MACE Exam Cram

Career Examination Passbooks
Presents different strategies and approaches for members of school communities to consider

when creating safer learning environments. Violence prevention programs work best when they incorporate multiple strategies and address the full range of possible acts of violence within schools. The roles of school administrators, teachers and staff, students, school counselors, psychologists, and social workers, parents/guardians, community, and law enforcement are all discussed. Chapters: prevention; threat assessment; crisis

planning and preparation; during a major crisis; after a crisis; legal considerations; recommendations for the media; legislative issues; and web links with additional info.

Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years.

HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began

using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we

are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of*

Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences. *TCOLE Exam Review for the Texas Commission on Law Enforcement* Macmillan General Reference
The new edition of the guide that civil service job-seekers have trusted for four decades provides clear, easy-to-follow explanations of the required application procedures, plus in-depth descriptions of all the most popular jobs. Full
