Buddha or Bust No
Starch Press
The cult-y pocket-size
field guide to the
strange and intriguing
secrets of the
Mojave—its myths and
legends, outcasts and
oddballs, flora, fauna,

and UFOs—becomes
the definitive, oracular
book of the desert For
the past five years,
Desert Oracle has
existed as a quasi-
mythical, quarterly
periodical available to
the very determined
only by subscription or
at the odd desert-town
gas station or the
occasional hipster
boutique, its canary-

yellow-covered, forty-four-page issues handed from one curious desert zealot to the next, word spreading faster than the printers could keep up with. It became a radio show, a podcast, a live performance. Now, for the first time—and including both classic and new, never-before-seen revelations—Desert Oracle has been bound between two hard covers and is available to you. Straight out of Joshua Tree, California, Desert Oracle is “The Voice of the Desert”: a field guide to the strange tales, singing sand dunes, sagebrush trails, artists and aliens, authors and oddballs, ghost towns and modern legends, musicians and mystics, scorpions and saguaros, out there in

the sand. Desert Oracle is your companion at a roadside diner, around a campfire, in your tent or cabin (or high-rise apartment or suburban living room) as the wind and the coyotes howl outside at night. From journal entries of long-deceased adventurers to stray railroad ad copy, and musings on everything from desert flora, rumored cryptid sightings, and other paranormal phenomena, Ken Layne's Desert Oracle collects the weird and the wonderful of the American Southwest into a single, essential volume.

A billionaire romance stand alone from USA Today bestselling author K.A. Linde... I'd

dated his brother. He didn't remember and I wish I could forget. I may have sworn off the Wright family a long time ago. But when I returned home, Jensen Wright crashed into my life with the confidence of a billionaire CEO and the sex appeal of a god. Even I couldn't resist our charged chemistry, or the way he fit into my life like a missing puzzle piece. Too bad he'd forgotten the one thing that could destroy us. Because Jensen Wright doesn't share. Not with anyone. And if his brother finds out, this could all go down in flames. When it all was said and done, was he the Wright brother?

Topics: free romance books, free romance novels, contemporary romance, freebie, billionaire romance,

romance series, billionaire duet, taboo romance, forbidden romance, fiction for women, free books for 2019, free books for adults, bestselling books, erotic CEO story, hot read, sensual novel, edgy romance, erotic free romance books, strong female stories, alpha male, dominant male, dominating hero, hot guy, racy, sexy, wealthy heroes, popular beach reads, best selling author, office romance, K.A. Lemon-Aid New and Used Cars and Trucks 2007-2018

American Council for an Energy-Efficient Economy

The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less

air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more

effective than others? Written to inform The United States Department of Transportation's National Highway Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential efficiency improvements, and

barriers to commercial deployment of technologies that might be employed from 2020 to 2030. This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017-2025 CAFE standards.

The Rocket into Planetary Space John Wiley & Sons Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car-and-truck book on the market. "Dr. Phil," along with George Iny and the Editors of the Automobile Protection Association, pull no punches.

National Academies Press
“The best known life coach in America” (Psychology Today) and bestselling author of *Finding Your Own North Star* provides a new transformational program for creating an unconventional life path to a sustainable way of life. Martha Beck’s program has been practiced by Oprah and featured on Super Soul Sunday! *Finding Your Way in a*

Wild New World reveals a remarkable path to the most important discovery you can make: the knowledge of what you should be doing with your one wild and precious life. It’s the thing that so fulfills you that, if you knew what it was, you’d run straight toward it through brambles and fire. Life coach and bestselling author of *Finding Your Own North Star* Martha Beck guides you to find out how you got to where you are now and what you should do next, with clear instructions on tapping into the deep, wordless knowledge you carry in your body and soul. You probably have sensed that you have a higher calling and a quiet power that could change the world—you lack only the tools.

With her sparkling prose, Beck draws from ancient wisdom and modern science to help you consciously tap into that power and develop those tools for transformation. You'll also find your inner identity and your external "tribe" of like-minded people, experience the spark of inspiration, and take action to make a lasting impact on the world. Compassionate and inspirational, *Finding Your Way in a Wild New World* is a revolutionary journey of self-discovery that leads to miraculous change.

The Pink Steering Wheel Chronicles
Dundurn

For a century, almost all light-duty vehicles (LDVs) have been powered by internal combustion engines

operating on petroleum fuels. Energy security concerns about petroleum imports and the effect of greenhouse gas (GHG) emissions on global climate are driving interest in alternatives. *Transitions to Alternative Vehicles and Fuels* assesses the potential for reducing petroleum consumption and GHG emissions by 80 percent across the U.S. LDV fleet by 2050, relative to 2005. This report examines the current capability and estimated future performance and costs for each vehicle type and non-petroleum-based fuel technology as options that could significantly contribute to these goals. By analyzing scenarios that combine various fuel and vehicle

pathways, the report also identifies barriers to implementation of these technologies and suggests policies to achieve the desired reductions. Several scenarios are promising, but strong, and effective policies such as research and development, subsidies, energy taxes, or regulations will be necessary to overcome barriers, such as cost and consumer choice. Simon and Schuster

When Bloomberg journalist Mark Pittman suddenly died, his widow spent four summers driving 31,152 miles searching for answers. In her fearless memoir, *The Pink Steering Wheel Chronicles: A Love Story*, author Laura Fahrenthold presents a moving portrait of

marriage, motherhood and mourning as she captains a 1993 RV sprinkling her husband's ashes with their two young daughters and a stray dog in an epic quest for healing and understanding. Filled with insight and wit from a career in journalism, the story captures the family's adventures and misadventures, her deeply-layered love story, and her hilarious slice-of-life dispatches where the pink steering wheel becomes her spiritual GPS.

Autocar K.A. Linde Inc. *The Advocate* is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the

United States.

“Sister” Jane Arnold, esteemed master of the Jefferson Hunt Club, has traveled to Kentucky for one of the biggest events of the season: the Mid-America Hound Show, where foxhounds, bassets, and beagles gather to strut their champion bloodline stuff. But the fun is

squelched when immediately after the competition a contestant turns up dead—stripped to the waist and peppered with birdshot. Two weeks later, back in Virginia, a popular veterinarian dies from what appears to be a self-inflicted gunshot wound. Sister refuses to believe that her friend killed herself and vows to sniff out the truth. But before she can make real headway, a wealthy pet food manufacturer vanishes during the granddaddy of all canine exhibitions, the Virginia Hound Show. Ever reliant on her “horse sense,” Sister can’t help but connect the three incidents, and what she uncovers will make her blood run colder than the bodies that keep turning up in

unexpected places. *Backpacker* Harmony Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, *Backpacker* is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Manuals N. America, Incorporated
Accelerate sales and improve customer experience Every day, most working professionals entrust their most important messages to a form of communication that

doesn't build trust, provide differentiation, or communicate clearly enough. It's easy to point to the sheer volume of emails, text messages, voicemails, and even social messaging as the problem that reduces our reply rates and diminishes our effectiveness. But the faceless nature of that communication is also to blame. *Rehumanize Your Business* explains how to dramatically improve relationships and results with your customers, prospects, employees, and recruits by adding personal videos to emails, text messages, and social messages. It explains the what, why, and how behind this new movement toward simple, authentic videos—and when to replace some

of your plain, typed-out communication with webcam and smartphone recordings. • Restore face-to-face communication for clarity and connection • Add a personal, human touch to your emails and other messages • Meet people who've sent thousands of videos • Learn to implement your own video habit in an easy, time-saving way • Boost your replies, appointments, conversion, referrals, and results dramatically If you're ready to influence, teach, sell, or serve in a more personal way, *Rehumanize Your Business* is your guide. [Brandweek](#) Time Home Entertainment For all being interested in astronautics, this translation of Hermann

Oberth's classic work is a truly historic event. Readers will be impressed with this extraordinary pioneer and his incredible achievement. In a relatively short work of 1923, Hermann Oberth laid down the mathematical laws governing rocketry and spaceflight, and he offered practical design considerations based on those laws.

Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving

millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and

ChipWhisperer, The Car Hacker's Handbook will show you how to:

- Build an accurate threat model for your vehicle
- Reverse engineer the CAN bus to fake engine signals
- Exploit vulnerabilities in diagnostic and data-logging systems
- Hack the ECU and other firmware and embedded systems
- Feed exploits through infotainment and vehicle-to-vehicle communication systems
- Override factory settings with performance-tuning techniques
- Build physical and virtual test benches to try out exploits safely

If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

Desert Oracle DIANE Publishing

Why does an idea that's 2,500 years old seem more relevant today than ever before? How can the Buddha's teachings help us solve many of the world's problems? Journalist Perry Garfinkel circumnavigated the globe to discover the heart of Buddhism and the reasons for its growing popularity—and ended up discovering himself in the process. The assignment from National Geographic couldn't have come at a better time for Garfinkel. Burned out, laid up with back problems, disillusioned by relationships and religion itself, he was still hoping for that big journalistic break—and the answers to life's

biggest riddles as well. So he set out on a geographic, historical and personal expedition that would lead him around the world in search of those answers, and then some. First, to better understand the man who was born Prince Siddhartha Gautama, he followed the time-honored pilgrimage “in the footsteps of the Buddha” in India. From there, he tracked the historical course of Buddhism: to Sri Lanka, Thailand, China, Tibet, Japan and on to San Francisco and Europe. He found that the Buddha’s teachings have spawned a worldwide movement of “engaged Buddhism,” the application of Buddhist principles to resolve social, environmental,

health, political and other contemporary problems. From East to West and back to the East again, this movement has caused a Buddhism Boom. Along the way he met a diverse array of Buddhist practitioners—Thai artists, Indian nuns, Sri Lankan school children, Zen archers in Japan, kung fu monks in China and the world’s first Buddhist comic (only in America). Among dozens of Buddhist scholars and leaders, Garfinkel interviewed His Holiness the Dalai Lama, an experience that left him speechless—almost. As just reward for his efforts, toward the end of his journey Garfinkel fell in love in the south of France at the retreat center of a leader of the engaged

movement, the Vietnamese Buddhist monk Thich Nhat Hanh—a romance that taught him as much about Buddhism as all the masters combined. In this original, entertaining book, Garfinkel separates

Buddhist fact from fiction, sharing his humorous insights and keen perceptions about everything from spiritual tourism to Asian traffic jams to the endless road to enlightenment.
