Italic Calligraphy and Handwriting Heritage

Music Press

(Faber Piano Adventures

). Written for ages 5 and

6, *My First Piano*

Adventure captures the

child's playful spirit. Fun-

filled songs, rhythm

games and technique

activities develop

beginning keyboard skills.

Three distinguishing

features of the Lesson

Book A make it unique

and effective for the

young 5-6 year old

beginner. 1. A strong

focus on technique

embedded in the book

through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An

outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The

orchestrated songs on the CD feature children

singing the lyrics, which

has great appeal to the 5-6 year old beginner. The CD becomes a ready-

made practice partner

that guides the student

and parent for all the

pieces and activities in the books. 3. The fanciful

art features five multi-

cultural children who are

also learning to play. These friends at the piano

introduce basic rhythms,

white key names, and a

variety of white and black-

key songs that span

classical, folk, and blues.

Young students will listen,

sing, create, and play

more musically with

Nancy and Randall Faber's

My First Piano

Adventure, Lesson Book

A. The Lesson Book

introduces directional pre-

reading, elementary

music theory and

technique with engaging

songs, games, and

creative discovery at the

keyboard. Young students

will enjoy the multi-

cultural "friends at the

piano" who introduce

white-key names, basic

rhythms, and a variety of

songs which span

classical, folk, and blues.

Ear-training and eye-

training are also part of

the curriculum. The

Fabers' instructional

theory "ACE" - Analysis,

Creativity, and

Expression, guides the

pedagogy of *My First*

Piano Adventure. Analysis

leads to understanding,

creativity leads to self-

discovery, and expression

develops personal

artistry. The CD for this

book offers a unique

listening experience with

outstanding

orchestrations and vocals.

The recordings

demonstrate a key

principle of the course:

when children listen, sing,

tap, and move to their

piano music, they play

more musically. View

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of

his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to

know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

400 Years of Recorder Music
Mel Bay Publications

Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the

children I'm working with? How can music help inspire a well-rounded child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and

integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to

understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically.
