and discourse shed light on how the form of a text creates stylistic effects. Taking a cross-cultural perspective, this book focuses on five key stylistic features of writing - paragraph structure, length and construction of sentences, organisation of information in sentences, relative formality of vocabulary, amount of nominalisation - widely seen as partly responsible for

the different impressions created by academic writing in English and Italian. The author develops a theoretical framework for the investigation of intuitions about stylistic differences from a contrastive point of view. To this end, the book gives an overview of recent scholarly approaches to writing and reading, genre studies, contrastive rhetoric and the notions of style and

stylistics, together with an assessment of several individual approaches. United States Code Wolters Kluwer

Using the works of Dante as its critical focus, María Rosa Menocal's original and imaginative study examines questions of truth, ideology, and reality in poetry as they occur in a series of texts and in the relationship between those texts across time. In each case, Menocal raises theoretical issues of critical importance to contemporary debates regarding the structure of

<p>literary relations. Beginning with a reading of <i>La vita nuova</i> and the <i>Commedia</i>, this literary history of poetic literary histories explores the Dantean poetic experience as it has been limited and rewritten by later poets, particularly Petrarch, Boccaccio, Borges, Pound, Eliot, and the all but forgotten Silvio Pellico, author of <i>Le mie prigioni</i>. By blending discussions of Dante's own</p>	<p>marriage of literature and literary history with those investigations into the imitative qualities of later works, Writing in Dante's Cult of Truth presents an intertextual literary history, one which seeks to maintain the uncanniness of literature, while imagining history to be neither linear nor clearly distinguishable from literature itself. <i>New Method of Learning to Read, Write,</i></p>	<p><i>and Speak the French Language</i> Longman Academic Writing Series Sentences to paragraphs Although recent findings show the public increasingly interacting with government Web sites, a common problem is that people can't find what they're looking for. A new section on usability testing guidance has been added. Experts from across government, industry, and academia have reviewed and contributed to the development of the Guidelines. Debates from the Year 1803 to the Present Time Nam H Nguyen Are you looking for a short, simple, systematic approach to writing? Pick up any other writing book, for any ability level, and you'll find a labyrinth of options, nuances, and caveats when straightforward explanations would better serve most writers. In "How to Write an Essay like an Equation," Eric Sentell (PhD, Writing, Rhetoric, and

Discourse Studies) distills over a decade of experience teaching college writing into covering only writing's essentials with only the necessary amount of detail and explanation. In this book, you will learn about the types of audiences every writer faces, the power of purpose in writing, the main genres of academic and professional writing, the BLUF and how to find it, PEE

Paragraph Structure, Content-Lexical Ties, editing for clarity and concision, using sentence boundaries, a short and practical style guide, the power of diction, and simple strategies for improving the writing process. Each chapter concludes with thought-exercises and writing activities to reinforce and build on what you learn. This is a book for busy people who need

practical, straight-forward solutions to the challenges of writing: people who write at work; students who struggle with writing; students whose professors don't (or can't) teach writing; students preparing for college entrance exams; international students who need to prepare for Western writing; high school teachers preparing students for

college; home-schooling parents who want to provide excellent instruction; and anyone who craves the “one right answers” of writing. Customer and Editorial Reviews: “The book will teach you how to highlight your main ideas, link thoughts and sentences, and edit your own work. You want this book if you find writing to be a fuzzy, amorphous activity and want clear steps to follow

for creating solid written work.” — Rebecca Helton, Edge for Scholars “An essay can be quite similar to an algebra equation in terms of development and structure.” This statement helped me to realize that I was actually making writing an essay harder than it needed to be. If you pick up any other book on writing it is long and drawn out. It complicates things and you

leave not understanding what you just read. This book isn’t like that. Not only is it short, but it is easy to comprehend. Eric Sentell also states in the very beginning that this book is for those who are busy and need a straight-forward explanation. I am a college student and I don’t have time to scour the internet for an explanation of how to write the essay that I waited until the last minute to write (don’t

pretend you haven't done it). This book is easy to read and comprehend, short and cheap. It is totally worth the money. My only complain is that I didn't have this earlier in my college journey!! -- Sherry Peppers As a homeschool mom of 4, I would highly recommend this book to anyone who wants to understand the basics of writing as well as to anyone who wants to improve their

writing. The book covers a broad range of writing topics that help in understanding who you're writing to, how to develop a paragraph, and how to make your paragraph more interesting and concise. Most of the paragraphs are short which helps the reader understand and retain the information better. I also liked the use of bullet points. It made the material direct,

concise, and easier to learn. I personally learned different writing tricks with this book, and I gained a better understanding of basic concepts and writing techniques that I had heard over and over in traditional English books but never fully grasped before. Good writing still takes time and practice, but this book helps lay a good foundation of how to get started and

how to develop skills to improve your writing. -- Lisa Reavey
This was excellent for me. I felt like it created simple, direct way to write professionally. Would definitely recommend. -- Kristin McKinnis

boosts their confidence, creates enjoyment and relevance in the task and cultivates a range of decision-making and problem-solving skills that can then be applied across the curriculum. The Countdown series provides all the support you need in helping children to improve their prose, poetry and non-fiction writing. Countdown to Non-Fiction Writing is a comprehensiv

e and flexible resource which you can use in different ways. It includes: 37 stand-alone modules which cover all aspects of writing and understanding non-fiction texts, including the nature of language, logical thinking, recognising 'facts' and planning; A countdown flowchart provides an overview, showing how modules are linked and allowing teachers and

pupils to track their progress; Photocopiable activity sheets for each module that show how to make decisions and solve problems which writers face on the journey to a finished piece of work; Teachers' notes for each module with tips and guidance, including how modules can be used in the classroom, links to other modules and curriculum links, and advice on helping and guiding pupils

in their writing; A self-study component so pupils can make their own progress through the material. This option gives young writers a sense of independence in thinking about their work and through offering a scaffolding of tasks, encourages confident and effective writing; 'Headers' for each module showing where along the 'countdown path' you are at that point;

Contents page for quick access to particular modules and relevant aspects of writing. In short, Countdown to Non-Fiction Writing saves valuable planning time and gives you all the flexibility you need in helping pupils to prepare for, understand, and write non-fiction. The structure of the book allows teachers to utilise the modules for 'self-study', as a longer programme

following the 'countdown' structure, or to dip into the book for individual lesson activities and ideas to fit in with wider programmes of study.
