Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where

you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their

management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

What are the origins of the hostile environment for immigrants in Britain? Chosen as a BBC History Magazine Book of the Year 2021 and shortlisted for the PEN Hessell-Tiltman Prize 2022 In the wedded stories of migration and the end of empire, Ian Sanjay Patel uncovers a forgotten history of post-war Britain. After the Second World War, what did it mean to be a citizen of the British empire and the post-war Commonwealth of Nations? Post-war migrants coming to Britain were soon renamed immigrants in laws that prevented their entry despite their British nationality. The experiences of migrants and the archival testimony of officials and politicians at home and abroad, retold here, define Britain's role in the global age of decolonization.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to

the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

The instant New York Times Bestseller • Nominated for the 2019 National Book Award for Fiction "A lyrical work of self-discovery that's shockingly intimate and insistently universal...Not so much briefly gorgeous as permanently stunning." —Ron Charles, The Washington Post Ocean Vuong's debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling On Earth We're Briefly Gorgeous is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born — a history whose epicenter is rooted in Vietnam — and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, On Earth We're Briefly Gorgeous is as much about the power of telling one's own story as it is about the

obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Named a Best Book of the Year by: GQ, Kirkus Reviews, Booklist, Library Journal, TIME, Esquire, The Washington Post, Apple, Good Housekeeping, The New Yorker, The New York Public Library, Elle.com, The Guardian, The A.V. Start With Why has led millions of readers to rethink everything they do - in their personal lives, their careers and their organizations. Now Find Your Why picks up where Start With Why left off. It shows you how to apply Simon Sinek's powerful insights so that you can find more inspiration at work -- and in turn inspire those around you. I believe fulfillment is a right and not a privilege. We are all entitled to wake up in the morning inspired to go to work, feel safe when we're there and return home fulfilled at the end of the day. Achieving that fulfillment starts with understanding exactly WHY we do what we do. As Start With

Why has spread around the world, countless readers have asked me the same question: How can I apply Start With Why to my career, team, company or nonprofit? Along with two of my colleagues, Peter Docker and David Mead, I created this hands-on, step-by-step guide to help you find your WHY. With detailed exercises, illustrations, and action steps for every stage of the process, Find Your Why can help you address many important concerns, including: \* What if my WHY sounds just like my competitor's? \* Can I have more than one WHY? \* If my work doesn't match my WHY, what should I do? \* What if my team can't agree on our WHY? Whether you've just started your first job, are leading a team, or are CEO of your own company, the exercises in this book will help guide you on a path to long-term success and fulfillment, for both you and your colleagues. Thank you for joining us as we work together to build a world in which more people start with WHY. Inspire on! -- Simon

What's the worst thing you can hear when you have a good idea at work? "That's not how we do it here!" In their iconic bestseller *Our Iceberg Is Melting*, John Kotter and Holger Rathgeber used a simple fable about penguins to explain the process of leading people through major changes. Now, ten years later, they're back with another must-read story that will help any team or organization cope with their biggest challenges and turn them into exciting opportunities. Once upon a time a clan of meerkats lived in the Kalahari, a region in southern Africa. After years of steady growth, a drought has sharply reduced the clan's resources, and deadly vulture attacks have increased. As things keep getting worse, the harmony of the clan is shattered. The

executive team quarrels about possible solutions, and suggestions from frontline workers face a soul-crushing response: "That's not how we do it here!" So Nadia, a bright and adventurous meerkat, hits the road in search of new ideas to help her troubled clan. She discovers a much smaller group that operates very differently, with much more teamwork and agility. These meerkats have developed innovative solutions to find food and evade the vultures. But not everything in this small clan is as perfect as it seems at first. Can Nadia figure out how to combine the best of both worlds—a large, disciplined, well-managed clan and a small, informal, inspiring clan—before it's too late? This book distills Kotter's decades of experience and award-winning research to reveal why organizations rise and fall, and how they can rise again in the face of adversity.

*What Got You Here Won't Get You There* Capstone

Finalist for the National Jewish Book Award A deeply felt, beautifully crafted meditation on friendship and loss in the vein of *A Year of Magical Thinking*, and a touching portrait of Philip Roth from his closest friend. I had a baseball question on the tip of my tongue: What was the name of "the natural," the player shot by a stalker in a Chicago hotel room? He gave me an amused look that darkened in-to puzzlement, then fear. Then he pitched forward into the soup, unconscious. When I entered the examining room twenty minutes after our arrival at Charlotte Hungerford Hospital, Philip said, "No more books." Thus he announced his retirement. So begins Benjamin Taylor's *Here We Are*, the unvarnished

portrait of his best friend and one of America's greatest writers. Needless to say, Philip Roth's place in the canon is secure, but what is less clear is what the man himself was like. In *Here We Are*, Benjamin Taylor's beautifully constructed memoir, we see him as a mortal man, experiencing the joys and sorrows of aging, reflecting on his own writing, and doing something we all love to do: passing the time in the company of his closest friend. *Here We Are* is an ode to friendship and its wondrous ability to brighten our lives in unexpected ways. Benjamin Taylor is one of the most talented writers working today, and this new memoir pays tribute to his friend, in the way that only a writer can. Roth encouraged him to write this book, giving Taylor explicit instructions not to sugarcoat anything and not to publish it until after his death. Unvarnished and affectionately true to life, Taylor's memoir will be the definitive account of Philip Roth as he lived for years to come.

Mapmaking fulfills one of our most ancient and deepseated desires: understanding the world around us and our place in it. But maps need not just show continents and oceans: there are maps to heaven and hell; to happiness and despair; maps of moods, matrimony, and mythological places. There are maps to popular culture, from Gulliver's Island to Gilligan's Island. There are speculative maps of the world before it was known, and maps to secret places known only to the mapmaker. Artists' maps show another kind of uncharted realm: the imagination. What all these maps have in common is their creators' willingness to venture beyond the boundaries of geography or convention. *You Are Here* is a wide-ranging collection of such superbly inventive maps. These are charts of places you're not expected to find, but a voyage you take in your mind: an exploration of the ideal country estate from a dog's perspective; a guide to buried treasure on Skeleton Island; a trip down the road to success; or the world as imagined by an inmate of a mental institution. With over 100 maps from artists, cartographers, and explorers, *You are Here* gives the reader a breath-taking view of worlds, both real and imaginary.

NATIONAL JEWISH BOOK AWARDS FINALIST • “Part personal quest, part testament, and all thoughtfully, compassionately written.”—The Washington Post “Esther Safran Foer is a force of nature: a leader of the Jewish people, the matriarch of America’s leading literary family, an eloquent defender of the proposition that memory matters. And now, a riveting memoirist.”—Jeffrey Goldberg, editor in chief of The Atlantic NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Esther Safran Foer grew up in a home where the past was too terrible to speak of. The child of parents who were each the sole survivors of their respective families, for Esther the Holocaust loomed in the backdrop of daily life, felt but never discussed. The result was a childhood marked by painful silences and continued tragedy. Even as she built a successful career, married, and raised three children, Esther always felt herself searching. So when Esther’s mother casually mentions an astonishing revelation—that her father had a previous wife and daughter, both killed in the Holocaust—Esther resolves to find out who they were, and how her father survived. Armed with only a black-and-white photo and a hand-drawn map, she travels to Ukraine, determined to find the shtetl where her father hid during the war. What she finds reshapes her identity and gives her the opportunity to finally mourn. *I Want You to Know We’re Still Here* is the poignant and deeply moving story not only of Esther’s journey but of four generations living in the shadow of the Holocaust. They are four generations of survivors, storytellers, and memory keepers, determined not just to keep the past alive but to imbue the present with life and more life.

We Are Here to Stay: Voices of Undocumented Young Adults  
HarperCollins

The story of the rise of modern navigation technology, from radio location to GPS-and the consequent decline of privacy What does it mean to never get lost? You Are Here examines the rise of our technologically aided era of navigational omniscience-or how we came to know exactly where we are at all times. In a sweeping history of the development of location technology in the past century, Bray shows how radio signals created to carry telegraph

messages were transformed into invisible beacons to guide ships and how a set of rapidly-spinning wheels steered submarines beneath the polar ice cap. But while most of these technologies were developed for and by the military, they are now ubiquitous in our everyday lives. Our phones are now smart enough to pinpoint our presence to within a few feet-and nosy enough to share that information with governments and corporations. Filled with tales of scientists and astronauts, inventors and entrepreneurs, You Are Here tells the story of how humankind ingeniously solved one of its oldest and toughest problems-only to herald a new era in which it's impossible to hide.

How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In *You Are Here*, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined within a much larger we, and how everyone fits within an ever-shifting network map.
