From the number one New York Times bestselling author comes another stunning memoir that is tender, touching...and just a little spooky. "Here's a partial list of things I don't believe in: God. The Devil. Heaven. Hell. Bigfoot. Ancient Aliens. Past lives. Life after death. Vampires. Zombies. Reiki. Homeopathy. Rolfing. Reflexology. Note that 'witches' and 'witchcraft' are absent from this list. The thing is, I wouldn't believe in them, and I would privately ridicule any idiot who did, except for one thing: I am a witch." For as long as Augusten Burroughs could remember, he knew things he shouldn't have known. He manifested things that shouldn't have come to pass. And he told exactly no one about this, save one person: his mother. His mother reassured him that it was all perfectly normal, that he was descended from a long line of witches, going back to the days of the early American colonies. And that this family tree was filled with witches. It was a bond that he and his mother shared--until the day she left him in the care of her psychiatrist to be raised in his family (but that's a whole other story). After that, Augusten was on his own. On his own to navigate the world of this tricky power; on his own to either use or misuse this gift. From the hilarious to the terrifying, *Toil & Trouble* is a chronicle of one man's journey to understand himself, to reconcile the powers he can wield with things with which he is helpless. There are very few things that are coincidences, as you will learn in *Toil & Trouble*. Ghosts are real, trees can want to kill you, beavers are the spawn of Satan, houses are alive, and in the end, love is the most powerful magic of all.

There is a distinct hint of Armageddon in the air. According to The Nice and Accurate Prophecies of Agnes Nutter, Witch (recorded, thankfully, in 1655, before she blew up her entire village and all its inhabitants, who had gathered to watch her burn), the world will end on a Saturday. Next Saturday, in fact. So the armies of Good and Evil are amassing, the Four Bikers of the Apocalypse are revving up their mighty hogs and hitting the road, and the world's last two remaining witch-finders are getting ready to fight the good fight, armed with awkwardly antiquated instructions and stick pins. Atlantis is rising, frogs are falling, tempers are flaring. . . . Right. Everything appears to be going according to Divine Plan. Except that a somewhat fussy angel and a fast-living demon -- each of whom has lived among Earth's mortals for many millennia and has grown rather fond of the lifestyle -- are not particularly looking forward to the coming Rapture. If Crowley and Aziraphale are going to stop it from happening, they've got to find and kill the Antichrist (which is a shame, as he's a really nice kid). There's just one glitch: someone seems to have misplaced him. . . . First published in 1990, Neil Gaiman and Terry Pratchett's brilliantly dark and screamingly funny take on humankind's final judgment is back -- and just in time -- in a new hardcover edition (which includes an introduction by the authors, comments by each about the other, and answers to some still-burning questions about

their wildly popular collaborative effort) that the devout and the damned alike will surely cherish until the end of all things.

From a modern perspective, it seems incredible that people were once executed for practicing witchcraft. Yet, in medieval Europe and colonial America, more than 12,000 lost their lives this way. The "proof" of witchery was often as scanty as a physical deformity or as outrageous as the water test: If the tied-up suspect floated in water, they were guilty; if they sunk, they were innocent! Readers will be fascinated by reports of famous and lesser-known witch trials accompanied by vivid photographs, colorful illustrations, and intriguing fact boxes. They'll learn how dubious accusations, circumstantial evidence, and a lack of scientific knowledge proved fatal for so many.

The trials of the Pendle witches in 1612 are among the most famous witch trials in English history, and some of the best recorded of the 17th century. The twelve accused lived in the area around Pendle Hill in Lancashire, and were charged with the murders of ten people by the use of witchcraft. All but two were tried at Lancaster Assizes in August 1612, along with the Samlesbury witches and others, in a series of trials that have become known as the Lancashire witch trials. One was tried at York Assizes during July 1612, and another died in prison. Of the eleven individuals who went to trial, nine women and two men, ten were found guilty and executed by hanging and one was found not guilty. Six of the Pendle witches came from one of two families, each headed by a female in her eighties at the time of the trials: Elizabeth Southernns, her daughter Elizabeth Device, and her grandchildren James and Alizon Device; Anne Whittle, and her daughter Anne Redferne. The others accused were Jane Bulcock and her son John Bulcock, Alice Nutter, Katherine Hewitt, Alice Gray, and Jennet Preston. The outbreaks of witchcraft in and around Pendle may demonstrate the extent to which people could make a living by posing as witches. Many of the allegations resulted from accusations that members of the Demdike and Chattox families made against each other, perhaps because they were in competition, both trying to make a living from healing, begging, and extortion.

Witches are dangerous. They can kill you with a look, or a word. They can send their friend the Devil after you in the shape of a dog or a cat. They can make a clay picture of you, then break it . . . and a few weeks later you are dead. Today, of course, most people don't believe in witches. But in 1612 everybody was afraid of them. Young Jennet Device in Lancashire knew a lot about them because she lived with the Witches of Pendle. They were her family. . .

The Pendle witch trials of 1612 are among the most famous witch trials in English history, and some of the best recorded of the 17th century. The 12 Pendle witches were charged with murdering 10 people in and around the Pendle Hill area of Lancashire by the use of witchcraft. One of the accused, Jennet Preston, lived in Gisburn, just over the border from Pendle, in Yorkshire. She was convicted at York Assizes on 27 July 1612, and sentenced to death by hanging. The remainder were tried, together with the Salmsbury witches and others, at Lancaster Assizes 17-19 August 1612, in what became known as the Lancashire witch trials. Thomas Potts, the clerk to the Lancaster Assizes, wrote the account of the trials of the Lancaster witches, making them some of the most famous and best recorded witch trials of the 17th century. Potts was instructed to write his account by the trial judges, Sir James Altham and Sir Edward Bromley. The Wonderful Discoverie of Witches in the Countie of Lancaster was completed on 16 November 1612, and submitted to the judges for review. Bromley revised and corrected the manuscript before its publication in 1613, declaring it to be "truly reported" and "fit and worthie to be published."

*A Romance of Pendle Forest.* St. Martin's Press

The account of a series of English witch trials that took place on 18-19 August 1612, commonly known as the Lancashire witch trials. Except for one trial held in York they took place at Lancaster Assizes. Of the twenty men and women accused - amongst them the Pendle witches and the Salmesbury witches - eleven were found guilty and subsequently hanged; one was sentenced to stand in the pillory, and the rest were acquitted. Thomas Potts, the clerk to the Lancaster Assizes, was ordered by the trial judges, Sir James Altham and Sir Edward Bromley, to write an account of the proceedings, making them some of the most famous and best recorded witch trials of the 17th century. During the sixteenth century whole districts in some parts of Lancashire seemed contaminated with the presence of witches; men and beasts were supposed to languish under their charm, and the delusion which preyed alike on the learned and the vulgar did not allow any family to suppose that they were beyond the reach of the witch's power.

A lot of people know a lot of stuff, and most of us don't get to share the best bits with other people. So this book gets together twenty-one recent graduates to share something they think you should know. Among other things you can learn: Why you should care about Japan's ageing population How a baby is made (after the fun bit) How the English and Scottish dealt with 'witches' Why we should think about disasters a bit differently How performance analysis works in sport Our editors graduated from university in 2008, during the last once in a lifetime financial armageddon. The idea behind this book was to allow recent graduates (who are hitting the real world a full twelve years after it went wrong last time) an opportunity to do something interesting with their time. Our experience tells us the next few years' worth of graduates will spend a long time being called lazy and stupid for the crime of being born about twenty-one years before it all went pear-shaped. So, for our authors, at least, they will have something to point at that they have achieved to disprove that. But mostly we just wanted to get together twenty-one chapters worth of stuff we didn't know before.

**The Lancashire Witches** Badger & Seal

"A handbook for hunting and punishing witches to assist the Inquisition and Church in exterminating undesirables. Mostly a compilation of superstition and folklore, the book was taken very seriously at the time it was written in the 15th century and became a kind of spiritual law book used by judges to determine the guilt of the accused"--From publisher description.

**Pendle** The History Press

In this excellent new book, well-respected historian Robert Poole presents an up-to-date version of Thomas Potts's original account of the famous witch hunt of 1612, in which 19 Lancashire witches, mostly from the Pendle area, were tried at Lancaster. Of these nineteen, three were declared innocent, five were acquitted, and eleven were found guilty, ten of whom were hanged. The Lancashire witch trials were one of the most important in Britain. Thanks to the trial clerk Thomas Potts, they are also the best known. This modern account based on Potts's original text summarizes the affair clearly and coherently. It probably provides the best, most authoritative general book about the 1612 witch hunt ever published. It is simply a modernized classic.

*A Novel* Unbound Publishing

In 1590 three hundred Scottish 'witches' were tried for plotting the murder of their King, James VI of Scotland (soon to be James I of England). James is known to have suffered from a morbid fear of violent death, and the trial heightened his anxiety over this apparently treasonous 'un-Christian' sect, and stimulated him to study the whole subject of witchcraft. 'Daemonologie' is the result of this royal research, detailing his opinions on the topic in the form of a Socratic dialogue between the sceptic Philomathes and witch-averse Epistemon, who reveals many aspects of witch-craft. The book consists of three sections, on magic, on sorcery and witchcraft, and on spirits and ghosts, and ends with a lurid account of the North Berwick witch trials, based on the evidence of Dr John Fian, the alleged head of the coven, whose 'confession' was obtained with the aid of thumbscrews, the Boot, and by the ripping out of his fingernails.
