Saving Your Marriage

Before It Starts John

Wiley & Sons

Based on Stanford
University psychologist

Kelly McGonigal's

wildly popular course

"The Science of

Willpower," The

Willpower Instinct is

the first book to explain the science of self-control and how it can be harnessed to improve our health, happiness, and productivity. Informed by the latest research and combining cutting-edge insights from psychology, economics, neuroscience, and medicine, *The Willpower Instinct* explains exactly what willpower is, how it works, and why it matters. For example, readers will learn:

- Willpower is a mind-body response, not a virtue. It is a biological function that can be improved through mindfulness, exercise, nutrition, and sleep.
- Willpower is not an unlimited resource. Too much self-control can actually be bad for your health.

Temptation and stress hijack the brain's systems of self-control, but the brain can be trained for greater willpower

- Guilt and shame over your setbacks lead to giving in again, but self-forgiveness and self-compassion boost self-control.
- Giving up control is sometimes the only way to gain self-control.
- Willpower failures are contagious—you can catch the desire to overspend or overeat from your friends—but you can also catch self-control from the right role models. In the groundbreaking tradition of *Getting Things Done*, *The Willpower Instinct* combines life-changing prescriptive advice and complementary exercises to help readers with goals

ranging from losing weight to more patient parenting, less procrastination, better health, and greater productivity at work.

Cheating Lessons is a guide to tackling academic dishonesty at its roots. James Lang analyzes the features of course design and classroom practice that create cheating opportunities, and empowers teachers to build more effective learning environments. Instructors who curb academic dishonesty become better educators in other ways as well.

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California.

Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years.

The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

The Times Index

Harper Collins
A champion manager of people, Jack Welch shares the hard-earned wisdom of a storied career in what will become the ultimate business bible With Winning, Jack Welch delivers a wide-ranging, in-depth, no-holds-barred management guidebook about the tough strategic, organizational, and personal challenges that face people at every stage of their careers. Loaded with candid personal anecdotes, hard-hitting advice, and invaluable dos and don'ts, Jack explains his theory of business, by laying out the four most important principles that form the foundation of his success. Chapters include: How to Get

Promoted, How to Think about Strategy, How to Write a Budget that Works, How to Work for a Jerk, How Find Work-Life Balance and How Start Something New. Enlivened by quotes from business leaders that Welch interviewed especially for the book, it's a tour de force that reflects Welch's mastery of execution, excellence and leadership.

What would happen if you made your business decisions by the book? By the Bible that is. This updated version of the best-selling Business by the Book offers radical principles of business management that go beyond the Ten Commandments and other biblical maxims.

Business by the Book is a step-by-step presentation of how businesses should be run according to the Creator of all management rules: God. Larry Burkett, founder and president of Christian Financial Concepts, provides business principles from his own experience as well as what God's Word says on topics such as:

- Hiring and Firing
- Decisions Pay Increases and Promotions
- Management Selection
- Employee Pay
- Decisions Borrowing and/or Lending
- Decisions Forming Corporations and Partnerships
- Business Tithing Retirement

Whether you are the owner of a business, a corporate executive, or a manager, this best-

selling classic is for you.

The Sense of an Ending
Harvard University Press

“Amy Webb found her true love after a search that's both charmingly romantic and relentlessly data-driven. Anyone who uses online dating sites must read her funny, fascinating book.”—Gretchen Rubin, #1 New York Times bestselling author of The Happiness Project After yet another disastrous date, Amy Webb was preparing to cancel her JDate membership when epiphany struck: her standards weren't too high, she just wasn't approaching the process the right way.

Using her gift for data strategy, she found which keywords were digital-man magnets, analyzed photos, and then adjusted her (female) profile to make the most of that intel. Then began the deluge—dozens of men who actually met her own stringent requirements wanted to meet her. Among them: her future husband, now the father of her child.

Teaching at Its Best
Routledge

According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a

pure space, isolated and protected from the rest of life.

**Act Like a Lady,
Think Like a Man LP**

Cambridge University Press

Ludwig Wittgenstein famously said, "Ethics is aesthetics." It is unclear what such a claim might mean and whether it is true. This book explores contentious issues arising at the interface of ethics and aesthetics. The contributions reflect on the status of aesthetic ethical judgments, the relation of aesthetic beauty and ethical goodness and art and character development. The book further considers the potential role art could play in ethical analysis and in the classroom and explores in what respects aesthetics

and ethics might be intertwined and even mutually supportive.

that follows a middle-

aged man as he

contends with a past

he never much thought

about—until his closest

childhood friends

return with a

vengeance: one of

them from the grave,

another maddeningly

present. A novel so

compelling that it begs

to be read in a single

setting, The Sense of

an Ending has the

psychological and

emotional depth and

sophistication of Henry

James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

The National System of Political Economy

Harvard University Press

From the world's most renowned security technologist, Bruce Schneier, this 20th Anniversary Edition is the most definitive reference on

cryptography ever published and is the seminal work on cryptography. Cryptographic techniques have applications far beyond the obvious uses of encoding and decoding information. For developers who need to know about capabilities, such as digital signatures, that depend on cryptographic techniques, there's no better overview than *Applied Cryptography*, the definitive book on the subject. Bruce Schneier covers general classes of cryptographic protocols and then specific techniques, detailing the inner workings of real-world cryptographic algorithms including the Data Encryption Standard and RSA

public-key cryptosystems. The book includes source-code listings and extensive advice on the practical aspects of cryptography implementation, such as the importance of generating truly random numbers and of keeping keys secure. ". . .the best introduction to cryptography I've ever seen. . . .The book the National Security Agency wanted never to be published. . . ." - Wired Magazine ". . .monumental . . . fascinating . . . comprehensive . . . the definitive work on cryptography for computer programmers . . ." -Dr. Dobb's Journal ". . .easily ranks as one of the most authoritative in its field." -PC Magazine The book

details how programmers and electronic communications professionals can use cryptography-the technique of enciphering and deciphering messages-to maintain the privacy of computer data. It describes dozens of cryptography algorithms, gives practical advice on how to implement them into cryptographic software, and shows how they can be used to solve security problems. The book shows programmers who design computer applications, networks, and storage systems how they can build security into their software and systems. With a new Introduction by the author, this premium edition will be a

keepsake for all those committed to computer and cyber security.

Poems of Healing W.

W. Norton & Company

There's a revolution brewing across the nation--a movement that's changing lives and revealing little known paths to passion and prosperity. It's about building a great living around what you love to do most. Once you've been touched by it, you'll never be the same. Rally others to your cause, and convince them you're not nuts
Join the movement now...and take back your livelihood and life!

The Willpower Instinct

John Wiley & Sons

Celebrating its 30th anniversary in 2024, internationally bestselling author and

literary icon Julia Alvarez's *In the Time of the Butterflies* is "beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo." (Concepción de León, *New York Times*) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth

sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of *Las Mariposas*—the *Butterflies*. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred *Butterflies* live again in this novel of courage and love, and the human costs of political oppression. "Alvarez helped blaze the trail for Latina

authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas."—Francisco Cantú, *The New York Times Book Review* "This Julia Alvarez classic is a must-read for anyone of Latinx descent." —Popsugar.com "A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion." —People "Shimmering . . . Valuable and necessary." —Los Angeles Times "A magnificent treasure for all cultures and all time." —St. Petersburg Times "Alvarez does a

remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed."—Cosmopolitan.com
Winning (Enhanced Edition) UNESCO Publishing
 OVER ONE MILLION COPIES SOLD! With this updated edition of their award-winning book, Drs. Les and Leslie Parrott help you launch lifelong love like never before. after) it starts. *Managing Business Ethics* Harper Collins
Owning a small business can be a fulfilling and financially rewarding experience, but to be successful, you must know what to do before starting a business; what to do while the business is up and running; and, most importantly, what to do when the business runs into trouble. With a combined fifty years of small business experience between them, authors Barbara Weltman and Jerry Silberman know what it takes to make it in this competitive environment, and in *Small Business Survival Book*, they show you how. In a clear and concise voice, Weltman and Silberman reveal twelve surefire ways to

help your small business survive and thrive in today's market. With this book as your guide, you'll discover how to: *

- Delegate effectively *
- Monitor cash flow *
- Extend credit and stay on top of collections *
- Build and maintain credit and restructure your debt *
- Meet your tax obligations *
- Grow your business with successful marketing strategies *
- Use legal protections *
- Plan for catastrophe and disaster recovery

Whether you're considering starting a new business or looking to improve your current venture, *Small Business Survival Book* has what you need to succeed.

The Knowledge Gap

Dell

For thirty years, Peter Singer's *Practical*

Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of

embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style

and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.
