since the first International Congress for Experimental and Therapeutic Hypnotism in Paris in 1889, there have been several periods of widespread interest in hypnosis among the professions as well as the lay public, followed by periods of profound neglect. Since the end of World War II, however, we have witnessed not only a strong resurgence of interest in hypnosis throughout the world but also the gradual development of the kind of infrastructure which a field requires to survive and prosper. The burgeoning clinical literature has been matched by a dramatic increase in the amount of systematic research carried out in a wide range of institutions throughout the world. A tradition of triennial major world congresses has been established, beginning with the 3rd International Congress for Hypnosis and Psychosomatic Medicine in Paris in 1965. These meetings, encouraged and sponsored by the International Society of Hypnosis and its predecessor, the International Society of Clinical and Experimental Hypnosis, are sponsored by universities and provide a forum for the exchange of ideas among scientists and clinicians throughout the world.

This book is your guide to mastering hypnotic language, direct and indirect suggestion and creating the structure for success in clinical hypnotherapy. This book contains powerful hypnotic inductions scripts, examples of complete hypnosis sessions (some from transcripts of actual client sessions), and by reading these scripts, you will be inspired to incorporate these ideas into your next hypnosis session. Scripts are included for medical conditions like hand tremors, and even resources for creating an abundant future. These scripts are practical, effective, and based on what we know really works.

[Relaxing Tales for Children: A Revolutionary Approach to Helping Children Relax](#) W. W. Norton & Company

This book is a metaphysical visionary mystery fantasy novel, a psychological thriller set in a World of secret societies and hidden agenda's. This is a tale of mind reading, covert influencing and murder. The story explores the power of the mind and the power to influence others using hypnotic techniques. The hypnotic assassin is a master of his own mind, he uses hypnosis on himself to alter his perceptions of time and reality and to enhance what he is capable of physically and mentally. He uses hypnotic techniques to read the minds of others and to plant thoughts and ideas in people's minds and to make people willingly do things he wants them to do. This is the first story in the 'Followers of the Light' series. All hypnosis in this novel is possible, and the final chapter explains some of the techniques used by the 'assassin' in the novel. For thousands of years Hypnotic Assassins have existed to help free the people. 4500 years ago they were known as 'Assassins of the Light', 2000 years ago this changed to 'Followers of the Light'. They have always stood for freedom & peace. In 1938 they were almost all wiped out when an assassin became hungry for power & domination. Since then few Hypnotic Assassins remain. Sam Carter is one such assassin. Sam lives a quiet life in a small boxy flat, being a Hypnotic Assassin this is all he needs. Every day when Sam isn't on a mission he sits at the same seat in the Marlborough Cafe for 90 minutes, reading minds and drinking tea. One day he picks up a mission to assassinate Michael Rawlins, CEO of SiLo, a Nuclear Fusion research company who is planning on selling a nuclear weapon and advanced nuclear technology to someone in Europe. This starts out to be a straight forward and simple mission. But Sam's life end's up on the line, with Sam needing to use all his hypnotic skills just to survive."

Bedtime Stories for Grown-ups is a collection of 20 bedtime stories for adults from the 'Dan Jones Hypnosis' YouTube channel. The bedtime stories have been created in a way that encourages sleep and promotes wellbeing, helping with stress, anxiety and worry, three of the main areas behind many sleep problems, so, these bedtime stories are ideal for stressed out adults or those who find they worry or overthink when they should be falling asleep. These sleep stories for adults can be read by the person who wants to fall asleep, or read to someone to help them fall asleep, or audio recorded for personal use to help you fall asleep. Each bedtime story is a transcript of a 20-35 minute long hypnotic healing bedtime story. For most of human history storytelling helped people to share knowledge and wisdom while inspiring change and creativity. Storytelling is one of the oldest forms of verbal hypnosis. Stories stimulate and access the dreaming brain allowing people to update their neurology with new learning to change thinking, behaviours and responses to life events. Somewhere along the way storytelling became associated with children, it was seen as odd if you were an adult who said you liked listening to stories. This has now started to change, adults listening to stories and reading bedtime stories is on the rise. Dan Jones has over 20 years experience using storytelling as a form of therapy and to help people sleep, he also has a successful YouTube channel 'Dan Jones Hypnosis' with over 100 hypnotic healing bedtime stories for adults and over 20 sleep stories for children.

At last, a concise encyclopedia of NLP patterns! The Big Book Of NLP, Expanded, contains more than 350 techniques, patterns & strategies written in an easy, step-by-step format. The methods include a full array of the fundamentals that every practitioner needs, such as the Swish pattern and The Phobia Cure, as well as advanced and unique patterns, such as The Nested Loops method and Learning Strategies. Many of these techniques were never published before and cannot be found elsewhere. Perhaps more important, and unlike most other NLP books and programs, the patterns are written with great care and testing to ensure that they are clear and can be followed immediately.

[Ericksonian Approaches - Second Edition](#) Springer Science & Business Media

Relaxing Tales for Children is the sequel to Sleepy Bedtime Tales, which introduced a revolutionary new approach to helping children sleep, which Dan Jones had developed over 15 years ago during his time working in children's homes with children who struggled to fall asleep. Relaxing Tales for Children uses these same techniques, but the stories are focused on helping children to relax, rather than helping them to fall asleep. Each of the eleven stories follow the same characters who were in the stories in Sleepy Bedtime Tales as they take on different adventures. These stories are ideal for reading to children at home to help them to relax, or to read to groups of children at 'story time'. The target age range for these stories is 4-7 year old's, although the approach works with younger and older children than this age range. The stories have all been written to be read to children, rather than by children, so that they can relax and listen along with their eyes closed imagining the stories unfold.

[The Art of Hugging](#) Metamorphous Press

A modern script book, with scripts based on Contextual Psychology, giving you tools for manifesting real change. These scripts are designed to draw on multiple tools such as NLP (Neuro-Linguistic Programming), ACT Therapy, Mindfulness Meditation, Direct Suggestion, Indirect suggestion and integration of hypnotic phenomena with contextual psychology. There are scripts for medical hypnosis applications, scripts for habit and lifestyle issues, and scripts to meet your clients metaphysical needs or needs for self-improvement. There are also scripts for Guided Mindfulness Meditation sessions. This incredible book contains 65 complete hypnosis scripts for professional hypnotherapy.

Creating Trance and Hypnosis Scripts contains tried and tested hypnosis scripts for professional or trainee hypnotherapist's who are looking to help clients solve problems and ailments, from the more common quit smoking session to the less familiar candida. The collection of scripts contained in this book have been collated over many years and have been written by Gemma Bailey who is a qualified practicing hypnotherapist. Gemma has designed each script to include several hypnotic patterns (including language, voice tone, double binds etc) to help aid the trance experience. Changes in the hypnotists voice tonality have been marked out by altering the font of the text. The section called writing hypnosis scripts gives details about the hypnotic patterns and language used by professional hypnotherapists and NLP Master practitioners. This section provides tasks for the reader, encouraging them to use and identify hypnotic language so that they can create their own hypnotic scripts.

Hypnotically Enhanced Treatment for Addictions Simon and Schuster

Professional techniques and procedures for doing outstanding hypnotherapy using direct suggestion, convincers, covert testing, age regression and more. This is an exciting new book for professionals who are using hypnotherapy in their work (or would like to). It is highly organized and readable, and outlines and explains some of the most powerful and reliable techniques and procedures available to the modern hypnotherapist. A treasure of over 180 Hypnotherapy Techniques and Procedures that lead to successful hypnotherapy including: how to hypnotize every client, how to show every client that he or she was hypnotized, how to make your hypnotic suggestions more powerful than ever, how to make each session 10 times more powerful than the last one, how to covertly test your clients and use convincers that cannot fail, how to expertly conduct age regression sessions that are successful, how to work with overly-analytical, resistant or nervous clients, and how to amaze your clients and receive referrals from other professionals.

Inductions and Deepeners: Styles and Approaches for Effective Hypnosis Lulu Press, Inc

Scripts and Strategies in Hypnotherapy Volumes 1 and 2 have been combined to create the single most comprehensive source of scripts and strategies that can be used by hypnotherapists of all levels of experience to build a successful framework for any therapy session. It covers inductions, deepeners and actual scripts for a wide range of problems from nail-biting to insomnia, sports performance to past life recall, pain management to resolving sexual problems. There is a particularly comprehensive section on smoking cessation. All scripts can be used as they stand or adapted for specific situations. "Provides an imaginative source of scripts covering the most commonly met cases. For the newly qualified therapist it is a useful addition and for the more experienced it is a source of inspiration." - European Journal of Clinical Hypnosis

"Inductions and Deepeners: Styles and Approaches for Effective Hypnosis" by Richard K. Nongard provides both the new and experienced hypnotist with a reference book of actual hypnotic session scripts in a variety of styles, for work with both adults and children. These hypnosis scripts - from creative adaptations of Milton Erickson's Levitation, Dave Elman's Count with Amnesia, and Zarren's Marble induction approaches, to Nongard's own unique "Eyes-Open Backwards Hypnosis" "superconscious" strategy - offer useful demonstrations and detailed explanations for real success. Learn to combine approaches for enhanced trance depth; understand hypnotic language patterns; increase your confidence and abilities; zoom past the Critical Factor into the Subconscious with Rapid Touch inductions; and experience suggestion compliance with even the most fidgety child. Foreword by Michael Johns. HypnosisGurus.com and LearnClinicalHypnosis.com.

Advanced Ericksonian Hypnotherapy Scripts Remind Publishing

This book offers a revolutionary way to tell bedtime stories helping to make bedtime a time of peace, calm and sleep for your child. Based on psychological principles and techniques, these stories will help to guide your child comfortably asleep. They are to be read to your child at bedtime, rather than with or by your child. These bedtime stories are written to be read to 4-7 year old's (they can be read to children as young as two) as they rest in bed with their eyes shut listening along. Each of the stories takes about 10-15 minutes to read. The sleepy bedtime story approach has been taught to many parents and used by professionals working in care homes to help children fall asleep at night. This approach can be used with any story, but this is the first time that stories have been written specifically to optimise the effectiveness of the techniques. If you are after a scientific, calming, relaxing approach to getting your child to sleep, then this is definitely the bedtime stories book for you.
