Ever since its original publication in Germany in 1938, Max Schweidler's *Die Instandsetzung von Kupferstichen, Zeichnungen, Buchern usw* has been recognized as a seminal modern text on the conservation and restoration of works on paper. To address what he saw as a woeful dearth of relevant literature and in order to assist those who have 'set themselves the goal of preserving cultural treasures,' the noted German restorer composed a thorough technical manual covering a wide range of specific techniques, including detailed instructions on how to execute structural repairs and alterations that, if skilfully done, can be virtually undetectable. By the mid-twentieth century, curators and conservators of graphic arts, discovering a nearly invisible repair in an old master print or drawing, might comment that the object had been 'Schweidlerized.' This volume, based on the authoritative revised German edition of 1949, makes Schweidler's work available in English for the first time, in a meticulously edited and annotated critical edition. The editor's introduction places the work in its historical context and probes the philosophical issues the book raises, while some two hundred annotated

Can she escape the shadows and face the truth before the darkness destroys her?"If the enemy is a fire, the evil is its shadow, flickering upon the wall."That's very poetic, Miss Bellini. I just wish I knew what it meant."Miranda's new home is a dull seaside town at the edge of the world, the sort of forgotten place where nothing ever happens. Until something does. Something strange and sinister. With her schoolteacher and her classmates, who might be more clued in than they let on, Miranda sets out to uncover the mystery. Her bravery borders on recklessness. She thinks she's chasing shadows, tortured spirits from centuries past, but could true darkness lie within? With a mixture of science and magic, Miranda's got to figure out how to break and banish the evil before it destroys her. An electrifying paranormal thriller that will have readers guessing till the end!

On a lonely wharf a clerk in an ink-blue coat inspects bales and bales of paper that hold a poet's accumulated left-hand pages—the unwritten, the withheld, the unexpressed, the withdrawn, the restrained, the word-shard. In *The Blue Clerk* renowned poet Dionne Brand stages a conversation and an argument between the poet and the Blue Clerk, who is the keeper of the poet's pages. In their dialogues—which take shape as a series of haunting prose poems—the poet and the clerk invoke a host of writers, philosophers, and artists, from Jacob Lawrence, Lola Kiepja, and Walter Benjamin to John Coltrane, Josephine Turalba, and Jorge Luis Borges. Through these essay poems, Brand explores memory, language, culture, and time while intimately interrogating the act and difficulty of writing, the relationship between the poet and the world, and the link between author and art. Inviting the reader to engage with the resonant meanings of the withheld, Brand offers a profound and moving philosophy of writing and a wide-ranging analysis of the present world.

Case Study from the year 2019 in the subject Business economics - Offline Marketing and Online Marketing, grade: A, Marymount University, language: English, abstract: The general objective of the study is to find out if there is any effect of advertising on consumer 'buying' of accounting services. In a quest to achieve this objective, the following specific objectives are set: First, to determine if there is any relationship between consumer consciousness and advertising. Second, to find out if there is any relationship between advertisement and consumer opinion. And third, to find out if consumer consciousness and consumer opinion have impact on purchasing power. Founded in 2017, Professionals in Business Group (PIBG) is a black owned, South African accounting firm targeting mainly small and medium enterprises with the salient objective of providing them with affordable and organized financial reporting structures. PIBG endeavors to provide this much-needed service to small and medium institutions at the most cost effective way possible without compromising the quality of their work output. According to Thubelihle Maphosa, Financial Accountant and founder of PIBG, much growth potential is lost in small businesses because of failure to manage funds in an operational, tactical and strategic manner and that is where PIBG comes in, as the key to unlocking growth potential Professionals in Business Group uses most major accounting software in the market namely Pastel Accounting, QuickBooks and Palladium Accounting. Nonetheless, PIBG leadership believes that this software are not necessarily in harmony with the company's identity of simplicity to serve even the smallest of clientele. In a nutshell, the scope of these software is too big and not usable in its entirety to small businesses and in response to this, PIBG is building a tailored Accounting software PIB-X Accounting and Payroll 'Accounting made simple'.
