Harvey Mackay, author of *Swim With the Sharks Without Being Eaten Alive*, believes that, to succeed in business, you should always do what you love, love what you do and deliver more than you promise. This book contains 85 lessons in the form of specific advice and personal anecdotes. The themes covered include getting started, working your way up, running the show, long-term sales careers, keeping out of trouble and relationships with the people you work for.

Swimming with Sharks National Geographic Books

How to Swim with the Sharks: A Survival Guide for Leadership in Diverse Environments, provides real-life vignettes of personal and professional triumphs. Each story offers tried and proven leadership techniques for use in challenging business or personal environments. The book also addresses management styles useful for building and managing teams. While the book covers situations in professional environments, it could easily be adapted

to situations in community organizations or in schools. Unique to business management literature, this book covers a key element often overlooked in other books: office politics. The book is written for those who, despite being highly skilled and qualified, encounter setbacks due to office power dynamics. The book is organized in a very easy-to-read format. Each chapter begins with a dilemma, followed by a strategy, advantage and reflection to help one tackle the dilemma. Then, the chapter concludes with brief "take-away" tips that will help readers successfully swim with the sharks.

Overcoming Fear One Fish at a Time

ABDO Publishing Company

At once feared and revered, sharks have captivated people since our earliest human encounters. Children and adults alike stand awed before aquarium shark tanks, fascinated by the giant teeth and unnerving eyes. And no swim in the ocean is undertaken without a slight shiver of anxiety about the very real—and very cinematic—dangers of shark bites. But our interactions with sharks are not entirely one-sided: the threats we pose to sharks through fisheries, organized hunts, and gill nets on coastlines are more deadly and far-reaching than any bite. In *Sharks and People* acclaimed wildlife photographer Thomas Peschak presents stunning photographs that capture the

relationship between people and sharks around the globe. A contributing photographer to National Geographic, Peschak is best known for his unusual photographs of sharks—his iconic image of a great white shark following a researcher in a small yellow kayak is one of the most recognizable shark photographs in the world. The other images gathered here are no less riveting, bringing us as close as possible to sharks in the wild. Alongside the photographs, *Sharks and People* tells the compelling story of the natural history of sharks. Sharks have roamed the oceans for more than four hundred million years, and in this time they have never stopped adapting to the ever-changing world—their unique cartilage skeletons and array of super-senses mark them as one of the most evolved groups of animals. Scientists have recently discovered that sharks play an important role in balancing the ocean, including maintaining the health of coral reefs. Yet, tens of millions of sharks are killed every year just to fill the demand for shark fin soup alone. Today more than sixty species of sharks, including hammerhead, mako, and oceanic white-tip sharks, are listed as vulnerable or in danger of extinction. The need to understand the significant part sharks play in the oceanic ecosystem has never been so urgent, and Peschak's photographs bear witness to the thrilling strength and unique attraction of sharks. They are certain to enthrall and inspire. Sharks—The Ocean's Most Mysterious, Most Misunderstood, and Most Important Guardians John Wiley & Sons

No fight left? No future? Does the handwriting on the wall say utter failure? Harvey Mackay, one of the world's best-selling motivational and business authors tells you why it isn't so. He

reveals anecdotes and secrets from some of the best and brightest headliners in our world today. Their gripping accounts show that no one is immune to bad judgment or backstabbing. In colorful detail, these remarkable success stories reveal what the best of the best did to get back on top. Each story tells a unique tale and contains valuable lessons that are applicable to any reader who wants his or her career to flourish; indeed, this is the book that will inspire, instill hope . . . and give more than a glimpse into what makes these stalwarts strong. When Fortune magazine called Mackay “Mister Make-Things-Happen,” it was right on the money—getting this amazing group of people from various walks of life to talk openly about their abilities to bounce back shows him to be a master at getting people to divulge some of their defeats and their dreams. Hopeful, tough-minded, and filled with indispensable advice, *We Got Fired!* . . . *And It’s the Best Thing That Ever Happened to Us* will show anyone how to turn a modern bummer into a major blessing. It’s a rarity: a sure thing in our shaky times. Originally published as *We Got Fired!*

2017 Amelia Bloomer List, Early Readers Nonfiction Before Eugenie Clark's groundbreaking research, most people

thought sharks were vicious, blood-thirsty killers. From the first time she saw a shark in an aquarium, Japanese-American Eugenie was enthralled.

Instead of frightening and ferocious eating machines, she saw sleek, graceful fish gliding through the water. After she became a scientist—an unexpected career path for a woman in the 1940s—she began taking research dives and training sharks, earning her the nickname “The Shark Lady.”

A gripping series about saving Earth's most endangered creatures-- and fighting for survival! Sink or swim!

Twelve-year-old Adrianna Villalobos and her older brother Feye travel the globe with their parents, the hosts of a suspenseful nature show called “Wild Survival!” The show features daring animal rescues and the work the family does at their animal sanctuary. This time the family is off to Sri Lanka. They’ve heard a rumor that an extremely rare Pondicherry shark might have been sighted. Once they arrive, Adrianna, Feye, and their parents discover the rumored Pondicherry shark is the main

attraction in a restaurant aquarium. Is this shark really the one they're looking for? And if it is, can they convince the restaurant's owners to release it back in the wild? Packed with animal facts and illustrations, as well as non-fiction backmatter, *Wild Survival* is a compelling series for anyone fascinated by the natural world.
