Known for its knock-out strikes, fluid footwork & bladed weaponry, Okinawan te is a survivor that has endured due to its ability to adapt to social changes. In 1609, in order to suppress Okinawa's developing military might & vast trading links, the Japanese Satsuma clan launched a massive invasion & subjugated the island kingdom. Until then, te had been a bushido battlefield system, with organised castle & naval warfare.

However, under Satsuma's rule, the Okinawan bushi, could no longer bear arms in public or have standing armies, so te was transformed into a personal fighting system & recreational activity. Within karate, Okinawan dance & music, the hidden essence of te still provides the framework. It fills Okinawan cultural life & keeps its subtle social machinery revolving. In this detailed work the foundation stones of Okinawan te are laid out through the explanations of historic technical photographs left by the masters for future generations; their forethought has enabled us to walk in their footsteps.

Grounded in a comprehensive overview of the philosophical and spiritual foundations that underlie karate, *The Art of Killing* emphasizes its original purpose: to kill an attacker swiftly and brutally. Prior to 1900, karate-dō was exclusively an art of unarmed self-defense. Its practice was designed for life-or-death situations--effectively, an art of killing. Here, authors Leonard Pellman and the late Shimabukuru Masayuki restore karate to its original intent. They move karate away from its popular modern-day sporting applications back to its deadly origins---and to the restraining philosophy of peace, self-sacrifice, compassion, and service to others that necessarily accompanied it. With chapters on kokoro (heart, mind, and spirit), ki (spirit and energy), and the seven major precepts of bushidō, *The Art of Killing* shows readers that the lethal art of karate is more than a method of bringing an enemy down--it's a philosophical and spiritual system grounded in essential lessons to guard against abuses of power. This book does not contain detailed instruction in killing methods, but it does showcase the deadly power of karate--and explain why purity of intentions matters, and how compassion and respect are the essence of karate training. Readers will learn:

- The purpose and meaning of karate-dō
- The origins and major precepts of bushidō
- Training methods, preparation, and etiquette
- Fundamentals, spiritual power, training patterns, and analysis and application of kata
- About the body as a weapon

This work clearly defines and catalogues the fifty historical hand-held weapons that were used in Okinawa Prefecture and the Ryukyu Islands from the dawn of its history. It shows the stages of development and introduction of these weapons to the islands and how they affected the culture through the ages. The 'standard five' popular weapons of the modern era (bo, sai, tonfa, nunchaku & kama) are described in detail with many scale drawings, but surprisingly, it clearly shows the influence of bladed weapons, such as the curved sword. Firearms also made a huge contribution to Ryukyuan weapon development, so these are also introduced in their historical context. Most surprising is the contextual detail of the historic eras, such as the effects of the Satsuma Invasion of the Ryukyu Islands in 1609 & the dissolution of the monarchy in 1879. Contrary to popular myth, between these years Okinawans did not adopt farmers tools for self protection, for quite a different history is revealed herein.
