### **Little White Riding**

**Hood** Nelson Thornes  
Be it soft-serve, gelato,  
frozen custard, Indian  
kulfi or Israeli glida, some  
form of cold, sweet ice  
cream treat can found

throughout the world in  
restaurants and home  
freezers. Though ice  
cream was once  
considered a food for the  
elite, it has evolved into  
one of the most  
successful mass-market  
products ever developed.  
In *Ice Cream*, food writer  
Laura B. Weiss takes the  
reader on a vibrant trip  
through the history of ice

cream from ancient China  
to modern-day Tokyo in  
order to tell the lively  
story of how this delicious  
indulgence became a  
global sensation. Weiss  
tells of donkeys wooed  
with ice cream cones,  
Good Humor-loving World  
War II-era German  
diplomats, and sundaes  
with names such as “Over  
the Top” and “George

Washington.” Her account is populated with Chinese emperors, English kings, former slaves, women inventors, shrewd entrepreneurs, Italian immigrant hokey-pokey ice cream vendors, and gourmand American First Ladies. Today American brands dominate the world ice cream market, but vibrant dessert cultures like Italy’s continue to thrive, and new ones, like Japan’s, flourish through unique variations. Weiss connects this much-loved food with its place in history,

making this a book sure to be enjoyed by all who are beckoned by the siren song of the ice cream truck.

Night Fishing for Trout  
Macmillan

Nearly one out of six people of the current inhabitants of the world is suffering from hunger and illiteracy. This book was developed to assist policy makers dealing with rural poverty, food insecurity and education challenges confronting rural people. It seeks to address the correlation between education, training,

empowerment and food security, mainly through a number of examples from all over the world. It is about strengthening the capacity of rural people to achieve food security. It identifies different dimensions of education and training that have proven useful, and covers formal education as well as non-formal education, literacy as well as skills training.

**Buildings** Island Press  
 In his quest for military glory, Benito Mussolini sent the Italian Eighth Army to the Eastern Front to help fight the Russians, only to have his forces routed within little more than a month of the launch of the Soviet counteroffensives of the

winter of 1942-1943. The Cuneense, a division of mountain troops, was hit especially hard, with only a small percentage of its troops straggling back to Italy; the rest were killed in action or died of frostbite or in captivity from malnourishment, overwork, and disease. All told, the Italians suffered roughly 75,000 dead, more than in their six-month campaign in Greece and Albania or in their three years in North Africa. Nuto Revelli, who fought in Russia himself, interviewed forty-three

other survivors of the campaign for a book that has become a classic among Italian war memoirs. First published in Italian in 1966 as *La strada del davai*, Revelli's account, now available in English, vividly recaptures the experiences and sobering reflections of these men. It provides a chilling look at an experience that, in English-language writing, has been overshadowed by that of the main actors on the Eastern Front. When news of the rout reached Italy, the shock

was devastating. In Revelli's home province of Cuneo, the recruiting territory of the annihilated Cuneense Division, some villages lost almost all men of military age. The resulting rage and bitterness later fueled the partisan war against the Germans and Italian fascists. The veterans of Mussolini's Death March speak candidly of nights in the open, of extreme cold, gnawing hunger, and eruptive madness. Thousands who survived the Soviet onslaught were taken prisoner and died

on the so-called davai marches-named for Russian guards' command to keep prisoners moving-or later in the camps themselves. Even so, they developed a favorable impression of the Russian people, who provided hospitality in their small houses and aid to the wounded. Together, their recollections provide an eye-opening look at a largely neglected aspect of World War II. Literary Machines Mimesis NOT AVAILABLE SEPARATELY  *Losing You Core*

Awareness Originally written for the stage, "We, the Women of Tehran" illustrates from a female standpoint the origins and contradictions of the Iranian capital, and the rights of religious minorities and women. It showcases women who have played a leading role in various disciplines and sports but who all too often have simply become an element in the regime's propaganda. The volume presents a lively narrative with verses from the great Persian poets and a hefty dose of irony:

as a way to laugh about complex issues and dismantle misleading stereotypes.

**ESPRIT Project 125 - GRASPIN** Walter de Gruyter GmbH & Co KG San Francisco is an iconic and symbolic city. But only when you look beyond the picture-postcards of the Golden Gate Bridge and the quaint cable cars do you realise that the city's most interesting stories are not the Summer of Love, the Beats or even the latest gold rush in Silicon Valley. Hidden San

Francisco is a guidebook like no other. Structured around the four major themes of ecology, labour, transit and dissent, Chris Carlsson peels back the layers of San Francisco's history to reveal a storied past: behind old walls and gleaming glass facades lurk former industries, secret music and poetry venues, forgotten terrorist bombings, and much more. Carlsson delves into the Bay Area's long prehistory as well, examining the region's geography and the lives

of its inhabitants before the 1849 Gold Rush changed everything, setting in motion the clash between capital and labour that shaped the modern city. From the perspective of the students and secretaries, longshoremen and waitresses, Hidden San Francisco uncovers dozens of overlooked, forgotten and buried histories that pulse through the streets and hills even today, inviting the reader to see themselves in the middle of the ongoing, everyday

process of making history together.

The International Federation of Library Associations and Institutions (IFLA) is the leading international body representing the interests of library and information services and their users. It is the global voice of the information profession.

The series IFLA Publications deals with many of the means through which libraries, information centres, and information professionals

worldwide can formulate their goals, exert their influence as a group, protect their interests, and find solutions to global problems.

The Sources of a Science of Education New York : Coward-McCann

In this highly original book, Camporesi explores the two worlds of feast and famine in early modern Europe.

Camporesi brings together a mosaic of images from Italian folklore: phantasmagoric processions of giants, pigs, vagabonds, down-

trodden rogues, charlatans and beggars in rags. He reconstructs a world inhabited by the strange forces of peasant culture, and describes the various rituals - carnivals, festivities, competitions and funerals - in which food played a central role.

Camporesi's description alternates between the lives of the "haves" and the "have-nots". He moves from the starving underworld of "criminalized poverty", where people were forced to develop the art of living at the expense of others

simply in order to survive, to the gastronomic culture of the well-fed, with their excessive eating habits, oily foods and colourful table manners. "The Land of Hunger" is a graphic and engaging journey into the folk culture of early modern Europe. It will consolidate Camporesi's reputation as one of the most original and imaginative historians of our time.

*Knowledge and Experience in the Writings of St. Isaac of Nineveh*  
 Food & Agriculture Organization of the UN

(FAO)  
 Few believed Professor Coldwell could communicate with spirits. But in Scotland's oldest university town something has passed from darkness into light. Now, the young are being haunted by night terrors and those who are visited disappear. This is certainly not a place for outsiders, especially at night. So what chance do a rootless musician and burned-out explorer have of surviving their entanglement with an ageless supernatural evil and the ruthless cult

that worships it? A chilling occult thriller from award-winning author Adam Nevill, *Banquet for the Damned* is both a homage to the great age of British ghost stories and a pacey modern tale of Devil worship and witchcraft. *Of Sugar and Snow* Pluto Press (UK)  
 In this sweeping and deeply penetrating work, distinguished historian Michael Burleigh explores the nature of terrorism from its origins in the West to the current global threat fueled by fundamentalists. Burleigh

takes us from the roots of terrorism in the Irish Republican Brotherhood, the Russian Nihilists, and the London-based anarchists of Black International to the various terrorist campaigns that exist today. He also explores the lives of people engaged in careers of political violence and those who are most affected by the scourge of terrorism. Authoritative, illuminating, and masterfully written, *Blood and Rage* sheds an unflinching light on the

global threat that we are likely to face for decades to come.

**Microsoft Dynamics NAV 2015 Professional Reporting** Read Books Ltd

Author Megan Giller invites fellow chocoholics on a fascinating journey through America's craft chocolate revolution. Learn what to look for in a craft chocolate bar and how to successfully pair chocolate with coffee, beer, spirits, cheese, or bread. This comprehensive celebration of chocolate

busts some popular myths (like "white chocolate isn't chocolate") and introduces you to more than a dozen of the hottest artisanal chocolate makers in the US today. You'll get a taste for the chocolate-making process and understand how chocolate's flavor depends on where the cacao was grown — then discover how to turn your artisanal bars into unexpected treats with 22 recipes from master chefs.

**The Limitless City Pan**

Macmillan  
 Master angler Jim Bashline takes readers who have conquered fishing by day into the ultimate challenge: trout fishing at night. In his precise and engaging text, Bashline describes the joys of night fishing and offers helpful advice. Line drawings.  
*We Women of Tehran*  
 Simon and Schuster  
 We live in a world where material products have increasingly become vehicles for intangible symbolic and aesthetic messages. A very sizeable marketing and advertising

industry produces only images and symbols---the immaterial dimension that `sells' material commodities. The economic boom that accelerated in the 1990s and crashed so spectacularly in 2008 was based largely on immaterial consumption, as capitalism tried to overcome the crisis of the Fordist regime by throwing itself into the new, so-called knowledge economy. --  
**The Land of Hunger**  
 Harper Collins  
 Was ice cream invented in

Philadelphia? How about by the Emperor Nero, when he poured honey over snow? Did Marco Polo first taste it in China and bring recipes back? In this first book to tell ice cream's full story, Jeri Quinzio traces the beloved confection from its earliest appearances in sixteenth-century Europe to the small towns of America and debunks some colorful myths along the way. She explains how ice cream is made, describes its social role, and connects historical events to its business and

consumption. A diverting yet serious work of history, *Of Sugar and Snow* provides a fascinating array of recipes, from a seventeenth-century Italian lemon sorbet to a twentieth-century American strawberry mallobet, and traces how this once elite status symbol became today's universally available and wildly popular treat.

Education for Rural People  
 University Press of Kansas  
 Discover tips and trick for Dynamics NAV report building  
 About This Book

Create and customize reports in Dynamics NAV 2015 using RDLC, Word, Power BI, and Reporting Services Work with different elements in the toolbox such as tablix, which can be used as a List, Table, or Matrix and understand the differences between them and when to use which This book is a pragmatic guide with clear instructions and real-world examples to teach you about the reporting capabilities of Dynamics NAV 2015 Who This Book Is For If you are a

consultant, developer, customer, user, or just interested in the reporting capabilities of Dynamics NAV, then this book is for you. Basic knowledge of Dynamics NAV will be helpful. What You Will Learn Understand why reports are designed in a specific way and then apply this knowledge to your advantage Develop document reports using different techniques Apply filtering and sorting, and create groups Use RDLC to visualize information Visualize information, KPIs, and trends using

expressions, Gauges, Charts, Data bars, Indicators, and Spark lines Create and optimize your dataset for RDLC and for Word layouts Use Power BI with Dynamics NAV to bring your data to life Build Reporting Services reports on top of Dynamics NAV In Detail Microsoft Dynamics NAV is a multi-lingual, multi-currency business management solution that organizations use to manage their accounts, supply chain, sales, payroll, and HR. It is an ERP tool for organizations

that is fast to implement, easy to configure, and simple to use. It is widely used because simplicity is a part of its development, product design, usability, and implementation. This book will help you to master, analyze, and deliver the most challenging reporting requirements in Dynamics NAV 2015. The book starts by explaining report development and it's different phases such as data model, layout, and testing you go through. It introduces you to RDLC and the different controls

in the toolbox, such as the Tablix, in its many forms. You will learn to use expressions to make your layout dynamic and to overcome typical problems. Moving on, the book will teach you to visualize data and be able to understand and read a report as it is intended. You will also learn to use Microsoft Word to create a layout for a report. With Power BI and Power Pivot, Power View, and Power Map, you will learn how easy and powerful it is to bring your data to life, so you can spot trends and

perform in depth analysis of your business.

Reporting Services is also explained as another way that you can apply the knowledge you have about RDLC to build RDL layouts outside of Dynamics NAV. By the end, you will create different types of charts so you can visualize key performance indicators inside the Dynamics NAV application. Style and approach This book is an essential guide in to understanding what is involved in creating reports in Dynamics NAV

and its reporting capabilities.

**Plant and Vegetation Mapping** HarperCollins UK

One of the most popular monastic authors with a nearly universal spread over time is Isaac of Nineveh, a mystic of the late 7th century, who belonged to the East Syriac Church. This book is dedicated to the doctrine of knowledge, as described in Isaac of Nineveh's discourses, in its double dimension, worldly/philosophical and theological (the former

considered to be more discursive/intellectual and the latter intuitive/experiential) and the rapport established between these two, prolonged in the concept of vision, as the highest form of spiritual experience.

Biographical History of Tippecanoe, White, Jasper, Newton, Benton, Warren and Pulaski Counties, Indiana; Volume 1 Bloomsbury Publishing USA

The new healthy eating and lifestyle book from the inspirational and

widely followed personal trainer, Kayla Itsines. [The Psoas Book](#) Legare Street Press  
 Learn the science and art of creating a one-of-a-kind bamboo fly rod. Fly fishing has a long and storied history. While many flyfishermen will find and purchase their favorite fly rod, there are those who desire to go a step further. For those discerning flyfishermen and women, simply buying a rod is not enough—they must build one. And just as fly fishing is an art, so is the creation

of the bamboo fly rod. Many people believe that the best-feeling rods, particularly for trout fishing, are made from bamboo, and today's bamboo rod-making tradition is particularly indebted to one man: Everett E. Garrison. Using principles he learned as an engineering student, Garrison created an exacting method of building rod—a method that for decades was a well-kept secret. These techniques are presented to the reader in *A Master's Guide to Building*

*a Bamboo Fly Rod*, a classic volume written by Hoagy B. Carmichael to honor and maintain Garrison's legacy. Completely illustrated with black-and-white drawings and over three hundred and sixty black-and-white photographs, along with copious notes on the mathematical and engineering principles that underlie Garrison's unique rod-making technique, this book will guide you through each step of creating a classic bamboo fly rod. Skyhorse Publishing is proud to

publish a broad range of books for fishermen. Our books for anglers include titles that focus on fly fishing, bait fishing, fly-casting, spin casting, deep sea fishing, and surf fishing. Our books offer both practical advice on tackle, techniques, knots, and more, as well as lyrical prose on fishing for bass, trout, salmon, crappie, baitfish, catfish,

and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.
