My interest in understanding man, cultural development, and finding the purpose of life began in 1963 with a desire to heal my husband. My desire for him to be well was so great that I began to investigate alternative healthcare. I volunteered my services to care for sick people for years so I could learn more. I met people who were ill and also young children who accessed knowledge beyond their five senses. I had so many unusual experiences and deeper questions that I began to study the role of the mind in personality, energy, the unseen, the laws of the universe, and the science of man in the cosmos. It was not long before my five senses were no longer adequate to contain what was unfolding in my consciousness. More and more happened that introduced me to the unseen propelling force of invisible intelligence. I realized I had taken on a very serious subject and that it was too late to turn back. I made a commitment to not just believe in God but to know God and find the cause of human suffering. There is new straight-knowledge that can define God as a scientific fact. The

building of the house that has everything anyone would ever want is to grow in wisdom and understanding to know with full consciousness that man is an immortal part of God.

A book of ancient mysticism originally published in the early 1900's to an interested people in the old occult wisdom of Greece and Egypt. This book lays out seven principles that magic and occult are supposed to work around. The book claims that grasping these principles will help someone in enhancing their life and the world around them. Although the direct authorship is now unknown, the Three Initiates have stood as the pseudonym most famous to the ones who crafted this occult work.

The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece is a book originally published in 1908 by New Thought author William Walker Atkinson under the pseudonym "The Three Initiates". This book is not exactly The Kybalion itself, it is more of a critical interpretation by Atkinson on hermetic philosophy. As such, it should be read with this in mind that it is

not an authoritative hermetic text, but one only dedicated to Hermes Trismegistus. The Kybalion presents seven universal principles it proposes to be the Seven Hermetic Principles: Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. These principles are essentially explications of cycles, and before these principles is the notion of the primacy of mind as the cause of All (philosophical mentalism). This idea of mentalism is inspired by what is written about the Mind in The Hermetica. Coinciding with Spiritualism, New Thought, and Theosophy, the book became very popular in New Age movements, particularly with its notion of spiritual and mental alchemy. The Kybalion is a text which must be read with this in mind, while it is an interpretation of hermetic philosophy, it is in part still a relic of its time. Its influence cannot be understated, and the need to read it critically cannot be overstated.

It is said that the KYBALION always appears at exactly the right time in the reader's life. Welcome to that time! The KYBALION is a mysterious volume of great wisdom written by three Initiates and was first published in English by the Yogi Publication Society of Chicago USA in 1908. The most familiar edition is a plain volume bound with blue cloth and stamped with gold. But what is it? The KYBALION is an initiation into a mystical tradition that has survived through the ages from Antiquity to the Present Day, existing just outside the perception of most people. The core of the KYBALION is a series of aphorisms that go back to earliest times and were passed down from master to student for millennia, the exact significance and meaning being closely guarded until the publication of this book. The KYBALION is organised according to seven basic principles, which serve to form the basis of all Hermetic philosophy: 1. Mentalism. "The All is Mind; the Universe is mental." 2. Correspondence. "As above, so below; as below, so above." 3. Vibration. "Nothing rests; everything moves; everything vibrates." 4. Polarity. "Everything is Dual; everything has poles; everything has its pair of opposites." 5. Rhythm. "Everything flows, out and in; everything has its tides; all things rise and fall." 6. Cause and Effect. "Every Cause has its Effect; every Effect has its Cause; everything happens according to Law." 7. Gender. "Gender is in everything; everything has its Masculine and Feminine Principles; Gender manifests on all planes." Sound familiar? It should. The KYBALION forms the philosophical basis of all knowledge. If you have heard of that modern concept known as "The LAW OF ATTRACTION", then you have seen but a mere fraction of the potential of the ancient wisdom to be found within the KYBALION.

Metaphor and Imaginal Psychology: A Hermetic Reflection provides the first full-length exploration of the significance of metaphor in post-Jungian psychology. Its portrayal of the mythological figure of Hermes as a personification of metaphor marks an original contribution to the field of metaphor studies. After a 2,500-year exile from philosophy and related areas of study, beginning with Plato's ejection of the poets from the ideal city-state, metaphor is today experiencing a season of renewal. Among the fields where its significance as a way of seeing, thinking, and feeling has been especially prominent is archetypal psychology, perhaps the most philosophically attuned of psychological disciplines. Approaching the work of James Hillman and other key archetypal psychologists from a poststructuralist perspective, Metaphor and Imaginal Psychology draws insightful comparisons between archetypal psychology and the deconstructive philosophy of Jacques Derrida, a principle theorist of metaphor's philosophical resurgence. By linking two disciplines

that might at first appear as strange bedfellows, Metaphor and Imaginal Psychology underscores the influence of metaphor in reason and emotion, and makes a compelling case for the Mercurial ethos of our postmodern world. Aside from representing essential reading for therapists and theorists working in post-Jungian studies, the book will appeal to readers, students and scholars of literary criticism, psychology, philosophy and mythology.

The Kybalion & The Emerald Tablet of Hermes compose two pillars of Hermetic thought. Combined here in one volume, these two works share true wisdom with those ready to receive it. "When the ears of the student are ready to hear, then cometh the lips to fill them with wisdom." The Kybalion was first published anonymously in 1908 by "The Three Initiates." The true authorship of the work is unknown, although theories suggest it was written entirely or in part by William Walker Atkinson. Atkinson was a prolific writer and supported the New Thought movement of the 19th and early 20th centuries. New Thought included the belief that our realities can be manifested by mental effort, which is also suggested in Hermetic principles. Scholars point to similarities in style and content between The Kybalion and Atkinson's own The Arcane Teachings as evidence that he was one (or all) of "The Three Initiates." The Kybalion provides an introduction to the teachings of Hermes Trismegistus--Hermes "the Thrice-Greatest." This "Master of Masters" is said in The Kybalion to have lived 300 years on Earth, and believed by some to be the founder of both astrology and alchemy (precursors to astronomy and chemistry, respectively). Hermes Trismegistus was deified after his death as Toth by the ancient Egyptians, and Hermes by the Greeks. In both pantheons, this man-turned-god was considered a symbol of great wisdom. The Kybalion's explanation of Hermetic teachings are claimed to have been passed down orally for centuries, eventually reaching "The Three Initiates." The fundamental Hermetic traditions presented in The Kybalion consist of seven "working principles" Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. Within these seven principles is true wisdom, tied to no particular place and no particular religion. It is the "sacred flame" kept lit by a chosen few used to "re-light the lesser lamps of the outside world when the light of truth grew dim..." In short, these are the truths of the universe, regardless of era or creed. The Emerald Tablet of Hermes is a short, ancient text attributed to Hermes Trismegistus himself. Unlike The Kybalion, which aims to provide some explanation and instruction, the brief Emerald Tablet has been puzzling and fascinating scholars for over 1,000 years. Consisting of a mere 14 stanzas, the Emerald Tablet is said to contain the secrets of prima materia--the foundational material of the universe. The Emerald Tablet and its teaching influenced freemasonry and philosophy throughout history. The text of the tablet has been translated and commented on by a variety of scholars, including Sir Isaac Newton who was inspired by its teachings throughout his life and work. The earliest known version of the text comes from an Arabic work written between the 6th and 8th centuries by Balinas. He claimed to have found the tablet hidden in a vault beneath a statue of Hermes. Another story claims the tablet was written by Seth, the third son of Adam and Eve. And yet another says the tablet was uncovered and then reburied by Alexander the Great. The source and material of the physical tablet is unknown. It was reported to be a rectangular green stone, with text in raised bas-relief rather than engraved. Some even claim there never was a physical tablet at all, although several accounts claim it was on display in Egypt in 330

BCE. Whatever its origins and history, the work was first introduced to the West in the 12th century through Latin translations. Since then, this cryptic text has been translated and re-translated, pored-over and analyzed by philosophers, historians, and theologians alike.

The most popular occult work of the twentieth century--now in a hardbound edition that evokes the original volume, with a new introduction by scholar of mysticism Richard Smoley. For generations, readers have debated the origins and studied the knowledge of this mysterious exploration of Hermetic wisdom, attributed to "Three Initiates." Now in its second century, The Kybalion is restored to hardcover in a commemorative volume that evokes the appearance of the occult landmark's first edition. The new introduction by Richard Smoley, a celebrated scholar of mystical traditions, makes this a historical keepsake.

This is a book about the importance of choice in the lives of people. Two philosophies, Existentialism and New Thought Philosophy, speak in their own language of taking "the hero's journey" by accepting and expressing life authentically. This book looks at things that get in the way of choosing our true life; it is about the courageous adventure of being authentic. It is a book about you and me, it is about the evolution of human kind. This book begins by defining and comparing philosophical concepts of authenticity. It continues by looking at the expectations and rewards of achieving self-discovery through authenticity. This is followed by a brief history of New Thought Philosophy from the time of transcendentalism to the present day. Existentialism is presented in a variety of forms such as the theological as represented by Soren Kierkegaard, and the atheism of Friedrich Nietzsche, Jean-Paul Sartre and Albert Camus. We also look at the basic premises of existential psychotherapy through the eyes of Rollo May. The chapter which follows describes the work of Henri Bergson's argument with Darwin's mechanistic concept of random variations in the evolutionary process of living things. The writing concludes by describing the spiritual childhood of two brothers who exemplify freedom and naïve authenticity. Colorful meditations are included at the end of the book with the intention of facilitating introspection and self-acceptance.

Beyond the Secret... Beyond the Power of Now... is the Science of Spirit...a Deeper look at life. Why are we here alive on planet earth trapped in a life of 9 to 5 wage slavery? "Science of Spirit: Lost Keys to the Kingdom of Heaven on Earth" shows that all life on planet earth and in the universe is based on an evolution of consciousness from the beginning of time the Big Bang. It clarifies the connectedness of all life with Science and to Spirit through the understanding of world-old Hermetic Teachings in a balance of Reason and Faith. Consciousness is the very fabric that all form is made out of and is the ground of all beingness of life. Consciousness and the energy that makes up matter are inextricably combined or linked, emerging in a sequence of events called occasions of experience that ultimately create our experiences in life and our reality. The universe isn't made of things or particles. It's a process. It's made up of events. The result of this evolution of consciousness is an Analogical Awareness of life living in the now moment of unlimited potentials for the growth of a new super-conscious species of humanity moving through an Omega Point in time between 2011-- 2013. These Hermetic Teachings were clarified for me through the teaching of Ramtha and his Ancient Gnostic School much of what I have learned in 20 years my philosophy of life has its foundation in Ramtha's philosophy. Our accelerating consciousness is moving to a quantum existence of Spirit-in-Mass God Man realized alive with all the lower species of life specifically the Sheeple of Economic Western Society. The Science of Spirit is based on my personal experience... my research... and my understanding of the ancient philosophy that this work comes from... It uses from research the philosophy and experience of other very credible people that have studied different aspects of a Science of Spirit as a philosophy to live by... I use this eclectic approach to build an accurate model of reality based in consciousness that allows us to create our own reality once we rid ourselves of the illusions of society. This approach gives credibility to my overall viewpoint a modern interpretation of a very old philosophy and way of life... A Science of Spirit that is inherent in Mother Nature... It goes in-depth about understanding What Consciousness Is! - An Analogical State of Awareness that is continuously evolving faster and faster to the eternal Now Moment. It uses the discovery of a new perspective of the Mayan Calendar that is supposed to end in a religious "Apocalypse at "The Omega Point" in time around 2012 as its foundational understanding of an "Evolution of Consciousness" on earth. This philosophy and research show an Evolution of Consciousness a rising of an Analogical Awareness of life revealing a Science to the nature of Spirit. It explains from a new perspective, this battle between the "Forces of Good and Evil" at "The End of Time". This Ancient Science of Spirit philosophy explains how the primeval forces of life [Spirit] that are inherent in Mother Earth growing for 16.4 billion years are pitted against the "dogmatic, stagnant, god-fearing personalities," that runs the Engines of Commerce of our Global Society with their focus on monetary control of the people and the planet. This is a real life battle between evolving evolutionary beings against the "Anti-Christ Social Consciousness of The Multi-National Corporations. Religious dogmas talk about an "Apocalypse at the end of time" to help warn us of our impending doom the remarkable thing is that the word "Apocalypse" means the "lifting of a veil" or a disclosure to certain privileged persons of something hidden from the majority of humankind. I will show in this book that the "lifting of a veil" is a rising of consciousness

that knows no fear of the unknown and clarifies ancient predictions of the end days and the real battle of Armageddon. This ancient "Science

This is an illustrated edition of an occult classic, with an intriguing and thought-provoking foreword by the publisher. Since 1908, The Kybalion has served as a study of basic hermetic teachings

that outline an ageless wisdom. In ancient times (and even today), these teachings were not understood by the lay person, but were readily understood by students, after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. "The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered." -- The Kybalion Illustrations in the print editions are black and white. The original esoteric writings that inspired some of the world's greatest artists, scientists, and philosophers. "THE ALL is MIND; The Universe is Mental."--The Kybalion. He was the father of the occult, the founder of astrology, the discoverer of alchemy. He was Hermes Trismegistus, and as the scribe of the gods of ancient Egypt, he possessed all divine knowledge... which he passed on to humanity, though only those who have been tutored in its wonders can fully understand it. In this extraordinary 1912 book, three secret initiates to his teachings--who remain anonymous to this day--share their insight with all who seek to understand the mysterious underpinnings of the universe and our relationship with it. An appreciation of Hermeticism, as the basis of all paranormal philosophies still studied today, is an absolute must for anyone fascinated by magic, the supernatural, and the wisdom of the ancients.
