Recently, the immanent Trinity (God as in himself) has been criticized as abstract and impractical as opposed to the economic Trinity (God in relation to the world). Many scholars argue that the immanent Trinity is detached from the real life of believers and God's economic work of redemption and thus abstract and impractical. But is this assumption itself

really true? What if the blueprint of God's work of redemption is already located in the immanent Trinity as the divine idea? What if Jonathan Edwards, arguably the American greatest theologian, expounds this doctrine as a vital driving force in his theology? Rediscovering the doctrine of the covenant of redemption will help us to see that the immanent Trinity actually is not abstract, but highly practical, simply because the redemption of the believers hinges on the divine plan located there. This study is a fruit of the recent convergence of the resurging doctrine of the Trinity and the renaissance of studies of Jonathan Edwards.

Let Go of Broken Identities and Live the Life You Were Made for John Wiley & Sons
 An expert study of church planting in the most secular part of contemporary Europe
 In this book Stefan Paas offers thoughtful analysis of reasons and motives for

missionary church planting in Europe, and he explores successful and unsuccessful strategies in that post-Christian secularized context. Drawing in part on his own involvement with planting two churches in the Netherlands, Paas explores confessional motives, growth motives, and innovation motives for church planting in Europe, tracing them back to different traditions and reflecting on them from theological and empirical perspectives. He presents examples from the European context and offers sound advice for improving existing missional practices. Paas also draws out lessons for North America in a chapter coauthored with Darrell Guder and John Franke. Finally, Paas weaves together the various threads in the book with a theological defense of church planting. Presenting new research as it does, this critical missiological perspective will add

significantly to a fuller understanding of church planting in our contemporary context.

An Introduction to 3D Movements 3D Ministries

If the church is to thrive in the twenty-first century, it will have to take on a new form as it ministers to the 120 million unchurched people in the United States. *Planting Growing Churches for the 21st Century* is still virtually the only available text on church planting in North America and beyond. In this third edition, readers will find material on the importance of healthy, biblical change in our churches, updated appendixes, insight on our postmodern ministry context, and strategies for reaching new population demographics such as Generations X and Y. Pastors, ministry leaders, and church planters will find the information and advice found in this book invaluable as they carry out their ministries.

"So that in everything He might have the supremacy." —Colossians 1:18 Christians have made the gospel about so many things—things other than Christ. Religious concepts, ideas, doctrines, strategies, methods, techniques, formulas, "its" and "things" have all eclipsed the beauty, the glory, and the reality of the Lord Jesus Himself. On the whole, Christians today are starved for a real experience of the living Christ. We know a lot about our Lord, but we don't know Him very well. We know a lot about trying to be like Jesus, but very little about living by His indwelling life. *JESUS MANIFESTO* presents a fresh unveiling of Jesus as not only Savior and Lord, but as so much more. It is a prophetic call to restore the supremacy and sovereignty of Christ in a world—and a church—that has lost sight of Him. Every revival and restoration in the church has been a rediscovery of some aspect of Christ in the process of answering the ultimate question that Jesus put to His disciples: "Who do you say that I am?" Read this book and see your Lord like you've never seen Him before.

The Passionate Church World Health Organization

Loneliness is increasingly recognized as a major public health crisis that is on the rise and impacting people of all ages. Addressing the crisis of loneliness from a fresh perspective, this book introduces belonging as an overlooked but critical aspect of a flourishing Christian life. Eric Jacobsen shows how three pieces of glass—the car windshield, TV, and smartphone—are emblematic of significant societal shifts that have created a cultural habit of

physical isolation. We feel increasingly disconnected from the people and places around us. Jacobsen explains how adopting everyday practices and making changes in our neighborhoods can help us create a sense of belonging and rediscover what belonging in a place looks like. In order to effectively solve the problem of loneliness, we need to recover patterns and practices of community life that encourage us to form meaningful connections with people and stories that are part of the places where we live, work, and worship. To this end, Jacobsen offers four redemptive strategies for living a more intentional and spiritual life.

Every church leader and church member want their church to grow. The promise of THE ATTRACTIVE CHURCH is that if a church experience is positive, the lost, absent, and unfilled will come and complacent people in the pew will have their faith renewed. Author Billy Hornsby says that what keeps most churches from growing are the "methods" they choose for their outreach efforts. The local church must ensure visitors and members alike a good and lasting impression of their experience in church, especially the worship service. "You must get the first impression right!" Hornsby insists. From the website, Facebook page, Twitter accounts, leadership blogs, and parking lot to the worship facility and worship service: the total church experience must speak to people's emotions and be relational and relevant. THE ATTRACTIVE CHURCH is both motivational and practical with guidance on how to accomplish this transformation, and also presents case studies of some of the fastest-growing and most innovative churches in America. Here is a fresh vision for what the church can be.

"Living into the Mystery" combines the wit and wisdom of life experience and spiritual adventures in a series of letters that answer questions about faith and doubt, creativity, commitment, and community. Letter-writing is a lost art. Collected here are the letters of a compassionate pastor to the people who ask her questions in the strangest of places—from airplanes to barnyards. ?Arising from a pastor's heart, these letters give voice to the struggles of the spirit and offer insight as well as compassion. I found myself thinking of the times I wished I had written similar things to similar questioners. These letters provide fertile reflection for pilgrims in every stage of the spiritual journey.? Thomas M. Greener, DMin Pastor, Camp Ground UMC Fayetteville, North Carolina Wm. B. Eerdmans Publishing Churches committed to following Christ's example want to see this world changed for the sake of eternity. While the supernatural component of making that happen goes without saying, how does a

body of believers do its part to be in that "sweet spot" where true spiritual transformation can occur? In *Transformational Church*, bestselling research authors Thom S. Rainer and Ed Stetzer have surveyed fifty thousand down to five hundred congregations in search of the qualitative answer. Their book contains a wealth of indispensable new data, nuanced insights, and clear how-to guidance, all centered on this key finding: Transformational churches make disciples whose lives are being transformed by the gospel so that people engage the culture around them for its ultimate transformation. Deeply committed to the essential foundations of discipleship (worship, community, and mission), transformational churches practice their faith and make disciples through vibrant leadership, prayerful dependence upon God, and relational intentionality. And they do so paying mind to their unique context and with a missionary mindset. The most comprehensive study of the American church to date.

The Moral Maxims of the Sages of Israel is a study of the moral maxims of the sages of Israel, who thrived from 300 B.C.E. to 200 C.E., that are contained in the work known as *Pirkei Avot*, probably the oldest anthology of its kind in literary history. Although the work has been translated from the original Hebrew numerous times, much of it remains inaccessible because of the epigrammatic rather than discursive style of the original, which employs idiomatic expressions, unusual turns of phrase, grammatically awkward constructions, euphemisms, and plays on words that confound even those who are able to read it in the original language. An ancient work like *Pirkei Avot* can be read from a variety of perspectives. It may be read it from the standpoint of what it says that resonates with the contemporary concerns of the reader or commentator, often attaching meaning to a maxim that its author could not reasonably be expected to have intended. It may also be read from the perspective of attempting to understand what the redactor of the work had in mind when making his editorial

decisions about what to include or exclude, and why he made such choices from the large volume of materials available to him. Finally, the work can be read as representing the concerns of the individual authors in the context of the times in which they lived. In essence, then, one must choose between reading meaning into the text and reading meaning out of it. The approach in this book is to do the latter, that is, to understand the maxims and teachings of the sages that appear in *Pirkei Avot* primarily from the standpoint of the originators, and secondarily from the standpoint of the redactor, some of whose own thoughts are included in the work. In so doing, it will suggest, wherever possible and plausible, the unstated problems and questions to which the sages' teachings and assertions probably were deemed appropriate responses.

This book, while helpfully summarizing all the theory on Missional Communities, is fundamentally about how to make them work in your church community."--From back cover

David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's *Church Planting Movements: How God Is Redeeming a Lost World* signaled a breakthrough in missionary church planting. After the publication of

Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. *Church Planting Movements* examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of "Seven Deadly Sins," i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity.
