### OCR A Level Biology Student Philip Allan

Exam board: OCR Level: A-level Subject: Algorithms and programming First teaching: September 2015 First exams: Summer 2017 Strengthen your students' understanding and upgrade their confidence and exam skills with our OCR Computer Science workbooks, full of self-contained exercises to consolidate knowledge and exam practice questions to improve performance. Written by an experienced Computer Science author, these full colour workbooks provide stimulus materials on all AS and A-level topics, followed by sets of questions designed to develop and test skills in the unit. - Thoroughly prepares stud.

OCR A Level Year 2 Biology A Student Guide: Module 5 Hachette UK

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teacher Nora Henry, this Student Guide for practical Chemistry: - Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications. - Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book. - Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions. - Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.

OCR GCSE Computer Science, Second Edition Hodder Education

Written by experts and in partnership with OCR, the brand-new OCR Cambridge Nationals in ICT Student's Book provides invaluable guidance for your teaching of the OCR Cambridge Nationals in ICT Level 1/2. This textbook covers the mandatory Units 1 and 2 in detail, offering your students the knowledge and practice they require. Unit 1 - Understanding Computer Systems - Coverage of use of applications and systems - Case studies of how they are used for different purposes - Exam style questions and guidance Unit 2 - Using ICT to Create Business Solutions - Coverage of the principles of use of relevant software to meet specified business needs - Illustrations of best practice - Activities and guidance to help students in producing their own examples

OCR A Level PE Hodder Education

Boost confidence with our all-in-one textbook for OCR A Level Physical Education. This updated and accessible textbook combines Year 1 and Year 2 content with brand new assessment preparation to provide comprehensive support for both the academic and practical elements of the course. This book: - Develops conceptual understanding with full coverage of all topics on the OCR A Level specification together in one book - Includes updates to 'end of chapter practice' questions and assessment preparation - Contains summaries, diagrams and key questions to direct thinking and aid revision - Stretches, challenges and encourages independent thinking and a deeper understanding through extension questions, stimulus material and suggestions for further reading - Features definitions of key terms to aid and consolidate understanding of technical vocabulary and concepts - Builds sound knowledge and analysis, evaluation and application skills through activities This Student Book is endorsed by OCR - This title fully supports the specification - It has passed OCR's rigorous quality assurance programme - It is written by curriculum experts

Includes AS Level Hodder Education

The OCR Chemistry for AS Book and Student's website have been developed by two highly experienced authors to support the revised OCR specifications. The Student's website (powered by Dynamic Learning), provides students with interactive pages enhanced with additional resources. Tailored precisely to the revised OCR specifications, the Student's Book includes both quick Test yourself questions throughout each of the 19 topics and end of topic exam-style, Review questions. Activities involving data analysis and contemporary contexts are included throughout to help teachers and students address the new How Science Works components. The website has a full copy of the book with icons linking it to: - Learning outcomes showing a complete list of the requirements in the specification to help students see where learning objectives and skills are covered in the book. - Data tables - Practical guidance on, for example, risk assessments, errors ad uncertainty, titrations and the preparation of organic compounds - Tutorials that work through selected problems and explain the more difficult concepts using a voiceover and animated diagrams, graphs and worked calculations - Extension questions to stretch the most able, covering some ideas in greater depth - Answers to all Test yourself questions and questions in the Activities in the Student's Book - Useful websites linked to each section

**OCR Psychology for A Level** Philip Allan

This book helps students develop their skills, knowledge and understanding of science, scientific procedures and commercial applications of science. It covers the OCR Level 2 Nationals in Science Units Best Practice in Science, Materials Science, Forensic Science, Food Science and The Science of the Universe and Humanity providing all the background information needed. A wide range of activities are suggested which will allow students to build up their Portfolios of Evidence.

**OCR Design and Technology for AS/A Level** Hodder Education

Inspire, motivate and give confidence to your students with OCR PE for A Level Book 2. This reliable and accessible textbook will offer your students comprehensive support for both the academic and practical elements of the course. We are working in collaboration with OCR to produce the following print resources that support the teaching and learning of the new A Level Physical Education specification - Key questions to direct thinking and help students focus on the key points - Diagrams to aid understanding - Summaries to aid revision and help students access the main points - Extension questions, stimulus material and suggestions for further reading to stretch, challenge and encourage independent thinking and a deeper understanding - Definition of key terms - again to aid and consolidate understanding of technical vocabulary and concepts - Activities to build conceptual understanding and sound knowledge and understanding, analysis, evaluation and application skills

**OCR Cambridge Nationals in ICT** Hodder Education  
Exam Board: OCR Level: A-level Subject: Biology First Teaching: September 2015 First Exam: Summer 2017 Reinforce students' understanding throughout their course with clear topic summaries and sample questions and answers to help your students target higher grades. Written by experienced examiner Richard Fosbery, our Student Guides are divided into two key sections, content guidance and sample questions and answers. Content guidance will: - Develop students' understanding of key concepts and terminology; this guide covers module 5: communication, homeostasis and energy. - Consolidate students' knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build students' understanding of the different question types, so they can approach questions from module 5 with confidence. - Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.

**OCR A Level Biology Student** Hodder Education

Encourage students to learn independently and build on their knowledge with this textbook that leads students seamlessly from basic biological concepts to more complicated theories. - Develop experimental, analytical and evaluation skills with activities that introduce the practicals required by OCR and other experimental investigations in Biology - Provide assessment guidance with synoptic questions and multiple choice questions throughout the book, and revision tips and skills all in one chapter - Strengthen understanding of key concepts with contemporary and engaging examples, illustrated with accessible diagrams and images - Give students the opportunity to apply their knowledge and understanding of all aspects of practical work with Test Yourself Questions and Exam Practice Questions - Offer detailed guidance and examples of method with a dedicated 'Maths in Biology' chapter and mathematical support throughout - Develop understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries

**OCR Chemistry for AS** Hodder Education

Strengthen your students' understanding and upgrade their confidence and exam skills with our OCR Computer Science workbooks, full of self-contained exercises to consolidate knowledge and exam practice questions to improve performance. Written by an experienced Computer Science author, these full colour workbooks provide stimulus materials on all AS and A-level topics, followed by sets of questions designed to develop and test skills in the unit. - Thoroughly prepares students for their examinations as they work through numerous practice questions that cover every question type in the specification. - Helps students identify their revision needs and see how to target the top grades using online answers for each question. - Encourages ongoing revision throughout the course as students progressively develop their skills in class and at home. - Packed full with consolidation and exam practice questions, these workbooks can save valuable preparation time and expense, with self-contained exercises that don't need photocopying and provide instant lesson and homework solutions for specialist and non-specialist teachers. - Ensures that students feel confident tackling their exams as they know what to expect in each section.
