Are you struggling to learn the proper Hindi handwriting technique? Do you struggle to memorize the stroke order of the many Hindi alphabets? Do you need a trustworthy resource to teach your small children to trace the "beautiful script"? If so, let me tell you why this workbook is the perfect companion for your studies: In it, you'll find 69 handpicked alphabets with detailed stroke order instructions. These alphabets include the base vowels and consonants, and common conjunct and dotted letters. Clear large letters make it

easy to recognize even the most detailed of the Hindi characters. Detailed stroke order instructions provide you with a strong foundation to build up your skills. Dedicated "Trace and Learn" sections are designed to imprint proper stroke technique unto your muscle memory. Font variations train your brain to recognize alternative character styles. As a bonus, for each character, you'll find an extra 8.5 x 11 inches page fully dedicated to the handwriting practice of that letter with and without guiding background light-gray letters. Feel free to photocopy these bonus pages as you wish to extend the lifetime value of your workbook. Special information: This workbook is a labor of love. Accordingly, if you are a teacher, a student of Hindi, or homeschooling your children, you can photocopy any part of this workbook for your own, or your students, personal use. Learning to write

the beautiful Hindi script by heart has never been easier.

My First Book of Hindi Words is a beautifully illustrated book that introduces young children to Hindi language and Indian culture through everyday words. Organized as an ABC rhyming book, My First Book of Hindi Words incorporates common Hindi words into charming English-language rhymes, beginning with: "A is for akash. A sky so blue where little birds fly and big planes, too," and on through "Z is for zukhaam. Achoo! I sneeze. I must have a cold. Mama, hug me please!" Winsome, full-color pictures illustrate each word and allow even very young readers to make their first foray into India's official language. A helpful glossary at the end makes it easy for readers—including parents and teachers—to review what they've learned! With the help of this book, we hope more children (and adults) will soon be a part of the 300 million people worldwide that speak Hindi!

Teach Yourself Beginner's Hindi Package (Book + 2CDs) Tuttle Publishing

Hindi is one of the world's main language, with over 650 million speakers in India, and millions more on every continent. There are many primers that teach children who can already speak Hindi-how to read and write their language. As the title Hindi Teacher for English Speaking People suggests, Dr. Ratnakar Narale has written this book with a different audience in mind: English speakers of all ages who want to learn Hindi from scratch. This audience includes many kinds of people: the inhabitants of non-Hindi-speaking parts of India; Canadians, Americans, and West Indians whose ancestors came from India, but whose first language is English. This logically arranged book is filled with virtually thousands of examples, and each dialogue is designed with the view of its practical value for the targeted people. Along the way, hundreds of new words and the frequent exercises let the student learn to speak and write Hindi sentences almost without much effort. This practical 'Teach

Yourself' manual closes with exercises in correcting faulty sentences, reading dialogues, telling the time, and writing letters. There are also useful lists of proverbs, synonyms and antonyms, and so on. Dr. Narale has been careful to draw most of the examples from words and concepts that are familiar to Westerners. This emphasizes that Hindi is a world language, and not merely an Indian one. Truly practical, comprehensive and easy to understand reference manual for classroom study to learn Hindi.

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods-to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls

into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education. Learn to Write 36 Hindi Alphabets for Kids (Ages 3-5) Prabhat Prakashan  
By the end of the book, you will be reading and writing Hindi with confidence! Read and Write Hindi Scripts is a step-by-step introduction to the script that will enable you to read Hindi signs, notices, advertisements and headlines. Script is introduced in stages, accompanied with lots of practice. There are plenty of example words and phrases that are seen everywhere in any Hindi-speaking environment so you can familiarize yourself with the most common signs and directions.
