WERNER NICHOLSON

Corporate Finance Law OUP Oxford

The law of commercial remedies raises a number of important doctrinal, theoretical and practical controversies which deserve sustained and rigorous examination. This volume explores such controversies and suggests solutions, which is essential to ensure that the law is defensible, clear and just. With contributions from twenty-three leading academic and practitioner experts, this book addresses significant issues in the law which, taken together, range across the entire remedial jurisdiction as it applies to commercial disputes. The book primarily focuses on the resolution of controversies in the English law of commercial remedies, but recent developments elsewhere are also considered, especially in other common law jurisdictions. The result provides remarkably comprehensive coverage of the field which will be of relevance to academics, students, judges and practitioners.

LPC Guide Legal Practice Course Guide

This innovative textbook examines commercial law and the social and political context in which it develops. Topical examples, such as funding for terrorism, demonstrate this fast-moving field's relevance to today's concerns. This wide-ranging subject is set within a clear structure, with part and chapter introductions setting out the student's course of study. Recommendations for further reading at the end of every chapter point the reader to important sources for advanced study and revision questions encourage understanding. The extensive coverage and detailed commentary has been extensively market tested to ensure that the contents are aligned with the needs of university courses in commercial law.

Law of Electronic Commercial Transactions Oxford University Press

This book is the first to provide an extensive analysis of the range of defences to payment under letters of credit and demand guarantees. It considers the extent to which different defences undermine the abstraction of these instruments. This is a fundamental issue, since letters of credit and demand guarantees are designed to be abstract, or autonomous, from the underlying contract that called for their use. The purpose of that abstraction is to provide certainty of payment, but the various defences diminish that certainty. The book examines the spectrum of defences that are frequently litigated and debated in international practice: fraud in the documents, nullity, fraud affecting deferred payment letters of credit, fraud as no honest belief, unconscionable conduct and illegality. Vivaly, the book provides analysis of the relevant judicial decisions and offers clear practical guidance on which defences are most suitable for each instrument. As the instruments are heavily used in international trade, this work is particularly suited to financial and commercial law practitioners who draft agreements, as well as those who advise on disputes concerning these instruments. Accessible and engaging, the book is also relevant for academics and students.

Text, Cases, and Materials African Books Collective

This book addresses issues concerning the shifting contemporary meaning of legal certainty. The book focuses on exploring the emerging tensions that exist between the demand for legal certainty and the challenges of regulating complex, late modern societies. The book is divided into two parts: the first part focusing on debates around legal certainty at the national level, with a primary emphasis on criminal law; and the second part focusing on debates at the transnational level, with a primary emphasis on the regulation of transnational commercial transactions. In the context of legal modernity, the principle of legal certainty—the idea that the law must be sufficiently clear to provide those subject to legal norms with the means to regulate their own conduct and to protect against the arbitrary use of public power—has operated as a foundational rule of law value. Even though it has not always been fully realized, legal certainty has functioned as a core value and aspiration that

has structured normative debates throughout political modernity, both at a national and international level. In recent decades, however, legal certainty has come under increasing pressure from a number of competing demands that are made of contemporary law, in particular the demand that the law be more flexible and responsive to a social environment characterized by rapid social and technological change. The expectation that the law operates in new transnational contexts and regulates every widening sphere of social life has created a new degree of uncertainty, and this change raises difficult questions regarding both the possibility and desirability of legal certainty. This book compiles, in one edited volume, research from a range of substantive areas of civil and criminal law that shares a common interest in understanding the multi-layered challenges of defining legal certainty in a late modern society. The book will be of interest both to lawyers interested in understanding the transformation of core rule of law values in the context of contemporary social change and to political scientists and social theorists.

Modernisation, National Identity and Legal Instrumentalism (Vol. I: Private Law) Thomson Sweet & Maxwell

This practical and accessible guide provides a concise account of the major aspects of commercial law encountered by law students and trainee solicitors in practice.

Text, Cases, and Materials OUP Oxford

Introduction to Business Law is a student-centred text ideal for those new to the study of law. Offering lively and readable coverage of all main topics, the law is firmly rooted in the business context. This text adopts a fresh approach and is packed with diagrams and examples of how the law impacts on the business world.

The Law of Ship Mortgages Oxford University Press

The third edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. It has been fully updated to reflect developments in the law and the markets. One of the book's distinctive features is its equal coverage of both the equity and debt sides of corporate finance law, and it seeks, where possible, to compare and contrast the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter provides a critical analysis of the present law to enable the reader to understand the difficulties, risks and tensions in this area, and the attempts by the legislature, regulators and the courts, as well as the parties involved, to deal with them. The book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

Principles of Corporate Insolvency Law Pearson UK

Sealy and Hooley's *Commercial Law: Text, Cases, and Materials* provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Five renowned experts in the field continue the legacy of Richard Hooley and Len Sealy, capturing the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

Transnational Commercial Law: International Instruments and Commentary Springer

In 2014 the Commercial Bar Association celebrated its 25th anniversary. When Lord Mackay's Green papers, and especially that on 'The Work and Organisation of the Legal Profession', were published, the survival of the Bar was brought into question and this was the catalyst for the formation of COMBAR. Since then, it has gone from strength to strength. This volume is a collection of contributions from a number of different people who have been involved with COMBAR over the years. It includes text from senior judiciary, past chairs, honorary overseas members, VIP annual lectures and lectures from guest speakers, amusing anecdotes and much more.

Private and Criminal Law Perspectives Bloomsbury Publishing

This book compares the legislative frameworks in the EU, US, China and International Organisations applicable to e-commerce and highlights the main legal obstacles to the development of electronic contracts and signatures, as well as Internet jurisdiction and online dispute resolutions, before going on to suggest a solution through the sensible modernisation and harmonisation of international electronic commercial law rules.

Title and Title Conflicts in respect of Intermediated Securities under English Law Oxford University Press, USA

This book, one of two volumes, is an anthology that analyses, through selected examples, the role played in the development of private law by the pursuit of goals serving modernisation or national ideologies in various countries, cultural spheres, and periods.

Commercial Law Bloomsbury Publishing

The new 5th edition of this acclaimed work provides a concise and lucid explanation of the law and regulation of credit and security.

Gano's Commercial Law Routledge

"If cash is the bloodline, contracts are the veins for business through which this blood flows."

Commercial business contracts sometimes are a mirage for legal professionals and more so for law students and other professionals. They are the main source of value creation or destruction for any organization. This book offers guidance to understand and navigate through all topics in a commercial B2B contract and enable the readers to negotiate and draft better commercial contracts so that contracts became a source of value generation and lasting business relationship because "strong boundary walls make neighbours get better and longer". If you are worried that your contracts may have "landmines" that could affect your business and margins and you wanted to use commercial contracts as a tool for value generation, then this book is for you. This book helps you avoid the "landmines" and create or spot "goldmines" in commercial contracts. The book is written and designed in a non-legal vocabulary so that both legal and non-legal professionals can use this book and extract the benefits of efficient commercial contracts.

Walter de Gruyter

Commercial Law (77-500653 & 24-6125-00L) University of Chicago Press

The book is the first comprehensive treatise on the law relating to yachts and provides its readers with a thorough analysis of maritime law as relevant to the superyacht sector. Written by a team of leading yachting practitioners and researchers, it covers the legal issues arising during the life of a yacht. The book is written for the legal practitioner, yacht-broker and manager concerned with the

operation of professionally crewed yachts including financing, registration, chartering, insurance, compliance and casualty management. Key Features - •This is the first and only practitioners' book on the area •It covers all major aspects of yachting law in a single book •The Law of Yachts and Yachting is highly comprehensive - despite its main focus on contract and tort law, it contains references to public law and international law and practice •References to case law, English, foreign and international •Appendices containing essential source materials

Basic Administrative Law for Paralegals Cambridge University Press

Examined here are the legal and practical reasons for the inefficiency of the legal framework of creditor protection in Nigeria. This is amply justified considering the critical role of credit in the promotion of economic growth and development and also bearing in mind the near calamitous consequences the 2009 financial crisis unleashed not only among Nigerian banks and financial institutions, and in the international financial system. The latter nearly led to socioeconomic catastrophe in Nigeria, as well as globally. It is hoped that book is found useful by government, policy makers, academics, corporate financial experts, investment bankers and other stakeholders to initiate and implement efficient policy actions to protect creditors in order to sustain the flow of credit, the engine of any economy.

The Rotterdam Rules and International Trade Law Oxford University Press

Commercial Law offers a fresh, modern, and stimulating exploration of this diverse and fascinating area of law. Principles and Policy Cambridge University Press

This volume offers proposed Articles, followed by comments and information. Topics include: plurality of debtors and creditors, assignment, substitution of new debtor and transfer of contract, set-off, prescription, illegality, and conditions and capitalisation of interest.

Legal Certainty in a Contemporary Context Penguin UK

"This book offers an empirically grounded theory that reframes the study of law and society from a predominantly national context, which dichotomizes the study of international law and national compliance into a dynamic perspective that places national, international, and transnational lawmaking and practice within a coherent single frame. By presenting and elaborating on a new concept, transnational legal orders it offers an original approach to the emergence of legal orders beyond nation-states. It shows how they originate, where they compete and cooperate, and how they settle on institutions that legally order fundamental economic and social behaviors that transcend national borders. This original theory is applied and developed by distinguished scholars from North America and Europe in business law, regulatory law and human rights"--
