This volume of original stories is all for furry feline friends. A unique collection of fantastical cat tales.

Special Relativity for Beginners Penguin
Life is hectic enough for suburban single mom Jane Jeffrey this Christmas season-- what with her having to survive cutthroat church bazaar politics and finish knitting the afghan from Hell at the same time. The last thing the harried homemaker needs is an unwelcome visit from old acquaintance Phyllis Wagner and her ill-mannered brat of a teenage son. And the Wagner picture becomes even more complicated when a dead body is woven into the design. Solving a murder, however, is a lot more interesting than knitting, so Jane's determined to sew the whole thing up. But with a plethora of suspects and the appearance of a second corpse, this deadly tapestry is getting quite complex indeed. And Jane has to be very careful not to get strangled herself by the twisted threads she's attempting to unravel.

Unhappy over her parents' divorce and her mother's boyfriend Max, nine-year-old Amber finds her schoolwork suffering.

Croc and Bird Michael O'Mara Books
Mood mapping simply involves plotting how you feel against your energy levels, to determine your current mood. Dr Liz Miller then gives you the tools you need to lift your low mood, so improving your mental health and wellbeing. Dr Miller developed this technique as a result of her own diagnosis of bipolar disorder (manic depression), and of overcoming it, leading her to seek ways to improve the mental health of others. This innovative book illustrates: * The Five Keys to Moods: learn to identify the

physical or emotional factors that affect your moods * The Miller Mood Map: learn to visually map your mood to increase self-awareness * Practical ways to implement change to alleviate low mood
Mood mapping is an essential life skill; by giving an innovative perspective to your life, it enables you to be happier, calmer and to bring positivity to your own life and to those around you. 'A gloriously accessible read from a truly unique voice' Mary O'Hara, Guardian 'It's great to have such accessible and positive advice about our moods, which, after all, govern everything we do. I love the idea of MoodMapping' Dr Phil Hammond 'Can help you find calm and take the edge off your anxieties' Evening Standard 'MoodMapping is a fantastic tool for managing your mental health and taking control of your life' Jonathan Naess, Founder of Stand to Reason McGraw Hill Professional
Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

The bigger the mistake, the bigger the temptation... When Nadia Kinsella meets Jay Tiernan, she's tempted. Of course she is. Stranded together while a snowstorm rages outside ... who would ever know? But Nadia's already been together with Laurie for years-they're practically childhood sweethearts. Okay, so maybe she doesn't get to see much of him these days , but she can' t betray him. When Laurie dumps her to move to America to pursue his modeling career, Nadia runs into Jay again and the sparks from their first encounter are still there. But just as their budding relationship is about to take off, Laurie returns and he wants Nadia back. Stuck between a rock and a hard place (or two gorgeous guys), let's just hope that Nadia really does know best... British chick lit and a great romantic book, Nadia Knows Best has a wonderful cast of supporting characters and plenty of fun. Fans of Meg Cabot, Sophie Kinsella and Love Actually will be rooting for Nadia to find her happily ever after. What readers are saying about Nadia Knows Best: "fun, fast, lovely" "family shenanigans, tough issues, difficult exes and A LOVELY ROMANCE" "an awesome author and a true romantic!" "Loved all the characters and the interweaving story lines." "If I had to use one word to describe Nadia Knows Best it would be DELIGHTFUL." "I have read this book countless times and never tire of the story or humour." "English wit and humour!" "humorous, slightly sarcastic, and very entertaining to read." "I really admire the British women depicted in Mansell's books, they are strong and independent." "Grab this book and RUN to the beach! It will keep you entertained for hours." What reviewers are saying about Nadia Knows Best: "Mansell's trademark wit and quirkiness is showcased in this fun chick-

lit tale."—Booklist "... outstanding. 4.5/5 stars, Reviewer Top Pick!"—Night Owl Reviews "I heart Jill Mansell her books are filled with warm and funny characters whose journey to love pulls you along in its stream of warm-fuzzies and giggles."—Drey's Library "Delightfully quirky and memorable..."—Bellas Novella "Light and breezy... written with a playful sense of humor." —Nights and Weekends "Fun, flirty and entertaining."—Under the Boardwalk What everyone is saying about the queen of British chick lit, Jill Mansell: "Fans of chick lit - if you haven't read Mansell yet - what are you waiting for!?"—A Bookworm's World "Pick this up at your peril: you won't get a thing done till it's finished." — Heat magazine "A romantic romp full of larger-than-life characters."—Express "Fast, furious and fabulous fun. To read it is to devour it."—Company "Expect to run the gamut of emotions, as this book is both laugh-out-loud funny and tear-jerkingly sad. Basically, you won't put it down." —New Woman

 Find out about more than 70 cat breeds, including their origins and characteristics, in this pocket-sized encyclopedia. This cat-alogue packs a whole lot of information into your pocket! Along with a photo of each breed, discover the facts and stats of each cat, including its size, where the breed originated, colors and markings, and unusual features or behaviors. You'll soon be able to tell apart a Burmese from a Siamese; a rex from a sphynx and a manx; and an American shorthair from a British shorthair. You will also discover a lot about colors and patterns. Did you know that tabby cats and tortoiseshells are not breeds, but colors within breeds? Plus there are pages

introducing cat anatomy and behavior; and the book finishes with fun facts. The style of the Pocket Eyewitness series is perfect for all children, from reluctant readers who can easily digest the key points through to budding vets and cat-lovers who want to know more about the best pets on the planet. Cats with facts: what more could anyone want?

"Remarkable personal journals . . . revealing the combat experience of the German-Russian War as seldom seen before . . . a harrowing yet poignant story" (Military Times). Hans Roth was a member of the anti-tank panzerjager battalion, 299th Infantry Division, attached to the Sixth Army, as the invasion of Russia began. As events transpired, he recorded the tension as the Germans deployed on the Soviet frontier in June 1941. Then, a firestorm broke loose as the Wehrmacht tore across the front, forging into the primitive vastness of the East. During the Kiev encirclement, Roth's unit was under constant attack as the Soviets desperately tried to break through the German ring. At one point, after the enemy had finally been beaten, a friend serving with the SS led him to a site—possibly Babi Yar—where he witnessed civilians being massacred. After suffering through a brutal winter against apparently endless Russian reserves, his division went on the offensive again when the Germans drove toward Stalingrad. In these journals, attacks and counterattacks are described in you-are-there detail. Roth wrote privately, as if to keep himself sane, knowing his honest accounts of the horrors in the East could never pass Wehrmacht censors. When the Soviet counteroffensive of winter 1942 begins,

his unit is stationed alongside the Italian 8th Army, and his observations of its collapse, as opposed to the reaction of the German troops sent to stiffen its front, are of special fascination. Roth's three journals were discovered many years after his disappearance, tucked away in the home of his brother. After his brother's death, his family discovered them and sent them to Rosel, Roth's wife. In time, Rosel handed down the journals to Erika, Roth's only daughter, who had emigrated to America. Roth was likely working on a fourth journal before he was reported missing in action in July 1944. Although his ultimate fate remains unknown, what he did leave behind, now finally revealed, is an incredible firsthand account of the horrific war the Germans waged in Russia.

Pocket Genius: Cats Casemate

"Industrial Maintenance and Mechatronics provides support for an Industrial Technology Maintenance (ITM) program. It covers the principal industrial technology disciplines, with a focus on electrical systems and electronic controls. It provides students with the necessary knowledge for entry-level positions in industrial maintenance and prepares them for NIMS Level 1 credentialing"--

Only Amber Brown can handle going to a new grade without her best friend with such honesty, humor, and heart. Amber Brown isn't entirely ready for fourth grade. She has her pens, pencils, new clothes, and new shoes. But the one thing she doesn't have is her best friend, Justin Daniels. Justin has moved away, leaving Amber utterly best friend-less. Amber knows Justin can't be replaced, but she is on the lookout for a new friend. Brandi seems a likely choice, but

does Brandi want to choose Amber in return? Will Amber Brown go fourth, and go forth, with a new best friend? Along with the ups and downs of shared custody, the Amber Brown chapter books are beloved for tackling relatable dilemmas with thoughtfulness, humor, and plenty of puns.

Nadia Knows Best Penguin

This collection of jazz standard chord solos for guitar is compiled from Mel Bay and Warner Bros. collaborations Jazz Guitar Standards Vol. 1 and 2. What makes this work so special is that each artist has personally recorded their solo guitar arrangement. The book comes with the CDs which have all 44 tunes. This book is a wonderful anthology of solo guitar that can be used for performances as well as educational purposes.

ADHD - Attention Deficit Hyperactivity Disorder X RITALIN - Myths and Truths
Independently Published
Janey the Vet Heinemann

Currently, Attention Deficit Hyperactivity Disorder is estimated to affect 2.5% of adults, about 3 to 7% of school-age children (6-12 years) worldwide, and in More than 68% of cases the disorder lasts for life. Considering these numbers, their high prevalence, and with the objective of addressing the endless and controversial discussion about risks, the high increase in the consumption of the remedy in the country, and the probable effects of dependence on the use of the drug Ritalin (Methylphenidate) for the treatment of ADHD, this book was prepared simply and interactively to provide that - after this brief reading - you can even expand your own opinion of risks, benefits, truths, and the lies concerning the use of the drug Ritalin as the substance of first choice for the treatment of ADHD. The book also contains a list of some celebrities who own the Disorder and closes with exciting testimonials from people diagnosed with ADHD. _____ From the same author of the books: ADHD - Attention Deficit Hyperactivity Disorder. Truth or Invention? ADHD - Attention Deficit Hyperactivity Disorder. How to Diagnose Children and Adults.

Amber Brown Wants Extra Credit CQ Press

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social

satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Human Face of Big Data Oxford University Press

"In the post-9/11 struggle for a sane global vision, this antihate manifesto could not be more timely."--O: The Oprah Magazine In this acclaimed volume, Pulitzer-Prize nominated science writer Rush W. Dozier Jr. demystifies our deadliest emotion--hate. Based on the most recent scientific research in a range of fields, from anthropology to zoology, *Why We Hate* explains the origins and manifestations of this toxic emotion and offers realistic but hopeful suggestions for defusing it. The strategies offered here can be used in both everyday life to improve relationships with family and friends as well as globally in our efforts to heal the hatreds that fester within and among nations of the world.

AmGov Routledge

In this book, Nobel Peace Prize winner and Maya activist Rigoberta Menchú Tum returns to the world of her childhood. The Honey Jar brings us the ancient stories her grandparents told her when she was a little girl, and we can

imagine her listening to them by the fire at night. These Maya tales include creation myths, a classic story about the magic twins (which can also be found in the Popol Vuh), explanations of how and why certain natural phenomena came to exist, and animal tales. The underworld, the sky, the sun and moon, plants, people, animals, gods and demi-gods are all present in these stories, and through them we come to know more about the elements that shaped the Mayas' understanding of the world. Rich and vibrant illustrations by noted Mazatec-Mexican artist Domi perfectly complement these magical Maya tales. Key Text Features illustrations Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.3.2 Recount stories, including fables, folktales, and myths from diverse cultures; determine the central message, lesson, or moral and explain how it is conveyed through key details in the text.

Word Nerd Cengage Learning

This book, first appearing in German in 2004 under the title *Spezielle Relativitätstheorie für Studienanfänger*, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with

different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula.

Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-contained and without

contradictions. Author's website:

www.relativity.ch.
