Internet Dating deals primarily with the experiences of UK and Australian daters, examining their online accounts to see what kinds of narratives, norms, emotions and 'chemistry' shape their dating. Has the emergence and growth of internet dating changed the dating landscape for the better? Most commentators, popular and academic, ask whether online dating is more efficient for individuals than offline dating. We prefer a socio-political perspective. In particular, the book illustrates the extent to which internet dating can advance gender and sexual equality. Drawing on the voices of internet daters themselves, we show that internet dating reveals how social change often arises in the unassuming, everyday and familiar. We also pay attention to often ignored older daters and include consideration of daters in Africa, Scandinavia, South America, Asia and the Middle East. Throughout, we explore the pitfalls and pleasures of men and women daters navigating unconventional directions towards more equitable social relations.

Could the web be changing the very nature of the bond between the sexes? While eighty per cent of those interviewed in polls say that affairs are wrong, the percentage who admit to having had an affair in the past has doubled every ten years to 2010. Aided for the first time by frank interviews conducted with those who use websites dedicated to married people, this book seeks to uncover the secretive world of affairs that do not destroy marriages. Looking at the latest data, Catherine Hakim traces a new faultline where the power between men and women is shifting in our increasingly sexualized culture.

This is not fiction. These men really exist. They live together in houses known as Projects. The authors behind the ubiquitous dating bible that launched a worldwide movement are back, accompanied by their daughters, with brand new advice updated for the modern era. How long should I wait to respond to his text message? Can I friend him on Facebook? Why did he ask for my number but never call me? When *The Rules* was published in 1995, its message was straightforward: be mysterious. But for women looking for love today, it's not quite so simple. In a world of instant messaging, location check-ins,

and status updates, where hook-ups have become the norm and formal one-on-one dates seem a thing of the past, it's difficult to retain the air of mystery that keeps men interested. Now, with help from their daughters, the original *Rules Girls* Ellen Fein and Sherrie Schneider share their thoroughly modern, fresh take on dating that will help women in today's information age create the happy love lives they want and deserve. Whether you're a 20-something dating for the first time, a 30-something tired of being single, a 40-something giving advice to your daughter, or a 50-something getting back in the dating game, this book has the answers you've been waiting for. The *Rules* include: Stay Away from his Facebook Profile Make Yourself Invisible and Other Ways to Get Out of Instant Messaging Stop Dating a Guy Who Cancels More than Once Text-Back Times Chart Don't Just Hang Out or See Him 24/7 TTYL: Always End Everything First-- Get Out of There! And much, much more! Providing the dos and don'ts you need to stop making mistakes and start finding romance, *Not Your Mother's Rules* will revolutionize dating today just as *The*
