MORSE FAULKNER

The Wines of Spain Simon and Schuster

The transformation of the Spanish wine industry over the last 20 years has been astonishing. From a state of very considerable decay it has re-invented itself with great vigour and style. Four decades ago such reputation as the wines of Spain had rested on the declining quality of Sherry and the occasional majestic Rioja towering above the surrounding sea of mediocre, oxidised table wines. "How things have changed!" exclaims Julian Jeffs in the introduction to his valuable *The Wines of Spain*, the latest addition to Faber and Faber's series of wine books. Over the course of two years Jeffs put in a great deal of intensive research in Spain, travelling the length and breadth of the country, visiting growers and tasting their wines. The effort has paid off in a wealth of engrossing detail. The volume is organised into sections dealing with the main provinces or geographical regions--Aragon, Catalunya, Andalucia and so on--then within those by the individual Denominacion de Origen (DO). Within each DO the leading or most interesting bodegas are profiled, allowing Jeffs to build up a cumulative portrait of the regional characters. Especially evocative are the portions of the book dealing with the ancient and distinguished Sherry houses in Andalucia, many of them of course founded in the 18th or 19th centuries by British or Irish merchants. The account of the great Bodegas Vega Sicilia in Castilla is emblematic of the progress of the entire Spanish wine industry: Producing some of the world's finest wine up to the 1920s, it fell into poor practices and the quality and reliability of the wine suffered badly. Under the modernising current owners the wine has regained its former reputation. According to Julian Jeffs, Vega Sicilia "is on a Wagnerian scale, with all that master's subtlety and complexity." --Robin Davidson --This text refers to an out of print or unavailable edition of this title.

Picturesque Rioja, Spain's most prominent wine region, is a new world within a very old world. Winemaking here dates to Roman and medieval times, and today modern wineries designed by Gehry, Calatrava, and other celebrity architects flourish alongside traditional villages. Lavishly illustrated with photographs of the people and landscape and with detailed maps, this guide ranges over a diverse area from Rioja to Navarra, Bierzo, Galicia, and the

Basque country as it explores winemaking from the ancient to the traditional and modern. Written by a trio of experts on Spanish wine, it provides insider information on a region home to Spain's finest Tempranillo, its prestigious Albariño, and many other indigenous grape varieties such as Garnacha, Mazuelo, and Viura. The authors look in depth at topics including climate and soil, grape varieties, and viticulture, and profile more than 85 individual wineries. They also include information not available elsewhere: several top ten lists plus "secret addresses" for the best restaurants and shops in which to find aged and historic vintages of Rioja.

Spain has more land under vine than any other country in Europe, and over the past thirty years has transformed its wine industry into one of the greatest in the world. Using a unique combination of native and imported grape varieties, Spain now produces a wide range of quality wines. Yet its wine regions and villages,

many of which are located in unspoiled and remote areas, remain relatively unknown. The authors introduce the wine-loving traveler to these regions providing a background to their wines and leading bodegas, or wineries.

Most rational people don't pay \$40 for \$20 items. And yet with wine, it happens all the time. Wine can be an expensive hobby. Founder of the popular site *ReverseWineSnob.com*, Jon Thorsen is an unapologetic frugal wine consumer. He flips wine snobbery on its head by pushing a \$20 or less mantra. *Reverse Wine Snob* is designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars. It reveals Thorsen's Ten Tenets of *Reverse Wine Snobbery*—ten beliefs that eliminate myths about wine—as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price. In Jon's unique system, the more expensive a wine, the better it must taste. *Reverse Wine Snob* explains: The number one rule all wine drinkers should follow, no matter what the wine snobs say. How to shop for wine at stores like the nation's #1 wine retailer Costco and Trader Joe's. The regions and varieties of wine that give the best value. Why the price of a wine has nothing to do with its taste. Why the distribution system in the US is broken which costs you money and limits your wine choices. Tons of Jon's very favorite wine picks. Jon dapples in every kind of wine from \$10 kitchen sink blends to the \$20 "Saturday Night Splurge," so delicious it's worth twice the price. *Reverse Wine Snob* brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine. The companion volume to Evans' *The Wines of northern Spain* explores the great variety of wines produced across the rest of Spain. Beginning in the east with Catalunya, the book journeys south down the Mediterranean coast to the Levante. The heart of Spain, including Madrid and La Mancha is explored before we reach Andalucia in the south and voyage on to the Balearic and Canary Islands. The regions covered could not be more different, separated by language, customs and history as well as by gastronomy and wines. After a chapter on key grape varieties Evans explores each region in turn, relating its history, exploring current trends in winemaking and viticulture and profiling the key producers. There is also a chapter on Spain's sparkling wines.

"I traveled over the course of almost two years with photographer Estanis Núñez, an old friend of mine, just like we used to in our rock'n'roll days, taking photos, eating and drinking together. This book contains 14 profiles of vigneron, each of them different,

spanning most of the wine-producing regions of Spain. There are others, but this is my personal selection. Their profiles talk about the history, landscape, vineyards, cuisine, passion and tradition of their region. You won't find tannins, anthocyanins, vintages, points or tasting notes here. I am hardly going to talk about wine at all. But you will find the often-forgotten human side and the context of what is in the bottle, including local cuisine (where wine plays an important role) as well as each winegrower's personal take on it. . Their main aim in life is to portray the uniqueness of their vineyards, villages and landscapes through a bottle of wine. Wine that can transport you back to the time and place it was produced the moment you drink it. These are the new vigneron. A new generation of Spanish winegrowers."
