Private International Law in Common Law Canada John Wiley & Sons

Der Autor untersucht reine Unterhaltstiftungen, die durch ihre Leistungen das Auskommen der Begünstigten sichern, ohne

einen Gemeinwohlbezug aufzuweisen. Dies ist mit Grundprinzipien der Rechtsordnung unvereinbar, etwa der Generationengerechtigkeit oder den Grundsätzen von Eigenverantwortung, Leistungsfähigkeit und Chancengleichheit. *Law & Odeur* OUP Oxford

The business corporation is one of the greatest organizational inventions, but it creates risks both for shareholders and for third parties. To mitigate these risks, legislators, judges, and corporate lawyers have tried to learn from foreign experiences and adapt

their regulatory regimes to them. In the last three decades, this approach has led to a stream of corporate and capital market law reforms unseen before. Corporate governance, the system by which companies are directed and controlled, is today a key topic for legislation, practice, and academia all over the world. Corporate scandals and financial crises have repeatedly highlighted the need to better understand the economic, social, political, and legal determinants of corporate governance in individual countries. Comparative Corporate Governance furthers this goal by bringing together current scholarship in law and economics with the expertise of local corporate governance specialists from twenty-three countries.

Comparative Corporate Governance BRILL

Company law is undergoing fundamental change in Europe. All European countries have undertaken extensive reform of their company legislation. Domestic reform has traditionally been driven by corporate failures or scandals. Initiatives to make corporate governance more effective are a feature of recent European law reform, as are measures to simplify and ease burdens on smaller and medium-sized businesses (SMEs). An increasing EU harmonisation is taking place through the Company Law Directives, and the free movement of companies is also facilitated by the case law of the European Court of Justice on the directives and the right to free movement and establishment in the EC Treaty. New European corporate forms such as the European Economic Interest Grouping (EEIG) and the European Company (SE) have added new dimensions. At a time of rapid development of EU and national company laws, this book will aid the understanding of an emerging discipline.

Die Stiftung burgerlichen Rechts gewinnt in der Praxis zunehmende Bedeutung als Instrument der Nachlassplanung. Im Zentrum der Uberlegungen steht dabei meist das Anliegen, bedeutende Vermögensguter wie etwa Gesellschaftsbeteiligungen, Immobilien und Kunstgegenstände über mehrere Generationen hinweg in Familienhand zu belassen. Ausgehend von der Hypothese, dass das deutsche Pflichtteilsrecht derartigen Vorhaben enge Grenzen setzt, geht Christian M. König der Frage nach, welches Potenzial die Stiftung für die Familienvermögensplanung hat. Das mit Wirkung zum 1. Januar 2017 novellierte österreichische Pflichtteilsrecht sowie die Tatsache, dass die österreichische Privatstiftung ein weitverbreitetes Instrument zur Erhaltung von Familienvermögen darstellt, geben zudem Anlass für einen rechtsvergleichenden Blick mit einigen Überlegungen de lege ferenda zum deutschen Pflichtteilsrecht.

Contemporary debates about the changing nature of law engage theories of legal pluralism, political economy, social systems, international relations (or regime theory), global constitutionalism, and public international law. Such debates reveal a variety of emerging responses to distributional issues which arise beyond the Western welfare state and new conceptions of private transnational authority. However, private international law tends to stand aloof, claiming process-based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond those of the nation-state. As a result, the discipline is paradoxically ill-equipped to deal with the most significant cross-border legal difficulties - from immigration to private financial regulation - which might have been expected to fall within its remit. Contributing little to the governance of transnational non-state power, it is largely complicit in its unhampered expansion. This is all the more a paradox given that the new thinking from other fields which seek to fill the void - theories of legal pluralism, peer networks, transnational substantive rules, privatized dispute resolution, and regime collision - have long been part of the daily fare of the conflict of laws. The crucial issue now is whether private international law can, or indeed should, survive as a discipline. This volume lays the foundations for a critical approach to private international law in the global era. While the governance of global issues such as health, climate, and finance clearly implicates the

law, and particularly international law, its private law dimension is generally invisible. This book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields. It explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state. To do so, it must shed a number of assumptions entrenched in the culture of the nation-state, but this will permit the discipline to expand its potential to confront major issues in global governance.

Relationship Fundraising Cambridge University Press
The recent financial crisis has questioned whether existing contracts may be adapted, terminated or renegotiated as a result of unexpected circumstances. The question is not a new one. In medieval times the notion of *clausula rebus sic stantibus* was developed to cope with such situations, and Germany introduced the theory of *Wegfall der Geschäftsgrundlage*. In England, the Coronation cases provided one possible answer. This comparative study explores the possibility of classifying jurisdictions as 'open' or 'closed' in this regard.

This yearbook series takes up recent trends in international arbitration, be it in the context of commercial disputes, investor-

state conflicts, or sport controversies, and leads them in scholarly debate. Dedicated to Pierre A. Karrer, this volume comprises up-to-date contributions by arbitration experts from all over the world, offering unique insights into their work. Emphasis is placed on indispensable standards in arbitration, with contributions covering the role of consent, the demand for control, rules of emergency relief, and the prevention of unconscious psychological influences in the decision making. Further articles focus on the practical issues of documentary evidence and document production, as well as on the question of e-discovery. The book also highlights topics in investment arbitration, such as the United Nations Commission on International Trade Law's Rules on Transparency, the possible effects of awards on parallel or subsequent proceedings, and the International Center for Settlement of Investment Disputes annulment system as compared to set-aside proceedings before state courts. Current discussions in sports arbitration, as well as informative reviews on a selection of recent releases and training options, complete the volume. Efficiency in Private International Law Walter de Gruyter GmbH & Co KG

Dr. 'Abd al-Razzāq al-Sanhūrī (1895-1971) is one of the most prominent jurists to emerge to date in the Arab world. His alarm at the growing social gap in his country, Egypt, during the first half of the twentieth century, fueled his vision of establishing moral social order by means of a new civil code. Although Sanhūrī's chosen tool was the legal text, this book argues that his vision was essentially a social one: to introduce the principles of compassion, solidarity and fairness, alongside progress and

pragmatism, into polarized Egyptian society, whereby property laws acquired a social function, the laws of partnership were perceived as having an educational value, and contract law was activated as a balance favoring the weaker members of society. Accordingly, this book examines the drafting of the Egyptian Civil Code, exposing the hitherto unknown sociological strata of this act of legislation.

Parfumstreitigkeiten betreffen in der Regel lediglich Namen oder Verpackungen. Das eigentliche Parfum erhält kaum rechtliche

Aufmerksamkeit obwohl es sehr oft kopiert wird. Der Begriff "Parfum" ist zweideutig, da er sowohl die Duftquelle als auch die Duftwirkung bezeichnet. Unterschiedliche Parfumformeln können gleich riechen und ähnliche Formeln unterschiedliche Düfte produzieren. Die Arbeit befasst sich mit der Anwendbarkeit von Patent-, Marken- und Urheberrechtsschutz auf Düfte. Die Autorin berät seit 2011 als Fachexpertin Unternehmen und Verbände der Duftindustrie.

As cross-border trade and cross-border financing continue to increase while security rights over tangible property are governed by the law of the place where the moveable is situated, comparative knowledge of national secured transactions law is crucial for everyone using security rights over tangibles in a cross-border context. This book provides an in-depth examination

of the key issues that arise when security rights are created, perfected and enforced in different European countries. Authored by experts on German, English, Dutch, French, Belgian, Italian and Spanish law, the national reports use practical cases and highlight differences and similarities. A special focus is placed on the way in which national courts deal with security interests created elsewhere. A comprehensive introductory chapter analyzes significant secured transactions issues, summarises the comparative data and compares them with Art. 9 of the Uniform Commercial Code (U.S.) and suggests guiding principles for a European harmonization measure or national reform efforts. The book will assist market participants and their counsel to better understand secured transactions law and relevant private international law rules of their own and other countries and assist those involved in national, EU and global law reform efforts.
