*The Economics and Ethics of Private Property* Emerald Group Publishing

As author of *Citizen Power* in 1971, Senator Mike Gravel determined that much of what he wrote then is apropos in America today; hence, the release of *Citizen Power: A Mandate for Change* that reflects the accuracy of his evaluation of problems then, his current position on a number of issues facing America now, and the process that Americans can undertake to become empowered as lawmakers in partnership with their elected officials. Most chapters of *Citizen Power: A Mandate for Change* present material from the original book, as well as new information and revised positions. The exceptions are Chapter 2: The National Initiative, and Chapter 7: The War on Drugs. All other chapters cover similar topics in both books, but with the senator's fresh insights for today's world. Each chapter ends with how the National Initiative, once enacted, could help solve the problems presented in that chapter. The Table of Contents is as follows: Chapter 1 Now It's the Citizen's Turn Chapter 2 The National Initiative Chapter 3 America's Failure in Education Chapter 4 Tax Reform The Fair Tax Chapter 5 The Health Security System Chapter 6 National Environmental & Energy Policy Chapter 7 The War on Drugs Chapter 8 Crime & Punishment Chapter 9 The Shroud of Secrecy Chapter 10 American Imperialism Chapter 11 Global Governance Chapter 12 Who Stole the American Dream?

*Rethinking Imperialism* Oxford University Press on Demand

This is a wide-ranging environmental history of late-19th and 20th century European imperialism, relating the expansion of modern empire, global trade, and mass consumption to the momentous ecological shifts they entailed and providing a historical background to the social, political, and environmental issues of the twenty-first century

*Islamic Imperialism* Createspace Independent Publishing Platform

"This book examines the evolving representations of the colonial past from the mid-19th century up to decolonisation in the 1960s and 70s - the so-called era of Modern Imperialism - in post-war history textbooks from across the world. The aim of the book is to examine the evolving outlook of colonial representations in history education and the underpinning explanations for the specific outlook in different - former colonizer and colonised - countries (to be found in collective memory, popular historical culture, social representations, identity-building processes, and the state of historical knowledge within academia). The approach of the book is novel and innovative in different ways. First of all, given the complexity of the research, an original interdisciplinary approach has been implemented, which brings together historians, history educators and social psychologists to examine representations of colonialism in history education in different countries around the world while drawing on different theoretical frameworks. Secondly, given the interest in the interplay between collective memory, popular historical culture, social representations, and the state of historical knowledge within academia, a diachronic approach is implemented, examining the evolving representations of the colonial past, and connecting them

to developments within society at large and academia"--

The Colonial Past in History Textbooks Routledge

Offers a broad and unique look at Ancient Egypt during its long age of imperialism Written for enthusiasts and scholars of pharaonic Egypt, as well as for those interested in comparative imperialism, this book provides a look at some of the most intriguing evidence for grand strategy, low-level insurgencies, back-room deals, and complex colonial dynamics that exists for the Bronze Age world. It explores the actions of a variety of Egypt's imperial governments from the dawn of the state until 1069 BCE as they endeavored to control fiercely independent mountain dwellers in Lebanon, urban populations in Canaan and Nubia, highly mobile Nilotic pastoralists, and predatory desert raiders. The book is especially valuable as it foregrounds the reactions of local populations and their active roles in shaping the trajectory of empire. With its emphasis on the experimental nature of imperialism and its attention to cross-cultural comparison and social history, this book offers a fresh perspective on a fascinating subject. Organized around central imperial themes—which are explored in depth at particular places and times in Egypt's history—Ancient Egyptian Imperialism covers: Trade Before Empire—Empire Before the State (c. 3500-2686); Settler Colonialism (c. 2400-2160); Military Occupation (c. 2055-1775); Creolization, Collaboration, Colonization (c. 1775-1295); Motivation, Intimidation, Enticement (c. 1550-1295); Organization and Infrastructure (c. 1458-1295); Outwitting the State (c. 1362-1332); Conversions and Contractions in Egypt's Northern Empire (c. 1295-1136); and Conversions and Contractions in Egypt's Southern Empire (c. 1550-1069). Offers a wider focus of Egypt's experimentation with empire than is covered by general Egyptologists Draws analogies to tactics employed by imperial governments and by dominated peoples in a variety of historically documented empires, both old world and new Answers questions such as "how often and to what degree did imperial blueprints undergo revisions?" Ancient Egyptian Imperialism is an excellent text for students and scholars of history, comparative history, and ancient history, as well for those interested in political science, anthropology, and the Biblical World.

*The Japanese Colonial Empire, 1895-1945* John Wiley & Sons

History of International Relations, Diplomacy and Intelligence, 11 (History of International Relations Library, 11) One theme of this book is the preservation of the independence of Thailand during the age of imperialism. It suggests that the crucial years were 1902-05. It also argues that, among others, the Thais themselves, King, Princes, bureaucrats, played a crucial role, alongside their Western advisers and some of the European diplomats. It is a unique story, since all Thailand's neighbours lost their independence. It is also a story that reminds us of the role personalities play in history. The book has a second theme. Placing the decisive shift in the early years of the new century, the author argues its importance, not only for the maintenance of the independence of Siam, but for the development of the relationships among the great powers that helped to bring about the War of 1914. The case he brings is a contestable one, but its controversial argument, drawing on some unusual sources, will be essential reading for all those, historians and others. Interested in the origins of that conflict. Table of Contents Introduction by Nicholas Tarling Chapter 1 King Chulalongkorn's 1897 European Tour Chapter 2 Siam' and the Scramble' for S.E. Asia Chapter 3 The 'Siam Question' Chapter 4 The Splendid Isolation Crisis and Siam, 1895-6 Chapter 5 Gustave Rolin-Jaequemyns and the Chakri Reformation: Domestic Change in Siam, 1894-99 Chapter 6 The Consequences of King Chulalongkorn's European Tour, 1897-99 Chapter 7 Charles Rivett-Carnac and the Campaign to Internationalize the Siam Question Chapter 8 Survival: 'Siam' and the Entente Cordiale Chapter 9 Siam The Land the West Forgot', The Aftermath of the Entente Cordiale Chapter 10 Thailand, Imperialism's Missing Link'? About the Author(s)/Editor(s) Nigel Brailey was born on 11 November 1942, and spent his entire academic career in two institutions. One was the School of Asian Studies of the University of London, where he took first his BA and then his Ph.D. The other was the history department at Bristol University, where he lectured from 1 September 1969 (being appointed a few months after securing his doctorate) until 31 July 2005. Even on retirement he retained the status of an honorary research fellow, which embodied a continued scholarly productivity cut tragically short by his death from cancer in 2008.'

**Opus Dei and the CIA** Cornell University Press

Sanctions as War is the first critical analysis of economic sanctions from a global perspective. Featuring case studies from 11 sanctioned countries and theoretical essays, it will be of immediate interest to those interested in understanding how sanctions became the common sense of American foreign policy.

The Americans Study Guide Reconstruction to the 21st Century Grades 9-12 Princeton University Press

Across the course of American history, imperialism and anti-imperialism have been awkwardly paired as influences on the politics, culture, and diplomacy of the United States. The Declaration of Independence, after all, is an anti-imperial document, cataloguing the sins of the metropolitan government against the colonies. With the Revolution, and again in 1812, the nation stood against the most powerful empire in the world and declared itself independent. As noted by Ian Tyrrell and Jay Sexton, however, American "anti-imperialism was clearly selective, geographically, racially, and constitutionally." Empire's Twin broadens our conception of anti-imperialist actors, ideas, and actions; it charts this story across the range of American history, from the Revolution to our own era; and it opens up the transnational and global dimensions of American anti-imperialism. By tracking the diverse manifestations of American anti-imperialism, this book highlights the different ways in which historians can approach it in their research and teaching. The contributors cover a wide range of subjects, including the discourse of anti-imperialism in the Early Republic and Civil War, anti-imperialist actions in the U.S. during the Mexican Revolution, the anti-imperial dimensions of early U.S. encounters in the Middle East, and the transnational nature of anti-imperialist public sentiment during the Cold War and beyond.

The Tentacles of Progress A History of the World in 6 Glasses

How did Western imperialism shape the developing world? In *Imperialism and the Developing World*, Atul Kohli tackles this question by analyzing British and American influence on Asia, Africa, the Middle East, and Latin America from the age of the British East India Company to the most recent U.S. war in Iraq. He argues that both Britain and the U.S. expanded to enhance their national economic prosperity, and shows how Anglo-American expansionism hurt economic development in poor parts of the world. To clarify the causes and consequences of modern imperialism, Kohli first explains that there are two kinds of empires and analyzes the dynamics of both. Imperialism can refer to a formal, colonial empire such as Britain in the 19th century or an informal empire, wielding significant influence but not territorial control, such as the U.S. in the 20th century. Kohli contends that both have repeatedly undermined the prospects of steady economic progress in the global periphery, though to different degrees. Time and again, the pursuit of their own national economic prosperity led Britain and the U.S. to expand into peripheral areas of the world. Limiting the sovereignty of other states and poor and weak states on the periphery in particular was the main method of imperialism. For the British and American empires, this tactic ensured that peripheral economies would stay open and accessible to Anglo-American economic interests. Loss of sovereignty, however, greatly hurt the life chances of people living in Asia, the Middle East, Africa, and Latin America. As Kohli lays bare, sovereignty is an economic asset; it is a precondition for the emergence of states that can foster prosperous and inclusive industrial societies.

*News and the British World* Penguin UK

"Do not steal" is an excellent principle of ethics; it is also the first principle of sound economic systems. In our time, no one has done more than Hans-Hermann Hoppe to elaborate on the sociological implications of this truth. And this is his great work on the topic. The Austrian tradition is known for offering the most hard-core defense of private property, and the most consistent application of that principle, of any school of economics. The work of Hoppe--a leading student of Rothbard's whose books have been translated into a dozen languages--has focused heavy philosophical and economic attention on this principle. This book, the 2nd expanded edition after a long period in which it has been unavailable, collects his most important scholarly essays on the topic. The topics covered by Hoppe are wide ranging: employment, interest, money, banking, trade cycles, taxes, public goods, war, imperialism, and the rise and fall of civilizations. The core theoretical insight uniting the entire discussion is as consistently applied here as it is neglected by the economic mainstream: the absolute inviolability of private property as a human right as the basis of continuous economic progress. The right to private property is an indisputably valid, absolute principle of ethics, argues Hoppe, and the basis for civilizational advance. Indeed, it is the very foundation of social order itself. To rise from the ruins of socialism and overcome the stagnation of the Western welfare states, nothing will suffice but the uncompromising privatization of all socialized, that is, government, property and the establishment of a contractual society based on the recognition of private property rights. Hans Hermann-Hoppe is professor of economics at the University of Nevada, Las Vegas, and a senior fellow of the Ludwig von Mises Institute. This edition is an expansion of the original edition (1993), with new essays on epistemology, ethics, and economics. Barron's writes: Hans-Hermann Hoppe's dryly titled *The Economics and Ethics of Private Property* (von Mises Institute, 2006), is anything but dry. When Ludwig von Mises brought "Austrian School" economics to the U.S., the American Murray Rothbard became his worthy disciple. With Rothbard's death in 1995, the German-born Hoppe, a professor of economics at the University of Nevada, Las Vegas, became Rothbard's most important disciple by far. Hoppe's writings are like a laser beam. The clarity and force of his arguments seemingly can't fail to hit their targets. But be prepared for arguments that push you beyond your limits. For Hoppe is a Misesian of the Rothbardian kind: an anarcho-capitalist eager to convince you that anything useful that the state does, the market can do better -- in fact, that the state so abuses its appointed roles, there is really no contest between the two. CONTENTS: Preface to the Second Edition Preface to the First Edition Part One - Economics Chapter 1 Fallacies of the Public Goods Theory and the Production of Security Chapter 2 The Economics and Sociology of Taxation Chapter 3 Banking, Nation States, and International Politics: A Sociological Reconstruction of the Present Economic Order Chapter 4 Marxist and Austrian Class Analysis Chapter 5 Theory of Employment, Money, Interest, and the Capitalist Process: The Misesian Case Against Keynes Chapter 6 How is Fiat Money Possible?-or, The Devolution of Money and Credit Chapter 7 Against Fiduciary Media Chapter 8 Socialism: A Property or Knowledge Problem? Part Two - Philosophy Chapter 9 On Praxeology and the Praxeological Foundation of Epistemology Chapter 10 Is Research Based on Causal Scientific Principles Possible in the Social Sciences? Chapter 11 From the Economics of Laissez Faire to the Ethics of Libertarianism Chapter 12 The Justice of Economic Efficiency Chapter 13 On the Ultimate Justification of the Ethics of Private Property Chapter 14 Austrian Rationalism in the Age of the Decline of Positivism Chapter 15 Rothbardian Ethics Appendix: Four Critical Replies Demonstrated Preference and Private Property Utilitarians and Randians versus Reason Intimidation by Argument On the In-defensibility of Welfare Rights NYU Press

1. Empire without sovereignty: the political economy of French informal imperialism -- 2. Algeria, informal empire manqué -- 3. Champagne capitalism: the commodification of luxury and the French empire of taste -- 4. Conquest by money: the geopolitics and logistics of investment colonization -- 5. Imperialism and the Developing World Oxford University Press

Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism: that it would lead unavoidably to imperialism, monopolies and colonialism. He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

*The GOP Bible for 2016* Oxford University Press on Demand

Over the last 50 years, language policy has developed into a major discipline, drawing on research and practice in many nations and at many levels. This is the first Handbook to deal with language policy as a whole and is a complete 'state-of-the-field' survey, covering language practices, beliefs about language varieties, and methods and agencies for language management. It provides a historical background which traces the development of classical language planning, describes activities associated with indigenous and endangered languages, and contains chapters on imperialism, colonialism, effects of migration and globalization, and educational policy. It also evaluates language management agencies, analyzes language activism and looks at language cultivation (including reform of writing systems, orthography and modernized terminology). The definitive guide to the subject, it will be welcomed by students, researchers and language professionals in linguistics, education and politics.

**Chinese History 4** Oxford University Press

Qin Shi Huang (秦始皇, 259 BCE -210 BCE) was an ancient Chinese politician, strategist and a reformer. He defeated the six Warring States (Han, Zhao, Wei, Chu, Yan and Qi) and completed the political unification of China for the first time. For the first time in Chinese History, he established a unified, multi-ethnic country with the centralized power. As a founder of the powerful Qin Dynasty (221 BCE -207 BCE), he was the first monarch in China to be called an emperor. The so-called "first emperor", Qin Shi Huang Di, laid the basic structure of China's political system for the coming two thousand years. The book, Chinese History 4, a Chinese reading practice book, presents a broad and simple overview of the life of Qin Shi Huang. In the accompanied book chapters, you'll learn the life and legacies China's first emperor. The volume, 14th in the Mandarin Chinese Reading Series, includes both the Chinese text (simplified characters) and pinyin. With about 900 unique characters, the volume would be suitable for the beginners, lower intermediate and advanced level Chinese language learners (HSK 1-6). Overall, the Mandarin Chinese Reading Series offers you a variety of elementary level books (Level 1/2/3) to learn Chinese culture as well as practice Chinese reading fast. Paperback Edition:

<https://www.amazon.com/dp/1672939097> Kindle Edition: <https://www.amazon.com/dp/B082GQ8ZKP> The book has 10 chapters in the following order: Chapter 1: Early Life of Qin Shi Huang (秦始皇的早年生活) Chapter 2: Basic Facts about Qin Shi Huang (秦始皇的基本事实) Chapter 3: Ying Zheng Becomes the King of Qin (秦始皇称帝) Chapter 4: Early Reign of Qin Shi Huang (秦始皇的早期统治) Chapter 5: Consolidation of Powers (秦始皇的统一) Chapter 6: China's Unification (秦始皇的统一) Chapter 7: Qin Shi Huang's Pursuit of Immortality (秦始皇的长生不老) Chapter 8: The Fall of the Qin Dynasty (秦朝的灭亡) Chapter 9: Tomb of Emperor Qin Shi Huang (秦始皇的陵墓) Chapter 10: The Mysterious Tomb (秦始皇的陵墓)

*The Hindustan Review* Harper Collins

From the first Arab-Islamic Empire of the mid-seventh century to the Ottomans, the last great Muslim empire, the story of the Middle East has been the story of the rise and fall of universal empires and, no less important, of imperialist dreams. So argues Efraim Karsh in this highly provocative book. Rejecting the conventional Western interpretation of Middle Eastern history as an offshoot of global power politics, Karsh contends that the region's experience is the culmination of long-existing indigenous trends, passions, and patterns of behavior, and that foremost among these is Islam's millenarian imperial tradition. The author explores the history of Islam's imperialism and the persistence of the Ottoman imperialist dream that outlasted World War I to haunt Islamic and Middle Eastern politics to the present day. September 11 can be seen as simply the latest expression of this dream, and such attacks have little to do with U.S. international behavior or policy in the Middle East, says Karsh. The House of Islam's war for world mastery is traditional, indeed venerable, and it is a quest that is far from over.

**The Invention of Racism in Classical Antiquity** Broadview Press

Women across the globe are being dramatically affected by war as currently waged by the USA. But there has been little public space for dialogue about the complex relationship between feminism, women, and war. The editors of *Feminism and War* have brought together a diverse set of leading theorists and activists who examine the questions raised by ongoing American military initiatives, such as: What are the implications of an imperial nation/state laying claim to women's liberation? What is the relation between this claim and resulting American foreign policy and military action? Did American intervention and invasion in fact result in liberation for women in Afghanistan and Iraq? What multiple concepts are embedded in the phrase

"women's liberation"? How are these connected to the specifics of religion, culture, history, economics, and nation within current conflicts? What is the relation between the lives of Afghan and Iraqi women before and after invasion, and that of women living in the US? How do women who define themselves as feminists resist or acquiesce to this nation/state claim in current theory and organizing? *Feminism and War* reveals and critically analyzes the complicated ways in which America uses gender, race, class, nationalism, imperialism to justify, legitimate, and continue war. Each chapter builds on the next to develop an anti-racist, feminist politics that places imperialist power, and forms of resistance to it, central to its comprehensive analysis.

A History of the World in 6 Glasses McDougal Littell/Houghton Mifflin

The GOP is deeply in trouble, without any hope to win another presidential election in the foreseeable future! Here are four main reasons:

1)Democratic imperialism: The GOP has been too pro-war. Most Americans hate wars! 2)Religion: While the religious right supports the GOP, its positions on several major social issues (e.g. abortion) are no longer popular and are costing many votes. 3)Democratic socialism: "Democracy is the road to socialism." Who said it? Karl Marx! Because of this natural progression from democracy to socialism, the Democratic Party has been increasingly advantageous over the GOP, by attrition! 4)Ideas: To counter the natural advantage of the Democratic Party by attrition, the GOP must periodically come up with some grand new ideas that resonate with most Americans. Unfortunately, that has been missing for way too long ... What, then, should the GOP do? In principle, the GOP must come to the middle right, winning the middle 20% of the electorate. Specifically, the GOP must draw a stark contrast with the Democratic Party, and here it is: 1)The Democratic Party is the party of new slavery (i.e. pay without work). 2)The GOP was the party of Lincoln who abolished slavery (i.e. work without pay) more than 150 years ago. It can again be the party to abolish new slavery from the Democratic Party today! The image below shows my winning strategy for the GOP (omitted here). Specifically, 1)The GOP must denounce democratic imperialism, as perpetuated by the extreme right (e.g. John McCain and Lindsey Graham). 2)The GOP must denounce democratic socialism, as perpetuated by the extreme left (e.g. Nancy Pelosi and Harry Reid). 3)The GOP must be committed to restoring America as a republic with full-blown capitalism and a limited version of "affordable" democracy, largely as envisioned by our founding fathers. This strategy will resonate with most Americans, guaranteed! Furthermore, with a great party leader in Rand Paul or Chris Christie who will be committed to this strategy, the GOP can, and will, win the 2016 presidential election, guaranteed! This book is composed of 43 of my published articles in 2013, logically organized into a coherent whole in 10 parts as follows: 1)The GOP is dead; long live the GOP! 2)America: where are you going? 3)Correctly assessing American Presidents 4)My four open letters 5)Leadership 6)The race to the bottom 7)America: what are you doing? 8)America: a nation of self-made men! 9)America: let's have some fun! 10)Going beyond America Each part contains several chapters. Each chapter is an article previously published, with some significant re-writing to fit it in context. Some articles have their original publication dates attached, with the events at the time as the background. Part 1 is the core of the book. Parts 2-4 provide the first line of support for Part 1. Parts 5-10 provide the rest of the support. This book is also available as an e-book. This paperback is different from its sister e-book in two ways: 1)Like the e-book, the table of contents appears right after this page, without the hyper-links, of course. 2)Like the e-book, there is not a bibliography at the end of the book. Since all the references are available on-line, a reader can easily find them with a Google search by title. Now, just sit back and enjoy the book ...

Feminism and War Springer

This collection of essays is designed to shed light on the issues of imperialism and the transitions to socialism. Delving into the theoretical aspects, whose analysis is key for understanding the subject under consideration, and practical experiences of socialist transition in China, Vietnam, North Korea, Cuba, Venezuela, Ecuador, and Brazil.

Imperialism and Transitions to Socialism Cambridge University Press

This book aims at presenting and assessing imperialism as a theoretical concept. It aims to provide a comprehensive evaluation, focusing specifically on the tension between Marx's theoretical system of the Critique of Political Economy and the theories of capitalist expansion and domination.

Citizen Power Princeton University Press

The New York Times Bestseller "There aren't many books this entertaining that also provide a cogent crash course in ancient, classical and modern history." -Los Angeles Times Beer, wine, spirits, coffee, tea, and Coca-Cola: In Tom Standage's deft, innovative account of world history, these six beverages turn out to be much more than just ways to quench thirst. They also represent six eras that span the course of civilization-from the adoption of agriculture, to the birth of cities, to the advent of globalization. *A History of the World in 6 Glasses* tells the story of humanity from the Stone Age to the twenty-first century through each epoch's signature refreshment. As Standage persuasively argues, each drink is in fact a kind of technology, advancing culture and catalyzing the intricate interplay of different societies. After reading this enlightening book, you may never look at your favorite drink in quite the same way again.
