A room locked for fifty years. A valuable
peacock ring. A mysterious brother-sister
duo. Paloma Marquez is traveling to
Mexico City, birthplace of her deceased
father, for the very first time. She's hoping

that spending time in Mexico will help her
unlock memories of the too-brief time they
spent together. While in Mexico, Paloma
meets Lizzie and Gael, who present her
with an irresistible challenge: The siblings
want her to help them find a valuable ring
that once belonged to beloved Mexican
artist Frida Kahlo. Finding the ring means
a big reward -- and the thanks of all
Mexico. What better way to honor her
father than returning a priceless piece of
jewelry that once belonged to his favorite
artist! But the brother and sister have a
secret. Do they really want to return the
ring, or are they after something else

entirely?

The woods were insane in the dark, terrifying and magical at the same time. But best of all were the stars, which trumpeted their light into the misty dark. Castella Cresswell and her five siblings???Hannan, Casper, Mortimer, Delvive, and Jerusalem??? know what it's like to be different. For years, their world has been confined to their ramshackle family home deep in the woods of upstate New York. They abide by the strict rule of God, whose messages come directly from their father. Slowly, Castley and her

siblings start to test the boundaries of the laws that bind them. But, at school, they're still the freaks they've always been to the outside world. Marked by their plain clothing. Unexplained bruising. Utter isolation from their classmates. That is, until Castley is forced to partner with the totally irritating, totally normal George Gray, who offers her a glimpse of a life filled with freedom and choice. Castley's world rapidly expands beyond the woods she knows so well and the beliefs she once thought were the only truths. There is a future waiting for her if she can escape her father's grasp, but Castley refuses to leave her siblings behind. Just as she begins to form a plan, her father makes a chilling announcement: the Cresswells will soon return to their home in heaven. With time running out on all of their lives, Castley must expose the depth of her father's lies. The forest has buried the truth in darkness for far too long. Castley might be their last hope for salvation.

Hugh Thomas' account of the collapse of Montezuma's great Aztec empire under the onslaughts of Cort's' conquistadors is one of the great historical works of our

times. A thrilling and sweeping narrative, it also bristles with moral and political issues. After setting out from Spain - against explicit instructions - in 1519, some 500 conquistadors destroyed their ships and fought their way towards the capital of the greatest empire of the New World. When they finally reached Tenochtitlan, the huge city on lake Texcoco, they were given a courtly welcome by Montezuma, who believed them to be gods. Their later abduction of the emperor, their withdrawal and the final destruction of the city make the Conquest one of the most enthralling and tragic episodes in world history.

If, as David Guss argues, culture is a contested terrain with constantly changing contours, then festivals are its battlegrounds, where people come to fight and dispute in large acts of public display. Festive behavior, long seen by anthropologists and folklorists as the "uniform expression of a collective consciousness, is contentious and often subversive," and The Festive State is an eye-opening guide to its workings. Guss

investigates "the ideology of tradition," combining four case studies in a radical multisite ethnography to demonstrate how in each instance concepts of race, ethnicity, history, gender, and nationhood are challenged and redefined. In a narrative as colorful as the events themselves, Guss presents the Afro-Venezuelan celebration of San Juan, the "neo-Indian" Day of the Monkey, the mestizo ritual of Tamunangue, and the cultural policies and products of a British multinational tobacco corporation. All these illustrate the remarkable fluidity of festive behavior as well as its importance in articulating different cultural interests.

Michael Savage attacks big government and liberal media bias. The son of immigrants, Savage shows how traditional American freedoms are being destroyed from the outside and undermined from within-not just our own government, but also from alien forces within our own society. Savage argues that if the price of liberty is eternal vigilance, then only a more "savage nation" will enjoy these liberties. Savage's high ratings and the rapid growth of his program prove he is in touch with the concerns of the average American.

In this poetic memoir, which won the Pura Belpré Author Award, was a YALSA Nonfiction Finalist, and was named a Walter Dean Myers Award Honoree, acclaimed author Margarita Engle tells of growing up as a child of two cultures during the Cold War. Margarita is a girl from two worlds. Her heart lies in Cuba, her mother's tropical island country, a place so lush with vibrant life that it seems like a fairy tale kingdom. But most of the time she lives in Los Angeles, lonely in the noisy city and dreaming of the summers when she can take a plane through the enchanted air to her beloved island. Words and images are her constant companions, friendly and comforting when the children at school are not. Then a revolution breaks out in Cuba. Margarita fears for her far-away family. When the hostility between Cuba and the United States erupts at the Bay of Pigs Invasion, Margarita's worlds collide in the worst way possible. How can the two countries she loves hate each other so much? And will she ever get to

visit her beautiful island again?

For more than a quarter century, Sittig's Handbook of Toxic and Hazardous Chemicals and Carcinogens has proven to be among the most reliable, easy-to-use and essential reference works on hazardous materials. Sittig's 5th Edition remains the lone comprehensive work providing a vast array of critical information on the 2,100 most heavily used, transported, and regulated chemical substances of both occupational and environmental concern. Information is the most vital resource anyone can have when dealing with potential hazardous substance accidents or acts of terror. Sittig's provides extensive data for each of the 2,100 chemicals in a uniform format, enabling fast and accurate decisions in any situation. The chemicals are presented alphabetically and classified as a carcinogen, hazardous substance, hazardous waste, or toxic pollutant. This new edition contains extensively expanded information in all 28 fields for each chemical (see table of contents) and

has been updated to keep pace with world events. Chemicals classified as WMD have been included in the new edition as has more information frequently queried by first responders and frontline industrial safety personnel. *Includes and references European chemical identifiers and regulations. *The only single source reference that provides such in-depth information for each chemical. *The two volume set is designed for fast and accurate decision making in any situation.

Evil. Women. The Feminine. The relationships that bring together these three ideas form the basis for the papers gathered together in this volume. By asking how, why, when, and to what purpose these three terms are often linked serves as the starting point of interrogation for each of the authors here considered.

Deep within the remote backlands of nineteenth-century Brazil lies Canudos, home to all the damned of the earth: prostitutes, bandits, beggars, and every kind of outcast. It is a place where history

and civilization have been wiped away. There is no money, no taxation, no marriage, no census. Canudos is a cauldron for the revolutionary spirit in its purest form, a state with all the potential for a true, libertarian paradise--and one the Brazilian government is determined to crush at any cost. In perhaps his most ambitious and tragic novel, Mario Vargas Llosa tells his own version of the real story of Canudos, inhabiting characters on both sides of the massive, cataclysmic battle between the society and government troops. The resulting novel is a fable of Latin American revolutionary history, an unforgettable story of passion, violence, and the devastation that follows from fanaticism.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and

stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

 Written in 1995, this unique ethnographic study of a small Idaho community with a

large Hispanic population examines many dimensions of the impact race relations have on everyday life for rural Mexican Americans. Mexican Americans are the largest minority in Idaho, yet they live in a different world from the Anglo population, and because of pervasive stereotypes and exclusive policies, their participation in the community's social, economic, and political life is continually impeded. The small-town setting of this study allows the reader to listen to how Anglos talk about a racial minority. Most Americans publicly censor and monitor their thoughts on racial minorities, but Anglos in Middlewest expressed openly what many Anglo Americans think. This study presents a comprehensive examination of how institutionalized racism operates in American society. Reading this book will enable the reader to better understand why the race problem in America does not disappear.

The Golden Age of the Spanish Empire would establish five centuries of Western supremacy across the globe and usher in an era of transatlantic exploration that

eventually gave rise to the modern world. It was a time of discovery and adventure, of great political and social change—it was a time when Spain learned to rule the world. Assembling a spectacular cast of legendary characters like the Duke of Alba, El Greco, Miguel de Cervantes, and Diego Velázquez, Robert Goodwin brings the Spanish Golden Age to life with the vivid clarity and gripping narrative of an epic novel. From scholars and playwrights, to poets and soldiers, Goodwin is in complete command of the history of this tumultuous and exciting period. But the superstars alone will not tell the whole tale—Goodwin delves deep to find previously unrecorded sources and accounts of how Spain's Golden Age would unfold, and ultimately, unravel. Spain is a sweeping and revealing portrait of Spain at the height of its power and a world at the dawn of the modern age.
