*Black and White (and a Bit in Between)* Fox Chapel Publishing

Crammed with fascinating facts, expert advice, and a wealth of essential information, *Shades of Grey* will guide you through the minefield that is choosing exactly the right shade of gray paint. "Grey is the cooler, chicer cousin of white that we can't help lusting after" Elle Decor There's no doubt about it, gray is the shade of the moment. On-trend restaurants, shops and homes are covered in it. There's not an interior decorating program that doesn't feature it. However, despite its popularity, it's not quite as simple as buying a gallon of gray paint and slapping it on the wall. Make the wrong choice, and a gray room can be cold and dark, even energy-sapping. Get it right, however, and your home will look inviting, sophisticated, and modern. So how to find the perfect hue? In *Shades of Grey*, Kate Watson-Smyth explores the current popularity of the shade and consults experts—scientists, paint brands, interior decorators—who reveal their favourite grays (as well as other tricks of the trade). She looks at the huge range of grays on offer and, via a simple process of elimination, will help you track down the shade that works perfectly for you.
