However, development agencies and governments face difficult questions about how to manage the relationship between NFE and the formal education system. This paper offers strategies to support and expand the provision of quality non-formal basic education without compromising its innovation and

responsiveness to the needs of different groups. The paper first provides an overview of the history of debates, ideological perspectives and practice in NFE, and outlines key areas of relationships between NFE and the education field as a whole. It draws on examples from Mali, Mexico, Tanzania, India, Namibia, Burkina Faso, Trinidad and Tobago, Somaliland, Brazil, South Africa and the Latin American Fey y Alegria (Faith and Joy) movement.

HSPT Practice Questions are the simplest way to prepare for the HSPT. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our HSPT Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our HSPT Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.
