### **Chronicles of a Radical Criminologist**

Routledge

In our attempts to understand crime, researchers typically focus on proximate factors such as the psychology of offenders, their developmental history, and the social structure in which they are embedded. While these factors are important, they don't tell the whole story. *Evolutionary Criminology: Towards a Comprehensive Explanation of Crime* explores how evolutionary biology adds to our understanding of why crime is committed, by whom, and our response to norm violations. This understanding is important both for a better understanding of what precipitates crime and to guide approaches for effectively managing criminal behavior. This book is divided into three parts. Part I reviews evolutionary biology concepts important for understanding human behavior, including crime. Part II focuses on theoretical approaches to explaining crime, including the evolution of cooperation, and the evolutionary history and function of violent crime, drug use, property offending, and white collar crime. The developmental origins of criminal behavior are described to account for the increase in offending during adolescence and early adulthood as well as to explain why some offenders are more likely to desist than others. Proximal causes of crime are examined, as well as cultural and structural processes influencing crime. Part III considers human motivation to punish norm violators and what this means for the development of a criminal justice system. This section also considers how

an evolutionary approach contributes to our understanding of crime prevention and reduction. The section closes with an evolutionary approach to understanding offender rehabilitation and reintegration. Reviews how evolutionary findings improve our understanding of crime and punishment Examines motivations to offend, and to punish norm violators Articulates evolutionary explanations for adolescent crime increase Identifies how this knowledge can aid in crime prevention and reduction, and in offender rehabilitation

### Counseling Criminal Justice Offenders Cram101

Introduction to Criminology, *Why Do They Do It?*, Second Edition, by Pamela J. Schram Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date

and a perfect companion for those wanting to learn about criminology in context.

**Revel for Criminology Today** Pearson This package includes the REVEL(tm) access card and student value edition. REVEL is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, REVEL replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, REVEL is an interactive learning environment that enables students to read, practice, and study in one continuous experience--for less than the cost of a traditional textbook. A student-friendly, up-to-date, comprehensive introduction to the study of criminology. *Criminology Today: An Integrative Introduction, 8/e*, continues to offer students a clear, contemporary, and comprehensive introduction to criminology that encourages critical thinking about the causes of crime and crime-prevention strategies. The text's hallmark thematic approach of social problems versus social responsibility (Is crime a matter of individual responsibility or a symptom of a dysfunctional society?) prompts students to think critically about the causes of crime and helps them see the link between crime theories and crime policies. Updated with new information, theories, and statistics throughout, the Eighth Edition also includes new stories about Silk Road founder Ross Ulbricht, and the 2015 mass shooting at the Emanuel African Methodist Episcopal Church in Charleston, SC. A new Annotated Instructor's Edition is available, allowing instructors to quickly and easily find helpful lecture notes, discussion ideas, and class assignments. NOTE: Before purchasing, check with

your instructor to ensure you select the correct ISBN. Several versions of Pearson's products exist for each title, and registrations are not transferable. In addition to the access card included in this package, you will need a course invite link, provided by your instructor, to register for and use REVEL. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access code for REVEL may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. 0134420020 / 9780134420028 REVEL for Criminology Today: An Integrative Introduction, Student Value Edition -- Access Card Package Package consists of: 0134416775 / 9780134416779 REVEL for Criminology Today: An Integrative Introduction -- Access Card 0134417119 / 9780134417110 Criminology Today: An Integrative Introduction, Student Value Edition Cybercrime and Digital Forensics Edward Elgar Publishing This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. **Criminology Today: An Integrative Introduction: Pearson New International Edition** Oxford University

Press, USA

"Excellent book, the best I have read."  
—John McCulloch, South Hills Business School Counseling Criminal Justice Offenders, Second Edition takes a practical view of offenders, their problems, and the difficulties counselors face working with them in criminal justice settings. Author Ruth E. Masters examines criminal justice counseling on an individual and group basis and in a variety of settings such as prisons, probation and parole agencies, diversion programs, group homes, halfway houses, prerelease facilities, and U.S. jails. The book also explores the many faces of offenders — young, old, male, female, and across many cultures. The Second Edition of *Counseling Criminal Justice Offenders* recognizes that individuals who counsel offenders in the criminal justice system often have not had the extensive training of a licensed psychologist and this text is designed to provide readers with an understanding of the counseling process. The book explores practical knowledge of legal principles, appropriate and effective counselor attitudes, and the past and present protocols of American corrections. Features and Benefits: Each chapter begins with Chapter Highlights and Key Terms and ends with corresponding exercises and discussion questions. A section at the end of each chapter lists relevant Internet sites and suggested readings. The book includes Counselor/Offender role-play scenarios that prepare students for situations such as how to restore order over a group counseling session, handle their own personal feelings about an offender, and much more. An Instructor's Manual including test items and skill-building exercises is available. New to the Second Edition: Chapters have been reorganized

to emphasize the importance of counselors creating an alliance with offenders. Discussions have been updated on topics such as multicultural counseling, counseling victims, counseling paraprofessionals, cognitive-behavioral counseling, multimodal counseling, brief counseling, and counseling outcome effectiveness. New chapters have been added on counseling criminal psychopaths, the role of emotions in the counseling process, counseling male and female offenders, and the relationship between trauma, addiction, and human behavior. Primarily designed for criminal justice students taking correctional counseling courses, *Counseling Criminal Justice Offenders, Second Edition* is also a vital resource for any Criminal Justice, Social Work, Psychology, or Counseling practitioner interfacing with offenders.

Revel for Criminology Today Pearson College Division

*Crime, Shame and Reintegration* is a contribution to general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime. Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to

criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

**Introduction to Criminology**

Routledge

Leading scholar Tom R. Tyler provides a timely and engaging introduction to the field of law and psychology. This *Advanced Introduction* outlines the main areas of research, their relevance to law and the way that psychological findings have shaped - or failed to shape - the corresponding areas of law. Key features include focus on the relevance of psychological theories to topics in law, emphasis on the institutional realities within which law functions and discussion of the problems of bringing research findings into the legal system.

For courses in Criminology. Criminology Today: An Integrative Introduction 6e is a clear, contemporary and comprehensive introduction to the study of criminology. Offering a thematic approach that contrasts the social responsibility and social problems approaches to crime theory, the book encourages students to think critically about the causes of crime. Completely up-to-date, this edition includes new Professor Speaks excerpts, links to cutting-edge articles, and MyCrimeKit [www.mycrimekit.com](http://www.mycrimekit.com) activities that encourage students explore how security and freedom interface in an age of increasing globalism.

Criminology Today Cram101

Developmental and life-course criminology aims to provide information about how offending and antisocial behavior develops, about risk and protective factors at different ages, and about the effects of life events on the course of development. This volume advances knowledge about these theories of offender behavior, many of which have been formulated only in the last twenty years. It also integrates knowledge about individual, family, peer, school, neighborhood, community, and situational influences on offender behavior, and combines key elements of earlier theories such as strain, social learning, differential association, and control theory. Contributors Benjamin B.

Lahey and Irwin D. Waldman focus on antisocial propensity and the importance of biological and individual factors. Alex R. Piquero and Terrie E. Moffitt distinguish between life-course-persistent and adolescent-limited offenders. David P. Farrington presents the Integrated Cognitive Antisocial Potential (ICAP) theory, which distinguishes between long-term and short-term influences on antisocial potential. Richard F. Catalano, J. David Hawkins, and their colleagues test the Social Development Model (SDM). Marc Le Blanc proposes an integrated multi-layered control theory, in which criminal behavior depends on bonding to society, psychological development, modeling, and constraints. Robert J. Sampson and John H. Laub hypothesize that offending is inhibited by the strength of bonding to family, peers, schools, and later adult social institutions such as marriage and jobs. Terence P. Thornberry and Marvin D. Krohn propose an interactional theory, of antisocial behavior. Per-Olof H. Wikström's developmental ecological action theory emphasizes the importance of situational factors: opportunities cause temptation, friction produces provocation, and monitoring and the risk of sanctions have deterrent effects.

Criminology Today SAGE Publications Environmental criminology is a generic label that covers a range of overlapping perspectives. At the core, the various strands of environmental criminology are bound by a common focus on the role that the immediate environment plays in the performance of crime, and a conviction that careful analyses of these environmental influences are the key to the effective investigation, control and prevention of crime. Environmental Crime and Crime Analysis brings

together for the first time the key contributions to environmental criminology to comprehensively define the field and synthesize the concepts and ideas surrounding environmental criminology. The chapters are written by leading theorists and practitioners in the field. Each chapter will analyze one of the twelve major elements of environmental criminology and crime analysis. This book will be essential reading for both practitioners and undergraduate and postgraduate students taking courses in this subject. Criminology Today Prentice Hall Never HIGHLIGHT a Book Again Virtually all testable terms, concepts, persons, places, and events are included. Cram101 Textbook Outlines gives all of the outlines, highlights, notes for your textbook with optional online practice tests. Only Cram101 Outlines are Textbook Specific. Cram101 is NOT the Textbook. Accompanys: 9780521673761 Criminology Today Prentice Hall For courses in criminology.
