A History of the Christian
Tradition: From the
Reformation to the
present Wipf and Stock
Publishers
The polarization in the
Church today can be

traced back to a more
fundamental crisis in
theology, one which has
failed to connect our
mundane experiences and
the mysteries of the
Christian faith with the
person of Jesus Christ.
Ecclesial discourse on the
so-called 'hot- button
issues' of the day too
often take place without

considering the
foundation and goal of the
Church. And this is
unfortunately due to a
similar tendency in the
academic theology that
informs that ecclesial
discourse. In short, much
of post-conciliar Catholic
theology is adrift, floating
aimlessly away from the
center of the Christian

faith, who is Christ. The Center is Jesus Christ Himself is a collection of essays which anchor theological reflection in Jesus Christ. These diverse essays share a unified focal point, but engage with a variety of theological subdisciplines (e.g., dogmatic, moral, Biblical, etc.), areas (e.g., Christology, Pneumatology, missiology, etc.), and periods (e.g., patristic, medieval, and modern). Given the different combinations of sub-disciplines, areas, and

periods, theology is susceptible to fragmentation when it is not held together by some principle of unity. A theology in which the person of Jesus Christ serves as that principle of unity is a Christocentric theology. Together, the essays illustrate not only what Christocentric theology looks like, but also what the consequences are when Christ is dislodged from the center, whether by a conspicuous silence on, or by a relativization of, his unique salvific mission.

The volume is published in honor of Emeritus Professor of Systematic Theology at Boston College, Rev. Dr. Robert P. Imbelli, who dedicated his teaching and writing to bringing Christ back to the center of Catholic theological discourse. **Essays on Revelation, Salvation, and Evangelization in Honor of Robert P. Imbelli** Ave Maria Press Rowland showcases here the dominant contemporary approaches to doing Catholic theology. Chapter 1 offers

a summary of the two International Theological Commission (ITC) documents on the discipline of Catholic theology. These documents set out the general principles which should govern any approach to Catholic theology (at least according to the ITC). The subsequent chapters each focus on one of four different approaches frequently found in contemporary Catholic academies: the approach of Thomists, members of the *Communio* milieu,

members of the Concilium milieu and promoters of different varieties of Liberation Theology. Rowland's work is pitched at the level of first time students of theology who are trying to make sense of the methodological choices which undergird the different approaches to Catholic theology. Rowland concludes with four appendices: a list of all Doctors of the Church, a list of all encyclicals since the 19th century, a list of the documents of the Second Vatican Council, and a list of

definitions of the various Christological heresies which were the subject of the debates of the early Church Councils. These appendices will provide useful reference tables for young scholars, including seminarians.

Toward a Christology of Christ the High Priest

Fortress Press

This book details how semiotics furthers an understanding of the science of Christology. In the light of the trend towards evolutionary worldview, the book goes beyond description and critically engages the sign system of C. S. Peirce, which it sees as a conceptual tool and method for a better

understanding of some of the basic issues in Christology.

There's a little bit about Mary in Scripture. We can glean a bit more from the tradition of the Church. Some of the approved apparitions add a little insight, too. But where can we go to get the complete picture, to find out about the whole Mary? Wholly Mary does just that. In an engaging style, Chris Padgett walks

us through what the Bible has to say about the Mother of God. What has she meant to the Church throughout the centuries, what do the apparitions add, what have the saints told us about her and, most importantly, what can we learn from her ourselves? Other facets of this explanation of the Blessed Mother include: The power of the rosary How the Mass relates to Mary Four important dogmas about Mary Mary and the Trinity Mary and ecumenism With the enthusiasm and passion

Chris Padgett is known for, Mary is sure to come alive for you in a wholly new way!
Priestly Celibacy
InterVarsity Press
In this fully revised and updated second edition of his accessible account of systematic Christology, Gerald O'Collins continues to challenge the contemporary publishing trend for sensationalist books on Jesus that are supported neither by the New Testament witness nor by mainline Christian beliefs. This book critically examines the best biblical

and historical scholarship before tackling head-on some of the key questions of systematic Christology: does orthodox faith present Jesus the man as deficient and depersonalized? Is his sinlessness compatible with the exercise of a free human will? Does up-to-date exegesis challenge his virginal conception and personal resurrection? Can one reconcile Jesus' role as universal Saviour with the truth and values to be found in other religions? What should the feminist

movement highlight in presenting Jesus? This integral Christology is built around the resurrection of the crucified Jesus, highlights love as the key to redemption, and proposes a synthesis of the divine presence through Jesus. Clear, balanced, and accessible, this book should be valued by any student reading systematic theology, anyone training for the ministry in all denominations, as well as interested general readers.

The Christological Controversy Bloomsbury Publishing
 Pope Francis has called mandatory priestly celibacy a "gift for the Church," but added "since it is not a dogma, the door is always open" to change. As this Church discipline continues to be debated, it is important for Catholics to delve into the theological and not merely pragmatic reasons behind its continuation. Priestly Celibacy: Theological Foundations, therefore, fills a critical gap in the current

theological literature on this important topic of ecclesial ministry and life, and also helps to contribute to the advancement of the rather underdeveloped theology of priestly celibacy.

Christology Our Sunday Visitor

Drawing on fifty-nine years of experience as a Catholic priest, Fr. Kereszty provides spiritual, psychological, and pastoral guidance to priests, deacons and seminarians for preaching, sacramental ministry and spiritual direction. He has worked with countless priests struggling to understand their own role and identity in the post-conciliar Church with the laity

taking on more leadership and responsibilities. He has also dealt with the confusion and discouragement from the sexual abuse crisis, though a very small percentage of priests, that left many young men wondering "Why join a system in which everyone is suspect?" He uses the insights of St. Bernard, St. Therese of Lisieux, Popes St. John Paul II and Benedict XVI to assist the next generations of priests by accomplishing the following in this book:

- explores the signs and

development of priestly and diaconal vocations • gives advice on preaching, on the ways to prepare for adult baptism, and on the instruction of the parents and godparents for the baptism of a child. • shows how all the activities of the Church find their fulfillment in the celebration of the Eucharist and how our sincere participation in the Eucharist is manifested in our daily lives • advice on how to help the different kinds of confessants in the

sacrament of reconciliation: children, adolescents, young adults, the old and dying, returning "lost sheep," genuine holy souls, the scrupulous, porn addicts, homosexuals • guidance on marriage preparation, and the different problems in the stages of married life, including reasons for the Church's teaching on contraception • advice to priests on their important role in spiritual direction His desire is that this book will re-ignite the great gift that priests have received

in ordination, and to communicate his own immense joy and gratitude for that gift. Lastly, he tells all priests: to have a happy priestly life, strive to be a true priest of Jesus Christ in service to his flock.

An Introduction Saint Pauls/Alba House

Walter Kasper is already well-known and loved throughout the English-speaking world. He has held high office in the Vatican but until his recent retirement has felt constrained from publishing what he really

thinks and his vision of the Church for the future. Kasper brings to conclusion a project that has been pursued for years, as it joins together his greatest monographs on the subject of God's teaching and Christology. The book covers three main topics: Nature, Reality and the Mission of the Church. The introductory section is autobiographical and the reader can see Kasper's personal and theological way in to and with the Church. He develops the actual ecclesiological

exegesis - for Kasper the representation of the Being of the Church is not about empirical description, but rather a testimony of being. He emphasizes that nobody is able to apply the stereotypical and idealistic image of the heavens to the critical acknowledgement of the church's present. The program of the Church is ultimately not self-directed but rather remains oriented towards the finalization of the arrival of the kingdom of God and the spiritual

healing of the human race.

The truth of the Christian message must be interpreted in such a way that Christ as the Incarnate Word - 'truly God and truly Man' - could become part of the people's way of life. It is in such interpretation that African Christians in their faith encounter and life experiences might be able to perceive the reality of

Christ-events and find a true home with themselves and with their God. Chidubem Nwaogaidu is a priest of the Catholic Diocese of Nsukka, Nigeria. He holds Doctorate Degrees both in Sociology (Muenster) and in Dogmatic Theology (Eichstaett). The Challenge of Jesus
Augsburg Fortress

In this critical study, Dr Turbi Luka uses historical-theological methodology

to engage in detail with Christologies of key African theologians and conventional theological sources for Christology, including the church fathers Tertullian and Athanasius as well as modern theologians. Turbi argues that existing African Christologies, specifically ancestor Christologies, are inadequate in expressing the person of Christ as Messiah and saviour, the fulfilment of Old Testament prophecies. Providing a new approach, Turbi proposes an African

Linguistic Affinity Christology that explicitly portrays Jesus as Christ in a contextually relevant way for Africans in everyday life. This crucial study highlights the need for biblically rooted Christology and for sound theological understanding and naming of Jesus at every level. This book also warns the church in Africa, and elsewhere, to avoid repeating the dangerous christological heresies of the ancient church by remaining faithful to a biblical interpretation and

orthodox theology of Christ.

A Handbook on Christology for Non-Theologians St Augustine PressInc

This book is an updated investigation of the central themes of fundamental theology: revelation, hermeneutics, faith and its formulations, and the role of authoritative teaching in the Church. In a clear and balanced manner, Gerald O'Collins sums up the best of Roman Catholic teaching since Vatican II. Students and others who

are reflecting on the nature of their Christian belief will find this book invaluable. The unique quality of this work, however, is its foundation in human experience. Before he probes the theological issues, O'Collins lays down a groundwork for understanding experience. It is not an attempt to turn fundamental theology into a subjective science, but it is a recognition that the reality of God always intersects with self-conscious human beings.

While it does not touch all of the themes of fundamental theology, the book does provide in-depth treatment of revelation, tradition, and inspiration.

The Word of God at Vatican II Ignatius Press
The Oxford Handbook of Christology brings together 40 authoritative essays considering the theological study of the nature and role of Jesus Christ. This collection offers dynamic perspectives within the study of Christology and provides rigorous

discussion of inter-confessional theology, which would not have been possible even 60 years ago. The first of the seven parts considers Jesus Christ in the Bible. Rather than focusing solely on the New Testament, this section begins with discussion of the modes of God's self-communication to us and suggests that Christ's most original incarnation is in the language of the Hebrew Bible. The second section considers Patristic Christology. These essays explore the

formation of the doctrines of the person of Christ and the atonement between the First Council of Nicaea in 325 and the eve of the Second Council of Nicaea. The next section looks at Medieval theology and tackles the development of the understanding of who Christ was and of his atoning work. The section on "Reformation and Christology" traces the path of the Reformation from Luther to Bultmann. The fifth section tackles the new developments in thinking about Christ

which have emerged in the modern and the postmodern eras, and the sixth section explains how beliefs about Jesus have affected music, poetry, and the arts. The final part concludes by locating Christology within systematic theology, asking how it relates to Christian belief as a whole. This comprehensive volume provides an invaluable resource and reference for scholars, students, and general readers interested in the study of Christology.

The Vatican II's Dogmatic Constitution on Divine Revelation is universally acclaimed as one of the council's most important documents. Published in 1965 after a long and circuitous route throughout all four years of the council, *Dei Verbum* sets forth the Catholic Church's official teaching about divine revelation and the complex interrelationship between Scripture and Tradition. With the approach of the fiftieth anniversary of the

constitution, this book—intended for general audiences—summarizes the history and principal teaching of this groundbreaking document. Accompanying the text of *The Word of God at Vatican II* is a paragraph-by-paragraph commentary and an exploration of the impact the constitution has had in the church's life. Readers will be amazed at how influential *Dei Verbum* continues to be, even today.

A History OUP Oxford

This modern spiritual classic by Frank Sheed, the renowned author, publisher and lecturer, is brought back into print for the benefit of new generations of readers to develop a deeper, more profound knowledge of Jesus Christ. Sheed's concern with the Gospels is to come to know Christ as he actually lived among us, interacted with all the various people he encountered from his

infancy to his passion and death--the God-man who was like us in all things except sin. Sheed has tried especially to see Our Lord in his effect upon others--seeing how they saw him, trying to see why they saw him so. There is much about Mary and Joseph in their task of bringing up a baby who was literally adorable; about John the Baptist; about Mary of Bethany and Mary Magdalen; about Nicodemus; about people we meet only for a moment, like the man born blind and the owners

of the drowned swine; and why the Pharisees, not only the worst of them but some of the best, would not accept Christ. Faith, doctrine, prayer, worship--all the content and consequences of Christian belief--rest on the person of Christ Jesus as recorded in the Gospels. In this classic study, Frank J. Sheed employs wide learning, theological sophistication, spiritual insight, and a lucid style to bring the reader to a personal encounter with the living Lord. To Know Christ Jesus has been

justly called "one of the most satisfying studies of the Gospel ever made." Frank J. Sheed had a distinguished career as a

publisher, lecturer, street-corner evangelist, and popular writer. He and his wife Maisie Ward were the founders of the publishing house Sheed & Ward. His

many books include Christ in Eclipse, What Difference Does Jesus Make?, Theology and Sanity, and A Map of Life.
