Cult Proofing Your Kids

Greenwood Publishing Group

Named a Best Book of 2021 by Newsweek and a Most Anticipated by People, TIME, USA Today, Real Simple, Glamour, Nylon, Bustle, Purewow, Shondaland, and more! Educated meets The Vow in this story of liberation and self-empowerment—an inspiring and stranger-than-fiction memoir of growing up in and breaking free from the Children of God, an oppressive, extremist religious cult. Faith Jones was raised to be part a religious army preparing for the End Times. Growing up on an isolated farm in Macau, she prayed for hours every day and read letters of prophecy written by her grandfather, the founder of the Children of God. Tens of thousands of members strong, the cult followers looked to Faith's grandfather as their guiding light. As such, Faith was celebrated as special and then punished doubly to remind her that she was not. Over decades, the Children of

God grew into an international organization that became notorious for its alarming sex practices and allegations of abuse and exploitation. But with indomitable grit, Faith survived, creating a world of her own—pilfering books and teaching herself high school curriculum. Finally, at age twenty-three, thirsting for knowledge and freedom, she broke away, leaving behind everything she knew to forge her own path in America. A complicated family story mixed with a hauntingly intimate coming-of-age narrative, Faith Jones' extraordinary memoir reflects our societal norms of oppression and abuse while providing a unique lens to explore spiritual manipulation and our rights in our bodies. Honest, eye-opening, uplifting, and intensely affecting, *Sex Cult Nun* brings to life a hidden world that's hypnotically alien yet unexpectedly relatable.

Born Into the Children of God Cornell University Press

The first book to analyze the distinct leader cults that flourished in the era of 'High Stalinism' as an integral part of the system of dictatorial rule in the Soviet Union and

Eastern Europe. Fifteen studies explore the way in which these cults were established, their function and operation, their dissemination and reception, the place of the cults in art and literature, the exportation of the Stalin cult and its implantment in the communist states of Eastern Europe, and the impact which de-Stalinisation had on these cults.

Cult Child of the 90's
iUniverse

Blindsided when a child suddenly announces a transgender identity, many parents today find their families under assault by an insidious predator: the billion-dollar gender industry. "Do you want a live son (daughter) or a dead daughter (son)?" Nearly every parent whose child has fallen into the gender industry's clutches has heard the same emotionally manipulative threat: agree to your child's immediate social and medical transition, or prepare for the child's suicide. Schools, healthcare providers, politicians, and an aggressive activism machine are coercing people-and especially children-down a destructive path of

medicalization in the name of transgender medicine. Caught in the maelstrom of gender identity politics, medical experimentation, and a cultural zeitgeist that paints the family as an oppressor, parents are lied to from every quarter, and told they must consent to their children's gender transition and medicalization. But there is a different-and saner-path. A growing cadre of parents are saying, "No," to the gender machine's unethical and deceptive narrative. Based on sound principles of psychology and child development, as well as on strategies used by parents who have pulled their children back from the gender cult's destructive ideology, *Desist, Detrans, & Detox: Getting Your Child Out of the Gender Cult* provides a roadmap to help families navigate the treacherous terrain of gender indoctrination, and bring their children back to reality and safety.

Desist, Detrans, & Detox
Spring Publications

This book is a true story of a boy growing up in modern America under the control of a Cult. As the boy grew up he had a deep feeling that there was more to life than what the cult taught, but it took

many years of hardship before he found his Path and came to Self-Realization.

The Corporate Cult Sam Ajemian

This 2018 30th anniversary edition honors the 40th anniversary of the tragedy in Jonestown, Guyana. On November 18th, 1978, over 900 people including a U.S. congressman Leo Ryan died because of Cult Leader Jim Jones. Over 300 were children forced to drink cyanide-laced Kool-Aid by their parents who believed they were doing God's will. The techniques of undue influence have evolved dramatically, and continue to do so. Today, a vast array of methods exist to deceive, manipulate, and indoctrinate people into closed systems of obedience and dependency. If you are reading this updated book for the first time, please know that you have found a safe, respectful, compassionate place. This book can help you protect or regain your sanity, freedom, and health. It can also help you protect others from the use of mind control techniques. In this 30th anniversary volume you will find: • New stories of people who

fell under the sway of cults and other forms of undue influence but who were able to break free. • New information on the many sophisticated ways that social media are now used for mind control. • Updates on the many types of organizations that use mind control. • Information on the neuroscience behind mind control. • A look at what legislators, courts, mental health professionals, and ordinary citizens can do to resist mind control and make our world a safer place. Sadly, the essential information in this book is still not widely known or understood. People around the world remain largely unprepared for the new realities of mind control. But you are far from helpless. There is a great deal you can do to stay safe, sane, and whole - and to help the people you care about to do the same. And if someone you love is already part of a mind control group, there is much you can do to help them break free and rebuild their life. This book will give you the tools you need. As you read this book, you will learn to develop, use, and trust your critical thinking skills; your intuition; your bodily and emotional awareness; your ability to

ask the right questions; and your skill at doing quick, useful research. You will also learn to create a healthy balance of openness and skepticism. As you will see, the entire process begins and ends with discernment.

The Children of God

Chilton Book Company
With historic resignation of Joseph Ratzinger, the deposed Pope Benedict who was convicted of crimes against humanity, it becomes evident that Satanism is mingled with Christianity and so many other religions. High profile members of some respectable Christian denominations, charity, character-building and other organizations are implicated in the practice of Satanism and cult religions. Satanism and cult religions have also infiltrated all areas of life; including world politics, economy, education, different cultures, laws and social orders. With various studied cases like the association of UNO with Lucis Trust which was once known as Lucifer Trust in 1923, results of research works prove that Satanism and cult religions are both strongholds that are used to subdue nations all over the world with exception

of none. This book makes serious attempts to expose some of these strongholds, proving the facts that the official reports about missing people and the discoveries of mass graves of school children in many areas are all governments' efforts to cover up truths about human ritual sacrifices that are taking place everywhere in the world.

Could our fascination with childhood and the issues of child abuse, abortion, and family therapy mean that we are caught in the myth of purity and innocence? Boas exposes the assumptions that continue to plague nearly everything we do and say about children.

Escaping the Cult: One cult, two stories of survival

Strategic Book Publishing
A NEW YORK TIMES BESTSELLER "A memoir in essays about so many things—growing up in an abusive cult, coming of age as a lesbian in the military, forced out by homophobia, living on the margins as a working class woman and what it's like to grow into the person you are meant to be. Hough's writing will

break your heart."

—Roxane Gay Searing and extremely personal essays, shot through with the darkest elements America can manifest, while discovering light and humor in unexpected corners. As an adult, Lauren Hough has had many identities: an airman in the U.S. Air Force, a cable guy, a bouncer at a gay club. As a child, however, she had none. Growing up as a member of the infamous cult The Children of God, Hough had her own self robbed from her. The cult took her all over the globe—to Germany, Japan, Texas, Chile—but it wasn't until she finally left for good that Lauren understood she could have a life beyond "The Family." Along the way, she's loaded up her car and started over, trading one life for the next. She's taken pilgrimages to the sights of her youth, been kept in solitary confinement, dated a lot of women, dabbled in drugs, and eventually found herself as what she always wanted to be: a writer. Here, as she sweeps through the underbelly of America—relying on friends, family, and strangers alike—she begins to excavate a new

identity even as her past continues to trail her and color her world, relationships, and perceptions of self. At once razor-sharp, profoundly brave, and often very, very funny, the essays in *Leaving Isn't the Hardest Thing* interrogate our notions of ecstasy, queerness, and what it means to live freely. Each piece is a reckoning: of survival, identity, and how to reclaim one's past when carving out a future. A VINTAGE ORIGINAL

Memories of a Cult

Child Peter Lang "Cult Child" author, Vennie Kocsis, brings to life the pain of child abuse in this moving flow of elegant prose. "Dusted Shelves" explores poetic pain letting in a poignant and deeply moving language.

Satanism And Cult

Religions HarperCollins Examines the entire spectrum of family violence, focusing on social processes and social relationships. The seventh edition of *Family Violence: Legal, Medical, and Social Perspectives* by Harvey Wallace and Cliff Roberson is a comprehensive introduction to the study of family violence that guides readers to a better

understanding of the challenges involved in reducing or eliminating violence. The six major topics are: domestic partner abuse, child abuse, elder abuse, physical and psychological abuse, identifying when abuse occurs, and discussing the effects of the various types of abuse or violence. Learning Goals Upon completing this book, readers will be able to: -Understand the facets of family violence. - Discuss how violence may be reduced or eliminated. -Identify how each major type of abuse impacts the social and law enforcement agencies that are involved.

A Memoir Cult Child In 1973, Jane Caprin takes her three children from their family home and joins a cult, Sam Fife's "The Move." *Cult Child* is told from the voice of the youngest daughter, Sila Caprin, a victim of severe physical, sexual and mental trauma under the guise of Sam Fife's religious doctrines. Sila's life consists of fighting to maintain just a glimmer of her own humanity. With an older brother who runs away, a sister who is often silent in the hopes of being unnoticed, a mother who believes everything is

God's will, Sila fights to survive in a world where she is insignificant and unprotected -- until one day her sister becomes a victim of an act that in its horror becomes their savior. Based on real life events. *Dusted Shelves* Memoir of a Cult Child

Cult members approach their victims by highlighting the supposed attributes of their organization, such as communal living, shared financial responsibilities, and the freedom to dedicate your life 100 percent to God by dropping out of school or society. They separate their victims from their friends, family, and money. This compelling book is a must read for parents and young people. *There Is Life After the Cult!*

Getting Your Child Out of the Gender Cult Calvary Rock Resource Vincent Ferrer (1350-1419), a celebrated Dominican preacher from Valencia, was revered as a living saint during his lifetime, receiving papal canonization within fifty years of his death. In *The Saint and the Chopped-Up Baby*, Laura Ackerman Smoller recounts the fascinating story of how Vincent became the

subject of widespread devotion, ranging from the saint's tomb in Brittany to cult centers in Spain, Italy, France, Germany, and Latin America, where Vincent is still venerated today. Along the way, Smoller traces the long and sometimes contentious process of establishing a stable image of a new saint. Vincent came to be epitomized by a singularly arresting miracle tale in which a mother kills, chops up, and cooks her own baby, only to have the child restored to life by the saint's intercession. This miracle became a key emblem in the official portrayal of the saint promoted by the papal court and the Dominican order, still haunted by the memory of the Great Schism (1378-1414) that had rent the Catholic Church for nearly forty years. Vincent, however, proved to be a potent religious symbol for others whose agendas did not necessarily align with those of Rome. Whether shoring up the political legitimacy of Breton or Aragonese rulers, proclaiming a new plague saint, or trumpeting their own holiness, individuals imposed their own meanings on the

Dominican saint. Drawing on nuanced readings of canonization inquests, hagiography, liturgical sources, art, and devotional materials, Smoller tracks these various appropriations from the time of Vincent's 1455 canonization through the eve of the Enlightenment. In the process, she brings to life a long, raucous discussion ranging over many centuries. *The Saint and the Chopped-Up Baby* restores the voices of that conversation in all its complexity.

Rebel University of Hawaii Press

Flor Edwards has been called "the real life Kimmy Schmidt." She delivers an impartial recount of a childhood overshadowed by the fear of death and the impending apocalypse, and unimaginable challenge of adapting to life after leaving a cult.

Child Saints and Their Cults in Medieval Europe

Critical Publishing Are corporations cults? Do they control our behavior, thoughts, information and emotions? Zubaty makes a pretty good case for that. Should the legal status of corporate ?persons? be challenged as a religious violation ? a gross infringement of the

supposed boundary between church and state? He makes a pretty good case for that. Have we done a good job of keeping religion out of government but a miserable job of keeping government out of religion? He makes a pretty good case for that. Is Darwinism a science? Or a religion? You'll get vertigo over his take on that. Copyright © Libri GmbH. All rights reserved.

Hollywood Park Springer

**THE INSTANT NEW YORK TIMES

BESTSELLER** "A Gen-X This Boy's Life...Music and his fierce brilliance boost Jollett; a visceral urge to leave his background behind propels him to excel... In the end, Jollett shakes off the past to become the captain of his own soul. *Hollywood Park* is a triumph." —O, The Oprah Magazine "This moving and profound memoir is for anyone who loves a good redemption story." —Good Morning America, 20 Books We're Excited for in 2020

"Several years ago, Jollett began writing *Hollywood Park*, the gripping and brutally honest memoir of his life. Published in the middle of the pandemic, it has gone on to become one of the summer's most celebrated books and a

New York Times best seller..." -Los Angeles Magazine HOLLYWOOD PARK is a remarkable memoir of a tumultuous life. Mikel Jollett was born into one of the country's most infamous cults, and subjected to a childhood filled with poverty, addiction, and emotional abuse. Yet, ultimately, his is a story of fierce love and family loyalty told in a raw, poetic voice that signals the emergence of a uniquely gifted writer. We were never young. We were just too afraid of ourselves. No one told us who we were or what we were or where all our parents went. They would arrive like ghosts, visiting us for a morning, an afternoon. They would sit with us or walk around the grounds, to laugh or cry or toss us in the air while we screamed. Then they'd disappear again, for weeks, for months, for years, leaving us alone with our memories and dreams, our questions and confusion. ... So begins Hollywood Park, Mikel Jollett's remarkable memoir. His story opens in an experimental commune in California, which later morphed into the Church of Synanon, one of the country's most infamous and dangerous cults. Per the leader's

mandate, all children, including Jollett and his older brother, were separated from their parents when they were six months old, and handed over to the cult's "School." After spending years in what was essentially an orphanage, Mikel escaped the cult one morning with his mother and older brother. But in many ways, life outside Synanon was even harder and more erratic. In his raw, poetic and powerful voice, Jollett portrays a childhood filled with abject poverty, trauma, emotional abuse, delinquency and the lure of drugs and alcohol. Raised by a clinically depressed mother, tormented by his angry older brother, subjected to the unpredictability of troubled step-fathers and longing for contact with his father, a former heroin addict and ex-con, Jollett slowly, often painfully, builds a life that leads him to Stanford University and, eventually, to finding his voice as a writer and musician. Hollywood Park is told at first through the limited perspective of a child, and then broadens as Jollett begins to understand the world around him. Although Mikel Jollett's story is filled with heartbreak, it is

ultimately an unforgettable portrayal of love at its fiercest and most loyal.

Combating Cult Mind Control: The #1 Best-selling Guide to Protection, Rescue, and Recovery from Destructive Cults Simon and Schuster

Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. It's history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies.

Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar.

Family Violence

HarperCollins UK

A man had an accident. He lost his sense of time and emotional capacity. This is his twelfth attempt to communicate since the accident.

Stalin and the Eastern

Bloc Independently

Published

The first comprehensive psychological, social, and

evangelical treatment of the growing and insidious cult problem. Martin provides evidence that our schools, families, and even our churches have facilitated the rise of cults and offers suggestions on how these institutions can develop cult education programs and assist in the healing of former members.

There Is Life After the Cult

HarperElement
In February of 1977, during a weekend visit to her uncle's home in Riverside Valley, California, Celena was taken in the night. Two radicalized women planned the kidnapping.

Both were members of the Synanon cult's Kidsnatchers group in Marin. One of the women, Celena would learn, was her mother, whom she had not seen for two and half years. Leaving Los Angeles, she came to enter a strange, secluded world where childhood was an experiment, and no relationship was sacred. Immersed in the strange and deviant society of Synanon, Celena would spend the next five years subject to the unpredictable whims of Charles Dederich, the cult's shadowy leader. In a series of scenes, Synanon Kid chronicles cult living from a young girl's perspective and her search for identity and belonging in a world of physical and familial displacement. From the African American communities of South Central Los Angeles to the racially integrated, yet rural and isolated world of Synanon, Celena tries to make sense of and navigate the dichotomy of the mainstream blue-collar life into which she was born and the counterculture lifestyle she inherited. A haunting tale of estrangement, Synanon Kid, is a coming-of-age story of hope, survival, and

determination. It is also a story of the unconditional love between a mother

and daughter and how that love helped a young

girl to grow and flourish against the odds of her distorted childhood.
