**The Blessings of Business** Saint James Press

This book was a long time coming. God had to take me through a lifetime of learning to prepare me for writing this book. There are three areas that He impressed upon me to write about. The first was to write about the life lessons that He has taught me. Things like how to be a better, more loving husband, how to take control of my life by planning for and accomplishing things, and how to use the gifts He has given me. The second was to make apologetics understandable. Apologetics is rationally and credibly defending the faith. I've has a passion for this ever since I've been a believer. Christianity is not just subjectively true. It's

objectively true. It is factually true and can be proven so beyond a reasonable doubt. The third was to highlight some of the lesser-known Christians and how God used them to make a difference in our world. I hope the lessons contained in this book will bless you, as they have blessed me in learning them. But even more than that, I hope they will draw you closer to Jesus.

The Golden age of Indian industry, as it now seems in retrospect, lasted from 1951 to '62. and industrialists of the lime were not afraid to think ahead and plan big. Among the entrepreneurs who led this Industrial resurgence, four were particularly outstanding, G.D. Birla, Walchand Hirachand, Kasturbhai Lalbhai and, J.R.D. Tata. Gita Piramal, author of the acclaimed *Business Maharajas*, sensitively recreates the Lives and Times of these four titans of industry. She draws upon hitherto untapped sources of information to Sketch her profiles, making htis perhaps the

closest Look at these legends this fair. Thought provoking and incisive. Business Legends is a compelling Account of ambition and achievement.

Success was not all Anthony Rossi found in America. At the age of 21, Anthony T. Rossi saw the Statue of Liberty for the first time as his ship entered New York harbor. Though he knew virtually no English, he found a job that very day as a machinist's assistant. Within a few years he bought a grocery store, then a farm, a cafeteria and then a large restaurant. Finally, in 1947 he founded Tropicana Products, Inc., which under his leadership became the largest fresh-chilled orange juice company in the world. Success was not all Rossi found in America. He also found a vibrant faith in God that touched his business and personal dealings daily. Eventually he established the Aurora Foundation that has funded Christian educational institutions, Christian missions and other charities. How did an immigrant from Italy with no formal education revolutionize the way fresh orange juice was transported from Florida to the rest of the country? What prepared him to be not only the giant of his industry but also an evangelist, church planter and leader in Christian missions? Here is the inspiring story of a man who stands as a model of energy, creativity and hope.

The Book of Matthew cautions readers that "Ye cannot serve God and mammon." But for at least a century conservative American Protestants have been trying to prove that adage wrong. In *The Blessings of Business*, Darren E. Grem argues that while preachers, activists, and politicians have all helped spread the gospel, American evangelicalism owes its enduring strength in a large part to private enterprise. Grem argues for a new history of American evangelicalism, demonstrating how its adherents strategically used corporate America--its leaders, businesses, money, ideas, and values--to advance their religious, cultural, and political movement. Beginning before the First World War, conservative evangelicals were able to use businessmen and business methods to retain and expand their public influence in a secularizing, diversifying, and liberalizing age. In the process they became beholden to pro-business stances on matters of theology, race, gender, taxation, trade, and the state, transforming evangelicalism itself into as much of an economic movement as a religious one. *The Blessings of Business* tells the story of unlikely partnerships between well-known champions of the evangelical movement such as Billy Graham and largely forgotten businessmen like Herbert Taylor, J. Howard Pew, and R.G. LeTourneau. Grem also shows how evangelicals set up their

own pro-business organizations and linked the quarterly and yearly growth of "Christian" businesses to their social, religious, and political aspirations. Fascinating and provocative, *The Blessings of Business* uncovers the strong ties that conservative Christians have forged between the Almighty and the almighty dollar.

Every workday millions of Christians enter the marketplace. Whether as sales associates or engineers, auto mechanics or executives, Christians are called to serve God in the workplace. But most need help integrating faith and work. How can you be salt and light on the job? Where can you turn for help in developing a biblical and satisfying view of work? *The Marketplace Annotated Bibliography* is the largest and most complete resource for putting work in its proper Christian perspective. Pete Hammond, R. Paul Stevens and Todd Svanoec provide annotated reviews of hundreds of books on topics such as career guidance, leisure, termination and layoffs, business ethics, time and financial management, critical issues in the workplace, evangelism and much more! They also include a historical survey of the marketplace-faith movement and more than a dozen thematic indexes. Pastors, vocational counselors, professors and laypeople alike will find this book a unique and valuable resource.
