The Self Motivation Handbook Jones &  
Bartlett Publishers

From Willys and Overland Jeeps of World War II, to the CJ models of '70s and early '80s, to the slightly more civilized Wrangler, the Jeep has become an American icon. Jeep has maintained its popularity by updating and modernizing the traditional two-door, removable-top Jeep without watering down its off-road capability. Jeep owners love to personalize their vehicles and modify them for better performance on and off road. In High-Performance Jeep Wrangler

TJ Builder's Guide, author Christian Lee explains how to upgrade your Wrangler's suspension, axles, differentials, engine, transfer case, wheels and tires, skid plates, and more, using aftermarket and salvage-yard upgrades. This book includes over 300 full-color images and drawings to show beginners and experienced Jeepers how to do things right. Lee even has special sections for basic driving and recovery technique, and a few built-up Jeeps to give you ideas for your own Wrangler.

800-CEO-Read Sales Book Of The Year for 2015 | Forbes 15 Best Business Books of 2015 | "The chapters, (46 of them in

this 256 page book) are quick and concise, and it is easy to pick it up anywhere and find a nugget of easily actionable advice, but the kicker is that the actions he recommends are also quick and concise, so that we can accomplish them in the few bursts of spare time we all have left.” – 800CEORead.com “Follow Goldfayn's brilliant advice and you will have an endless supply of customer testimonials, spontaneous referrals, and new business, and it will compel you to buy a beautiful fountain pen and stop obsessing over social media. His advice simply works.” – Inc.com Grow your business by 15% with these proven daily growth actions Do you have trouble finding time during your hectic day to grow your business? Is your company

stalled because you are too busy reacting to customer problems? Do you lack the funds to jumpstart an effective marketing plan? The Revenue Growth Habit gives business owners, leaders, and all customer facing staff a hands-on resource for increasing revenue that is fast, easy, and requires no financial investment. Alex Goldfayn, CEO of the Evangelist Marketing Institute, shows how to grow your organization by 15% or more in 15 minutes or less per day—without spending a penny of your money. Forget about relying on social media. Posting on Twitter, Facebook, and LinkedIn doesn't grow revenue, especially for business-to-business companies. The Revenue Growth Habit shows how to request and collect testimonials and how to communicate

these testimonials to grow your business. You will discover how to write powerful case studies, ask for (and get!) referrals, grow your lists, and send a revenue-growing newsletter. Goldfayn also includes information for teaching your customer service people how to inform your current clients about what else they can buy from you. This proven approach revolves around letting your customers tell your story. There is nothing you can say about your products and services that is more effective than what your paying customers say. How does it work? Each day, take one quick, proactive communication action that tells someone about how they'll be improved after buying from you. Choose from the 22 actions Goldfayn details in *The Revenue Growth Habit*. Each

technique is fast, simple, and free. It only requires your personal effort to communicate the value of your product or service to someone who can buy from you. Personal communication—the key to the 22 action steps—will make your company stand head-and-shoulders above the competition.

What is Gotcha Capitalism? Coughing up \$4 fees for ATM transactions. Iron-clad cell phone contracts you can't get out of with a crowbar. Paying big bucks for insurance you don't need on a rental car or forking over \$20 a day for supposedly "free" wireless internet. Every day we use banks, cell phones, and credit cards. Every day we book hotels and airline tickets. And every day we get ripped off. How? Here are just a few examples of

how big business can get you: • You didn't fill up the rental car with gas? Gotcha! Gas costs \$7 a gallon here. • Your bank balance fell to \$999.99 for one day? Gotcha! That'll be \$12. • You miss one payment on that 18-month same-as-cash loan? Gotcha! That'll be \$512 extra. • You're one day late on that electric bill? Gotcha! All your credit cards now have a 29.99% interest rate. But not for much longer. In Gotcha Capitalism, MSNBC.com's "Red Tape Chronicles" columnist Bob Sullivan exposes the ways we're all cheated by big business, and teaches us how to get our money back-proven strategies that can help you save more than \$1,000 a year. (the Easy Way). McGraw Hill Professional  
Seventeen year old, Tianna Harper, never expected to leave Georgia. But after her mother lands a new job overseas, she is forced to leave her small rural town and move up North with her crazy, no-holds-barred, aunt in Brooklyn. Fast paced. Full of life. New

York is nothing like back home. And with the help of her cousin, Lavina, Tianna learns to adjust to the new way of life in the busy city. However, everything as she knows it changes, when she meets Damien, a smooth talking, baby faced brother from around the way, who manages to turn her life completely upside down. A coming of age story, compellingly painted with the rich essence of 1970's through early 90's New York, Brown Silk shares the gripping tale of a young girl's journey to womanhood, as she discovers the poignant beauty of love, pain, and self-acceptance.

Acura/Honda Automotive Transmission Troubleshooter and Reference A

reference and pictorial guide for automotive transmissions (Including all major Acura and Honda Model

Transmissions) By MANDY CONCEPCION

The beginnings of this book came about after the development of the "Transmission Troubleshooter" software package, which eventually became part of the "TransDoctor" PC based diagnostic equipment. Both of these related

products, although meant for the professional side of the industry, left behind a huge arsenal of data that matched perfectly with the needs of the average consumer, DIY and mechanic aficionado. We assumed that his information, so far as the general public was concerned, did not necessitated to be part of a broad software package and therefore could be offered at a lower cost to the people. This book covers automotive Transmission diagnostics and electronic repair for domestic vehicles. The information was amassed during years of field work and research in the automotive industry. For this reason, the information is presented in a direct, hands on approach and skips the basic operation of automotive transmissions. If you're trying to discern

the basics of automotive automatic transmissions, then there are other works that could help you do that. This book is meant to be used during real-life repair situations and it exposes you to exactly what you need to know to solve or get an in-depth knowledge of a specific problem. Various concepts are covered such as Transmission DTCs or trouble codes, Transmission ID, shift solenoid locations, component locations, electrical and wiring diagrams and finally measurement values for voltage and resistance. We hope you enjoy reading this work to gain knowledge and solve specific problem. So, without further ado, enjoy... Beth Ryder knows she's different. In a tiny rural town, being an orphaned and perpetually single amateur photographer crippled by panic disorder is pretty much guaranteed to make you stick out like a sore thumb. But Beth doesn't understand just how different she really is. One day, strange things start cropping up in her photos. Things that don't look human. Impossible things. Monstrosities. Beth thinks her hateful sister-in-law, Justine, has tampered with her pictures to play a cruel joke, but rather than admitting or denying it,

Justine up and vanishes, leaving the family in disarray. Beth's search for Justine plunges her into a world she never knew existed, one filled with ancient and terrifying creatures. Both enemies and allies await her there—a disturbingly sexy boss, a sentient wolf with diamond fur, body-snatching dinosaur-birds. Separating the allies from the enemies is no easy chore, but in this strange new world, allies are a necessity. A plot is afoot, and Beth—whose abilities no one seems able to explain—may well hold the key to solving it. Nolander is the first novel in the fantasy series Emanations. The second novel, Solatium, and a short story, "Theriac," are also available. The Emanations Series Of all the beings that have lived on Earth, what if just a few

had the power to make new realities, according to their desires? What would they create? The Second Emanation: a shadow world where ancient creatures persist, where humanity's dominance is far less certain, where wonder competes with horror. A world like an autumn forest, its realities as multiple and layered as fallen leaves. The world that gives us our gods. In Becca Mills's Emanations series, this strange and magical world crosses paths with a seemingly ordinary young woman from the American Midwest. It'll never be the same again. Reviews "This is among the best of the urban fantasy genre, and it is a wonder why a major publisher has yet to pick it up. Mills has given us such a dynamic world with vibrant characters and multiple plot lines that really bring it

all to life." - Twisting the Lens "I simply loved Nolander. I'm going to put it out there and say that this is one of the best debut fantasy books I've read this year! It was that fantastic." - scifinersdare.us "Nolander was a highly entertaining read. Each time I thought I had a handle on what was going on and what was going to come next the plot would take a turn to something completely unexpected. Becca Mills has created a very vibrant world full of unique creatures and happenings where just about anything you can imagine is possible." - The Dragon's Inkpot Series keywords: fantasy, urban fantasy, contemporary fantasy, fantasy series, speculative fiction, hard fantasy, dark fantasy, paranormal, female protagonist, female main character, science fantasy,
