For readers of #GIRLBOSS and viewers of Shark Tank—a global revolution in entrepreneurship is under way, inspiring women to blaze a trail of financial self-reliance and become self-made. Featuring a foreword by Suze Orman. What does it mean to be self-made? It's not just about having money, but financial empowerment is where it begins. It means getting out of survival mode, where you are one problem away from catastrophe. It

means changing your mindset from instant gratification to goal orientation. It means being able to sleep at night without worry. It means being rich in every way: rich in money, rich in family, rich in love, rich in time—abundant! For Nely Galán—entrepreneur, TV producer, and real estate mogul—helping women to become self-made is a movement and a mission. Galán pulls no punches. She is the straight-talking friend and mentor you've always wanted, and here she shares valuable, candid, no-nonsense lessons learned on her own path to becoming self-made ("There is no Prince Charming"; "Think like an immigrant"; "In your pain is your brand"; "Don't buy shoes, buy buildings!"). You'll read inspiring stories of women who started and grew businesses out of ingenuity, opportunity, and need. You'll find exercises to help you identify your goals and your strengths. You'll learn tips and tricks for saving money, making money, and finding "hidden money" that can help jump-start your self-made dreams. When you become self-made, the change in you inspires change in those around you, because one of the greatest rewards of a self-made life is seeing how the sparks from your personal revolution can light a fire in others. So come, join the Self-Made movement. The revolution starts inside of you! Praise for Self Made "A much-needed and wise book that teaches women not to fear money but to see it as a means of reaching our dreams. Nely shows us how to become money courageous instead of finance fearful. I want to give this book to so many women (and men) I know. Thank you, Nely."—Sandra Cisneros "Nely Galán and I have traveled the country together helping women grow their businesses and live their dreams. I know firsthand that Nely is the ultimate self-made woman and your best girlfriend. Her generosity of spirit jumps off the page as she shares the secrets of her hard-won success and her contagious confidence."—Nell Merlino, creator of Take Our Daughters to Work Day and founder of Count Me In for Women's Economic Independence "Self Made teaches women to unleash their spark and hustle. Nely inspires readers to use what they have to get what they

want on their path to becoming self-made.”—Tory Johnson, “Deals & Steals” contributor on ABC’s Good Morning America and author of the #1 New York Times bestseller *The Shift* “You are not truly complete as a woman until you feel confident and empowered to make decisions about your money. Throughout my career, I have seen how a woman who takes ownership of her financial life is transformed and liberated, and how that in turn has a tremendous impact on her children. This is my belief and my personal experience, and it’s why *Self Made* resonates so strongly with me.”—Maria Elena Lagomasino, CEO of WE Family Offices and member of the board of directors of the Walt Disney Company, the Coca-Cola Company, and Avon Products, Inc. From the Hardcover edition.

Kevin Harrington, one of the original “sharks” of the TV hit *Shark Tank*, and serial entrepreneur Mark Timm take you on a journey that radically redefines what it means to truly succeed—at work, at home, and in every area of life. On one of the best days of his life as an entrepreneur, Mark Timm found himself sitting in his car at the end of his driveway. In just a minute he would go into the house and greet his wife and children. But as he basked in the success he’d just had, he also had to face a surprising realization: he didn’t really want to go home. Mark knew that once he stepped into the happy chaos of his family, the euphoria of the day would evaporate. His work life and his home life might as well have been two different worlds. And at that moment, he acknowledged—as he puts it—that “my businesses were getting my first and my best, while my family got my last and my least.” Mentor to Millions charts Mark’s journey from that pivotal moment to a whole new understanding of how work, life, and relationships can coexist and thrive together. His guide through this journey: his accomplished mentor, Kevin Harrington, one of the original “sharks” from *Shark Tank*, who shares amazing stories and imparts invaluable wisdom about how to win in business and in every area of life. This deeply personal, easy-to-follow book invites you to join Mark and Kevin on the journey. Every page pulls back the curtain on entrepreneurship at the highest level, revealing priceless business lessons—which lead to the biggest lesson of all: combining the best of business, family, and personal life. If you’re succeeding in business, struggling, or just starting out, and want your life at home to be what you’ve always dreamed it can be, this is the lesson you need to learn: the most valuable business you’ll ever own, work for, or be a part of isn’t the business you go to every day, it’s the one you go home to.

The bestselling author and star of ABC’s *Shark Tank* reveals how to master the three prongs of influence: reputation, negotiation, and relationships.

Have you ever wanted to make a big change in your life but weren’t sure where to start? In *Powershift*, Daymond John shares the answer. To take control of your destiny and drive the change you want to see, you need to lay the groundwork so you’re prepared to seize every opportunity that comes your way. And that means mastering

- Influence—make an impression: Develop a reputation that highlights what you stand for.
- Negotiation—make a deal: Hone a win-win negotiating style.
- Relationships—make a connection last: Nurture those connections you make along the way.

Through never-before-told stories from his life and career, Daymond shares the lessons that got him to where he is today: from how he remade his public image as he transitioned from clothing mogul to television personality, to how he mastered the negotiation strategies that determine whether deals are won or lost “in the tank,” to his secrets for building long-lasting—and profitable—relationships with founders and brands. Throughout the book, some of the world’s most successful personalities reveal how they shifted their power in meaningful ways: Kris Jenner on determining your value: “You don’t have to go ask somebody else for permission. You have the power to be able to stick to your guns and demand your worth.” Mark Cuban on finding and understanding your why: “Time is the one asset we don’t own, we can’t buy, and we can never get back.”

Pitbull on tapping into your inner power: “A lot of people feel that to be powerful is to exude strength. I think it’s the total opposite. To be powerful is to be powerless. It’s when you give everybody what you got.” Whether you’re an innovator working to turn your big idea into a reality, a professional looking to land a major promotion, or a busy parent trying to find more time to focus on what’s really important to you, Daymond shows you how to shift your power and energy towards positive change.

#1 NEW YORK TIMES BESTSELLER • “This book delivers completely new and refreshing ideas on how to create value in the world.”—Mark Zuckerberg, CEO of Meta “Peter Thiel has built multiple breakthrough companies, and *Zero to One* shows how.”—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In *Zero to One*, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we’re too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an

operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.
