The Japanization of Modernity MacMillan

The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

An epic historical consideration of the Mongol conquest of Western Asia and the spread of Islam during the years of non-Muslim rule The Mongol conquest of the Islamic world began in the early thirteenth century when Genghis Khan and his warriors overran Central Asia and devastated much

of Iran. Distinguished historian Peter Jackson offers a fresh and fascinating consideration of the years of infidel Mongol rule in Western Asia, drawing from an impressive array of primary sources as well as modern studies to demonstrate how Islam not only survived the savagery of the conquest, but spread throughout the empire. This unmatched study goes beyond the well-documented Mongol campaigns of massacre and devastation to explore different aspects of an immense imperial event that encompassed what is now Iran, Iraq, Turkey, and Afghanistan, as well as Central Asia and parts of eastern Europe. It examines in depth the cultural consequences for the incorporated Islamic lands, the Muslim experience of Mongol sovereignty, and the conquerors' eventual conversion to Islam.
