RICE SUTTON

NanoAgroceuticals & NanoPhytoChemicals MDPI

Written specifically for use in Caribbean schools, this course is tailored to the requirements of Integrated Science students and the latest CSEC syllabus by providing course contents in a clear, concise and accessible way. It now features newly added digital resources and increased SBA guidance, to help engage students and provide additional support as they study for their examination.

Strategy Beyond the Hockey Stick Food & Agriculture Org.

The International Year of Fruits and Vegetables 2021 (IYFV), as declared by the UN General Assembly in Resolution A/RES/74/244, aims at raising awareness of, directing policy

attention to, and sharing good practices on the nutritional and health benefits of fruit and vegetable consumption, the contribution of fruit and vegetable consumption to the promotion of diversified, balanced and healthy diets and lifestyles, and reducing loss and waste of fruits and vegetables. This background paper outlines the benefits of fruit and vegetable consumption, but also examines the various aspects of the fruit and vegetable sector from a food systems approach: from sustainable production and trade to loss and waste management. This paper provides an overview of the sector and a framework and a starting point for discussion for the Year, highlighting the interlinkages of stakeholders and key issues to be considered for action during the IYFV.

1001 Inventions That Changed the World HarperCollins UK
Two new titles that provide comprehensive coverage of the syllabus. Units 1 and 2 of Biology for CAPE® Examinations

provide a comprehensive coverage of the CAPE® Biology syllabus. Written by highly experienced, internationally bestselling authors Mary and Geoff Jones and CAPE® Biology teacher and examiner Myda Ramesar, both books are in full colour and written in an accessible style. Learning objectives are presented at the beginning of each chapter, and to assist students preparing for the examination, each chapter is followed by questions in the style they will encounter on their examination papers.

Junior Secondary Agriculture for the Caribbean

International Development Research

This report supports the development of the new Caribbean Development Bank's agricultural policy and strategy by identifying key trends in agriculture in Borrowing Member Countries, as well as opportunities for investment to promote growth and ensure sustainability. It also identifies new value chain opportunities, including the tourism industry, the growing yachting sector, and domestic cassava value chains. Today, countries face major challenges as they strive to improve the competitiveness of their agricultural sector. However, there is great potential for strengthening market linkages and helping farmers, fishers, and agri-food businesses catch up with current technologies. Through the promotion of inclusive and sustainable agricultural development, the bank can contribute to overcoming major socio-economic and environmental challenges in the region, including food and nutrition insecurity and youth unemployment. The study concludes that the bank can play an instrumental role in supporting countries in meeting their Sustainable Development Goal targets - particularly with regard

to socio-economic and environmental challenges - including poverty (SDG 1) food and nutrition insecurity (SDG 2), obesity (SDG 3), youth unemployment (SDG 8), resilient infrastructure (SDG 9), gender inequality (SDG 5), sustainable use of natural resources, and climate change (SDG 13).

The Biology and Behavioral Basis for Smoking-attributable Disease : a Report of the Surgeon General Westport, Conn. : Avi Publishing Company

These Study Guides have been developed exclusively with the Caribbean Examinations Council (CXC(R)) to be used as an additional resource by candidates who are following the Caribbean Secondary Education Certificate (CSEC(R)) programme. They provide candidates with extra support to help them maximise their performance in their examinations.

Junior Secondary Agriculture for the Caribbean VCTA

The history of the world through 1,001 inventions—from prehistoric times to the present day. 1001 Inventions That Changed the World is an enthralling guide to the world's most important scientific and technological advances. Authoritatively written by a team of historians, scientists, and anthropologists, this book tells the stories behind these innovations, presenting a comprehensive history of the world through invention and discovery. From stone tools and fire at the dawn of humankind to today's self-driving cars, inventions have moved society forward at a remarkable pace. This informative volume shows just how much some of the inventions that we take for granted have transformed the world.

For Self-Study and Distance Learning United Nations Educational This concise revision guide offers complete coverage of the CSEC

Integrated Science syllabus. Features includes: checkpoints to test yourself; answers; exam questions; annotated study diagrams; and examiner's tips, to get inside information on scoring high marks.

Biocentrism Springer Nature

This book volume encompasses the recent trends made in the applications of nanoscale tools for diverse constituents of plants and agriculture, particularly in addressing the critical issues related to their safety, efficacy, and efficient and cost-efficient development and production.

Sourcebook of Science Education Research in the Caribbean

Simon and Schuster

Agricultural Science for CSEC(R) Examinations is one of a series of texts written especially for students studying for the CSEC examinations in science subjects. The examination for Agricultural Science can be taken as a Single Award or as a Double Award, and this book covers the material for both.

Activity book 1 CRC Press

This book covers the new EDPM CSEC syllabus to be taught from September 2011. It introduces computing fundamentals, electronic communication and keyboarding techniques before teaching the Microsoft Office (2003 - 2010) skills required by the course. Next, students are shown several aspects of document preparation, complete with sample documents. After covering document management and ethics, it gives SBA tips and exam papers (with answers included on the CD). Exercises and summaries are found at the end of each chapter. The accompanying CD-ROM is packed with material including interactive revision questions, PowerPoint presentations, tutorial

videos, exercise files and a comprehensive glossary.

People, Probabilities, and Big Moves to Beat the Odds Oxford University Press, USA

This book features selected papers presented at the First International Conference on Agriculture Digitalization and Organic Production (ADOP 2021), held in St. Petersburg, Russia, on June 07-09, 2021. The contributions, written by professionals, researchers and students, cover topics in the field of agriculture, biology, robotics, information technology and economics for solving urgent problems in digitalization of organic livestock and crop production. The conference is organized by the St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS) and the Technische Universitat Kaiserslautern. The book will be useful to researchers of interdisciplinary issues of digitalization and robotization of agricultural production, as well as farmers and commercial companies, which introduce new technologies in crop production and animal husbandry. The book also covers a range of issues related to scientific training of graduate students in the areas of "Mechatronics and robotics", "Control in technical systems" and "Technologies, means mechanization and energy equipment in rural, forestry and fisheries".

The International Year of Fruits and Vegetables, 2021, background paper ReadHowYouWant.com

This CAPE Economics Multiple Choice Practice book is an invaluable exam preparation aid for CAPE Economics students. This book provides excellent practice for the multiple choice questions from Paper 1 of the CAPE examination, and has been specially written to help CAPE Economics students improve their

Paper 1 exam score.

Agricultural Science Springer

This book is a printed edition of the Special Issue

"Environmentally Sustainable Livestock Production" that was published in Sustainability

Cxc Past Papers 95-98: Agricultural Science Single and Double Awards (General Professional) Cambridge University Press

Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams. Matching the topics in the syllabus, the student-friendly structure and content enable students to develop their skills and confidence as they approach the examination.

Education for the Twenty-first Century : Issues and Prospects Verso Books

Beat the odds with a bold strategy from McKinsey & Company "Every once in a while, a genuinely fresh approach to business strategy appears" - legendary business professor Richard Rumelt, UCLA McKinsey & Company's newest, most definitive, and most irreverent book on strategy—which thousands of executives are already using—is a must-read for all C-suite executives looking to create winning corporate strategies. Strategy Beyond the Hockey Stick is spearheading an empirical revolution in the field of strategy. Based on an extensive analysis of the key factors that drove the long-term performance of thousands of global companies, the book offers a groundbreaking formula that enables you to objectively assess your strategy's real odds of future success. "This book is fundamental. The principles laid out here, with compelling data, are a great

way around the social pitfalls in strategy development." — Frans Van Houten, CEO, Royal Philips N.V. The authors have discovered that over a 10-year period, just 1 in 12 companies manage to jump from the middle tier of corporate performance—where 60% of companies reside, making very little economic profit—to the top quintile where 90% of global economic profit is made. This movement does not happen by magic—it depends on your company's current position, the trends it faces, and the big moves you make to give it the strongest chance of vaulting over the competition. This is not another strategy framework. Rather, Strategy Beyond the Hockey Stick shows, through empirical analysis and the experiences of dozens of companies that have successfully made multiple big moves, that to dramatically improve performance, you have to overcome incrementalism and corporate inertia. "A different kind of book—I couldn't put it down. Inspiring new insights on the facts of what it takes to move a company's performance, combined with practical advice on how to deal with real-life dynamics in management teams."

—Jane Fraser, CEO, Citigroup Latin America
Nelson Thornes

Artificial insemination is used instead of natural mating for reproduction purposes and its chief priority is that the desirable characteristics of a bull or other male livestock animal can be passed on more quickly and to more progeny than if that animal is mated with females in a natural fashion. This book contains under one cover 16 chapters of concise, up-to-date information on artificial insemination in buffalos, ewes, pigs, swine, sheep, goats, pigs and dogs. Cryopreservation effect on sperm quality and fertility, new method and diagnostic test in semen analysis,

management factors affecting fertility after cervical insemination, factors of non-infectious nature affecting the fertility, fatty acids effects on reproductive performance of ruminants, particularities of bovine artificial insemination, sperm preparation techniques and reproductive endocrinology diseases are described. This book will explain the advantages and disadvantages of using AI, the various methodologies used in different species, and how AI can be used to improve reproductive efficiency in farm animals.

Economics for CSEC® Examinations VCTA

Discover Principles of Business as a real-world subject through thought-provoking case studies and prepare effectively for the CSEC May/June 2019 examinations. -Develop knowledge systematically with each section focusing on a specific aspect of the syllabus, and clear syllabus references throughout. -Revise for the exam with unit summaries, in-chapter challenges, and MCQs. -Increase confidence with exam-type questions at the end of each unit and a full section dedicated to exam preparation and the School Based Assessment. -Ensure all three examined profile dimensions are developed with contextualised structured response questions.

Agricultural Science for CSEC John Wiley & Sons

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.
