Pavements Facts about Studded Tires The Transportation Experience Policy, Planning, and Deployment This report contains all of the papers presented at a workshop on Continuously Reinforced Concrete Pavements (CRCP) which was held in New Orleans, Louisiana. The information presented at the workshop covered all aspects of CRCP including design, construction, and maintenance procedures. The primary emphasis was concentrated on maintenance procedures.

The proceedings include papers on polymer patching, under sealing, and flexible and rigid overlays.

 Pack: Book and CD Internationally, full-scale accelerated pavement testing, either on test roads or linear/circular test tracks, has proven to be a valuable tool that fills the gap between models and laboratory tests and long-

term experiments on in-service pavements. Accelerated pavement testing is used to improve understanding of pavement behavior, *Asphalt Paving Technology 2011* DEStech Publications, Inc  
 This synthesis will be of interest to administrators, including contract and specifications administrators; research, construction, materials, specification, and design engineers; agency project managers and staff; and highway construction contractors. It describes

the state of the practice with respect to the development and present status of performance-related specifications (PRS) for highway materials and construction. This report of the Transportation Research Board summarizes the historical events that have prompted U.S. interest in PRS development and describes the underlying concepts. In addition, it describes current practice with regard to PRS implementation and refers to the principal PRS

literature with emphasis on performance and cost models. It emphasizes the utility of PRS in providing objective/ rational measures that can be used for special contract conditions, such as incentive or disincentive adjustments.

Transportation Research Board

This volume, in both print and electronic (CD-ROM) form, comprises original and never-before published research on asphalt paving, including sustainable mix formulations (with recycled asphalt and shingle content), binder performance, data on cracking and wear, as well as novel testing protocols emerging from the "Guide for the Mechanistic and Empirical Design of New and Rehabilitated Pavement" (MEPDG). The

technical information in the book was presented at the 2011 annual meeting of the Association for Asphalt Paving Technologists. The CD-ROM displays figures and illustrations in articles in full color along with a title screen and main menu screen. Each user can link to all papers from the Table of Contents and Author Index and also link to papers and front matter by using the global bookmarks which allow navigation of the entire CD-ROM from every article. Search features on

the CD-ROM can be by full text including all key words, article title, author name, and session title. The CD-ROM has Autorun feature for Windows 2000 with Service Pack 4 or higher products along with the program for Adobe Acrobat Reader with Search 9.0. One year of technical support is included with your purchase of this product. The Earth Mover CRC Press  
This guide will help readers understand concrete overlays and develop confidence in

their application. The guide provides the key elements of the six major types of concrete overlays along with specifics on materials, typical sections, and important construction elements. Concrete Highways and Public Improvements  
Phillip W Koontz  
Transportation Research Record contains the following papers: Potential for private-sector road maintenance in developing countries : case studies (Parkman, CC, Madelin, KB and Robinson, R); Improving

road quality with focused daily road maintenance (Brown, M and Provencher, Y); Service life of durable pavement markings (Migletz, J, Graham, JL, Harwood, DW and Bauer, KM); Cost-benefit highway pavement maintenance (Najafi, FT and Paredes, V); Life-cycle cost comparison of asphalt and concrete pavements on low-volume roads : case study comparisons (Embacher, RA and Snyder, MB); To seal or not to seal? A field experiment to resolve an

age-old dilemma (Hawkins, BK, Ioannides, AM and Minkarah, IA); Potential of using stone matrix asphalt for thin overlays (Cooley, LA and Brown ER); Construction and performance of an ultrathin bonded hot-mix asphalt wearing course (Hanson, DI); Maintenance of concrete bridges (Sprinkel, M); Thin polysulfide epoxy bridge deck overlays (Stenko, MS and Chawalwala, AJ); Pilot installation of a bridge scour monitoring site (Weissman, J, Chun, HT and Haas, C); Highway

bridge inspection : state - of- the- practice survey (Rolander, DD, Phares, BM, Graybeal, BA and Moore, ME); Reliability and accuracy of routine inspection of highway bridges (Phares, BM, Graybeal, BA, Rolander, DD and Moore, ME); Reliability and accuracy of in-depth inspection of highway bridges (Graybeal, BA, Rolander, DD, Phares, BM and Moore, ME); Field test of new procedure for removing lead-based paint from bridges (Bushman, WH and

Jackson, DR).

*Wet Pavements Crash Study of Longitudinal and Transverse Tined PCC Pavements*

The purpose of this synthesis is to bring together materials and information on the design and maintenance of low volume roads. A literature search has been obtained from HRIS, NTIS and the Engineering Index. Over 1,000 questionnaires were then sent to cities, counties and consultants in the northern tier of states and the Canadian provinces. Interviews

were also held with representatives of Minneapolis-St. Paul, Duluth, Hennepin and St. Louis Counties regarding their low volume road design and rehabilitation procedures.

The Truth Behind My Trident

Former Navy SEAL Phillip Koontz provides an authentic perspective on his journey in the Navy Special Warfare Command in *The Truth Behind My Trident: Overcoming Life and Business Obstacles the Navy SEAL Way*. Koontz

tells the true stories of his journey leading up to, during, and after his time with the SEALs. He demonstrates how the lessons learned through those trials and tribulations can arm you with the tools to overcome the personal and professional obstacles in your life.
