Structure and Function - JU Medicine Chapter 7: Cell Structure and Function. (Section 1) How do we know about cells? Before the invention of the microscope, people didn't know that living things were made of cells. Cells are too small to see with the naked eye The microscope was invented in the 1600s Important pioneer scientists Robert Hooke: In 1665 he used a microscope (advanced

technology then!) to look at a piece of cork under the microscope He saw that the cork was made of many tiny chambers, which he called "cells" ...Chapter 7: Cell Structure and Function Cell Size Warm up Protein Export Warm up Cell Organelle Function Warm up Organelle Function Warm up Diffusion vs Facilitated Diffusion vs Osmosis vs Active Transport Warm up
