading American film scholars charts a whole new territory in genre film criticism. Rather than assuming that genres are self-evident categories, the contributors offer innovative ways to think about types of films, and patterns within films, in a historical context. Challenging familiar attitudes, the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society. The range of essays is exceptional, from David J. Russell's insights into the horror genre to Carol J. Clover's provocative take on "trial films" to Leo Braudy's argument for the subject of nature as a genre. Also included are essays on melodrama, race, film noir, and the industrial context of genre production. The contributors confront the poststructuralist

critique of genre head-on; together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema.

This volume is the first translation of Romano Bilenchi's 1940 masterpiece to appear in English. This is surprising since The Conservatory of Santa Teresa is much more than an invaluable historical document of life in provincial Tuscany around the time of the First World War. It is truly one of the most important works of fiction published in Italy under Fascism. In telling of the pre-adolescent Sergio's encounter with the larger world of sex, politics, and the violence and cruelty of adult life, Bilenchi succeeds in representing a universal paradigm, that of the clash of innocence with experience. But what makes Sergio's trajectory unique is that he goes through it in the company of three extraordinary women who are at once femmes fatales and benevolent guides: his mother, his aunt, and his tutor, all almost unbearably beautiful, as least in Sergio's eyes. These women, plus the dazzling landscape of the Sienese countryside as captured by Bilenchi, make Sergio's journey an enviable even if sometimes painful and bewildering experience.

Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized

by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

Agatha Christie once again demonstrates her mastery of the short form mystery with *Parker Pyne Investigates*—short stories of crime and detection featuring Parker Pyne, certainly one of the most unconventional private investigators ever to pursue a hot lead. Mrs. Packington felt alone, helpless and utterly forlorn. But her life changed when she stumbled upon an advertisement in the Times that read: "Are you happy? If not, consult Mr. Parker Pyne." Equally adept at putting together the fragments of a murder mystery or the pieces of a broken marriage, Mr. Parker Pyne is possibly the world's most unconventional private investigator. Armed with just his intuitive knowledge of human nature, he is an Englishman abroad, traveling the globe to solve and undo crime and misdemeanor.

"Comedy of Vanity, ' a dark satire on mass movements and narcissism, is a prophetic vision of fascism; in 'Life Terms' everybody in a new society is assigned the number of years he or she may live. Canetti's plays provide a missing link in the European dramatic heritage."--Publisher's description.
