Before we do that, allow me a digression into a bit of history of video capture. On June 15, 1898, in Palo Alto, California, a remarkable experiment was conducted to determine whether a galloping horse ever had all four feet off the ground at the same time.Read, Write and Display a video using OpenCV (C++/ Python)OpenCV is a highly optimized library with focus on real-time applications. Cross-Platform C++, Python and Java interfaces support Linux, MacOS, Windows, iOS, and Android.OpenCVTheory¶. Template Matching is a method for searching and finding the location of a template image in a

larger image. OpenCV comes with a function cv2.matchTemplate() for this purpose. It simply slides the template image over the input image (as in 2D convolution) and compares the template and patch of input image under the template image.Template Matching — OpenCV-Python Tutorials beta documentationThe list of tutorials below is automatically generated from reST files located in our GIT repository. As always, we would be happy to hear your comments and receive your contributions on any tutorial. Introduction to OpenCV. You will learn how to setup OpenCV on your computer. The Core Functionality (core module)
 OpenCV is a highly optimized library with focus on real-time applications. Cross-Platform C++, Python and Java interfaces support Linux, MacOS, Windows, iOS, and Android.
