Existing books on crisis management deal almost exclusively with physical breakdowns, logistics issues, data losses and environmental and

economic impacts. But it is people who actually make a business run, and *Leading People Through Disasters* is the first book to deal with the all-important human side of recovery. Kathryn McKee and Liz Guthridge show how to ensure that your business continuity plan addresses human as well as business issues and they offer detailed advice on what to do when disaster actually strikes--how to keep people safe, calm, and informed; help managers care for employees; and deal with employees' immediate and ongoing emotional and psychological needs while getting the organization back on its feet. This

comprehensive guide features a wealth of examples, checklists, forms, and other practical tools that will help you take action when you need it most.

Employer's Tax Guide (Circular E) - The Families First Coronavirus Response Act (FFCRA), enacted on March 18, 2020, and amended by the COVID-related Tax Relief Act of 2020,

provides certain employers with tax credits that reimburse them for the cost of providing paid sick and family leave wages to their employees for leave related to COVID-19. Qualified sick and family leave wages and the related credits for qualified sick and family leave wages are only reported on employment tax returns with respect to wages paid for leave taken in quarters beginning after March 31, 2020, and before April 1, 2021, unless extended by future legislation. If you paid qualified sick and family leave wages in 2021 for 2020 leave, you will claim the credit on your 2021 employment tax return. Under the FFCRA, certain employers with fewer

than 500 employees provide paid sick and family leave to employees unable to work or telework. The FFCRA required such employers to provide leave to such employees after March 31, 2020, and before January 1, 2021.

Human Side of Crises

The public spaces and buildings of the United States are home to many thousands of timepieces—bells, time balls, and clock faces—that tower over urban streets, peek out from lobbies, and gleam in store windows. And in the streets and squares beneath them, men, women, and children wear wristwatches of all kinds. Americans have decorated their homes with clocks and included them in their poetry, sermons, stories, and songs. And as political instruments, social tools, and cultural symbols, these personal and public timekeepers have

enjoyed a broad currency in art, life, and culture. In *Marking Modern Times*, Alexis McCrossen relates how the American preoccupation with time led people from across social classes to acquire watches and clocks. While noting the difficulties in regulating and synchronizing so many timepieces, McCrossen expands our understanding of the development of modern time discipline, delving into the ways we have standardized time and describing how timekeepers have served as political, social, and cultural tools in a society that doesn't merely value time but regards access to time as a natural-born right, a privilege of being an American.
