Stillness Is the Key Penguin

NEW YORK TIMES BESTSELLER • The instant classic about why some ideas thrive, why others die, and how to make your ideas stick. "Anyone interested in influencing others—to buy, to vote, to learn, to diet, to give to charity or to start a revolution—can learn from this book."—The Washington Post Mark Twain once observed, "A lie can get halfway around the world before the truth can even get its boots on." His observation rings true: Urban legends, conspiracy theories, and bogus news stories circulate effortlessly. Meanwhile, people with important ideas—entrepreneurs, teachers, politicians, and journalists—struggle to make them "stick." In *Made to Stick*, Chip and Dan Heath reveal the anatomy of ideas that stick and explain ways to make ideas stickier, such as applying the human scale principle, using the Velcro Theory of Memory, and creating curiosity gaps. Along the way, we discover that sticky messages of all kinds—from the infamous "kidney theft ring" hoax to a coach's lessons on sportsmanship to a vision for a new product at Sony—draw their power from the

same six traits. *Made to Stick* will transform the way you communicate. It's a fast-paced tour of success stories (and failures): the Nobel Prize-winning scientist who drank a glass of bacteria to prove a point about stomach ulcers; the charities who make use of the Mother Teresa Effect; the elementary-school teacher whose simulation actually prevented racial prejudice. Provocative, eye-opening, and often surprisingly funny, *Made to Stick* shows us the vital principles of winning ideas—and tells us how we can apply these rules to making our own messages stick.

The Art of Deception Little, Brown

Instant #1 New York Times Bestseller & Wall Street Journal Bestseller In *The Obstacle Is the Way* and *Ego Is the Enemy*, bestselling author Ryan Holiday made ancient wisdom wildly popular with a new generation of leaders in sports, politics, and technology. In his new book, *Stillness Is the Key*, Holiday draws on timeless Stoic and Buddhist philosophy to show why slowing down is the secret weapon for those charging ahead. All great leaders, thinkers, artists, athletes, and visionaries share one indelible quality. It enables them to conquer their tempers. To avoid distraction and discover great insights. To achieve happiness and do the right thing. Ryan Holiday calls it stillness--to be steady while the world spins around you. In this book, he outlines a path for achieving this ancient, but urgently necessary way of living. Drawing on a wide range of history's greatest thinkers, from Confucius to Seneca, Marcus Aurelius to Thich Nhat Hanh, John Stuart Mill to Nietzsche, he argues that stillness is not mere inactivity, but the doorway to self-mastery, discipline, and focus. Holiday also examines figures who exemplified the power of stillness: baseball player Sadaharu Oh, whose study of Zen made him the greatest home run hitter of all time; Winston Churchill, who in balancing his busy public life with time spent laying bricks and painting at his Chartwell estate managed to save the world from annihilation in the process; Fred Rogers, who taught generations of children to see what was invisible to the eye; Anne Frank, whose journaling and love of nature guided her through unimaginable adversity. More than ever, people are overwhelmed. They face obstacles and egos and competition. *Stillness Is the Key* offers a simple but inspiring antidote to the stress of 24/7 news and social media. The stillness that we all seek is the path to meaning, contentment, and excellence in a world that needs more of it than ever.

The Critical Thinking Toolkit John Wiley & Sons

THE MILLION COPY INTERNATIONAL BESTSELLER 'If power is your ultimate goal, this is the book you need' The Times Amoral, cunning, ruthless, and instructive, this piercing work distills three thousand years of the history of power into forty-eight well-explicated laws. As attention-grabbing in its design as it is in its content, this bold volume outlines the laws of power in their unvarnished essence, synthesizing the philosophies of Machiavelli, Sun-tzu, Carl von Clausewitz, and other great thinkers. Some laws require prudence ("Law 1: Never Outshine the Master"), some stealth ("Law 3: Conceal Your Intentions"), and some the total absence of mercy ("Law 15: Crush Your Enemy Totally"), but

like it or not, all have applications in real-life situations. Illustrated through the tactics of Queen Elizabeth I, Henry Kissinger, P T Barnum, and other famous figures who have wielded - or been victimised by - power, these laws will fascinate any reader interested in gaining, observing or defending against ultimate control.
