This special edition of the Educational

Communications and Technology Yearbook Series bears a title of "Learning Environment and Design: Current and Future Impact". It provides a timely forum to share theoretical and practical insights in both the local and international contexts in response to the fact that new media and technologies have infiltrated and shaped the learning environments from mere physical spaces into multifaceted possibilities, impacting the ways individuals teach and learn. Designs of

learning environments to harness technologies appropriately to engage learners better, as well as the roles of learners and educators play in this changing learning environment, are examples of important global issues in the discourse of the contemporary educational developments. Having gathered a diverse collection of research papers written by scholars and practitioners in the fields of education, communication and humanities across Asia,

Australasia, Europe and the United States, this book gives readers a cross-cultural background on the developments of technological designs and educational practices, investigating areas in redefining of quality education; online learning and blended learning; new media in education; gamification, AI, and innovative learning technologies. Aimed to catalyze knowledge exchanges and provide fresh views on interdisciplinary research, the book sheds light on

how emerging technologies can be adapted in the fields of education and communication, so as to facilitate the current and future designs of learning environments to improve learners' performances.

McGraw-Hill Education Educators across content areas have turned to Classroom Strategies for Interactive Learning for almost two decades. This fully updated fourth edition delivers rich, practical, research-based strategies that readers have found invaluable in the context of today's classrooms. Doug has written all-new chapters that focus on the instructional shifts taking place as the Common Core State Standards are implemented across the

United States. These introductory chapters will help you do the following: Understand the research base for comprehension strategies in content classrooms Learn how to tap into students' background knowledge to enhance comprehension of complex texts and build new knowledge Show learners how to question a text Teach reading and thinking through a disciplinary lens At the heart of this edition are more than forty classroom strategies, with variations and strategy indexes that

identify the instructional focus of each strategy, pinpoint the text frames in play as students read and learn, and correlate students' comprehension processes across the phases of strategy implementation. In addition, each strategy is cross-referenced with the Common Core's reading, writing, speaking/listening, and language standards.

All parents want their
children to read well and
to succeed—and experts
agree that improving
literacy begins at birth.
Reading aloud to your
child, sharing simple
games and wordplay, and
developing letter
knowledge start your child
off on the right foot for
school and life. Now the
esteemed Lee Pesky
Learning Center has
created this easy,
accessible reference for

parents to help foster better literacy skills in children. Topics are individually tailored for three age ranges—infant, toddler, and preschool—and include • the best read-aloud books to develop sound awareness • the perfect picture books for encouraging letter knowledge • ways to promote verbal language and build vocabulary • the benefits of symbolic play • fun (and

educational) games for car trips • helping youngsters “write” at home • great gift ideas for kids • warning signs of a learning disability The fundamentals of reading start at home. Every Child Ready to Read helps parents motivate their children to learn, and to become confident readers who will always enjoy reading.
